TARIFF LITERATURE FOR ALL.

The AMERICAN PROTECTIVE TARIFF LEAGUE is publishing a most valuable series of tariff documents. These are prepared with a view to state the facts and arguments for Protection, whether in the interest of farmers, laborers, merchants or professional men. Each issue of the series appeals to those engaged in separate industries, and presents indisputable facts—comparisons of wages, cost of living, and other arguments showing the benefits of Protection.

Any single one will be sent on receipt of cents in stamps except "Wages, Living and Tariff," which will be sent for 4 cents.

The whole list will be sent for 30 cents or any twelve for 20 cents, or any five for 10 cents, postage paid. Order by number.

A Lady's Perfect Companion.

Our new book by Dr. John H. Dye, one, of New York's most skillful physicians, says that pain is not necessary in childbirth, but results from causes easily understood and overcome. It clearly proves that any woman may become a mother without suffering any pain whatever. It also tells how to overcome and prevent morning sickness and the many other evils attending pregnancy. It is highly endorsed by physicians everywhere as the lady's true private companion. Cut this out and it will save you great pain, and possibly your life. EDITORIAL ETHICS.

THE first genuine summer day of the year is April 4th.

ALL the city and village clerks in the state, with but very few exceptions, have declined to square loose for high license.

THE two largest opera houses in the U. S. are the Philadelphia opera house, with a seating capacity of 3,000 and the Metropolitan opera house, New York, 3,500.

FRANK P. IRELAND was elected mayor of Nebraska City by 124 majority over Paul Schminke. Col. Ireland will now have an opportunity of enforcing some of his long cherished "prohibition ideas."

THE deepest artesian well in the world, is the one that supplies the baths at Pesth, in Austria—Hungary. It is 8,149 feet deep and supplies 179,000 gallons of water daily, at a temperature of 158.7 Fahr.

OUR coining mints are four in number, and are situated as follows: Philadelphia San Francisco, Carson City and New Orleans. The assay offices are located at New York, Helena, Boise City and Denver. The most of the coining is done at Philadelphia.

"EVEN the most heinous and needless political blunder has certain compensations. The election of a democratic legislature and a democratic governor in Ohio in 1889 has made democratic success in that state impossible in any subsequent election within the next eight or ten years."

"FROM a on the basis of population Wyoming as a state will rank low, but it will be larger than Nevada, and be much larger than Ohio, Missouri, Illinois and most of the other western states were when admitted. According to the estimates of its officials, it has 110,000 inhabitants now or more than five times as many as it had in 1880."

THE Grandin wheat farm, in South Dakota, comprises about 40,000 acres, and is one of the largest farms in the world. In working this farm forty-five gang plows, two plows in a gang, each cutting from fourteen to fifteen inches, forty-five gang harrows, forty-four broadcast sowers, seventy-five self-binding harvesters are used. Over 200 men are employed on the farm.

THE returns from the great tornado in the Ohio valley figure up the killed as follows: Louisville, 120. Other parts of Kentucky, 297. Illinois, 56, in Indiana, 22, and in Tennessee 9 Total, 414. It is thought that the total will reach 500 when all of the names of the dead or mortally hurt are in. The property loss is estimated, for Kentucky, $3,000,000; Illinois, $800,00; Indiana, $325,000; Tennessee, $150,000.—Ex.

THE survivors of the Greely exploring expedition are now six in number. Gen. Greely is chief of the signal service; D. L. Brainard is second lieutenant of cavalry, at Walla Walla; Julius K. Frederick is sick and crippled at his home in Indianapolis; Henry Biederbeck is a messenger in the agricultural bureau at Washington; Maurice Connell is a private in the signal corps at San Francisco, and Francis Larg is a sergeant in the signal corps at New York.

A FEW facts about the Yellow Stone National Park: The Yellow Stone National park contains 3,575 square miles, or 2,288,000 acres of territory, larger by 264 square miles than the combined area of Rhode Island and Delaware. Its lowest or plateau elevation is 6,000 feet above the sea. The north and south measurement is 65 miles. It was set aside as a national park by act of congress, in 1872, and under the exclusive jurisdiction of the secretary of the interior, whose instructions, by the act, compel the preservation of all timber, natural curiosities or wonders in their natural condition.

THE republicans as the HERALD mentioned before nominated a strong ticket, that appealed to the best judgment of the people. The people have responded, regardless of party and as a result we have three republican councilmen from strong democratic wards, lost one in republican ward owing to a bitter personal warfare; it having never been charged that Mr. Murphy was not the best councilman the third ward ever had. And we elect the chief executive of the city by forty-seven majority in spite of a strong factional opposition. The largest majorities however for any candidate was given the republican nominees for school board, it was a most flattering testimonial of their fitness for that position and of their standing in this community; the democratic majority in this city only elected Morgan and Fox, they having gained some republican votes; both gentlemen were good clean nominees though in no sense superior to their republican opponents. Police Judge Archer falls considerable behind his ticket and defeats a republican that ought to have been elected.

SENATOR PADDOCK recently a large sum in the national treasury belonging to this state. The following letter from the comptroller of the treasury explains our good fortune fully:

Treasury Department Office of the Comptroller—Hon. A. S. Paddock—Referring to your letter on the subject, requesting the earliest possible settlement of the Nebraska 5 per cent account, and asking to be informed when the draft for a balance thereof is likely to issue, I have the honor to inform you that this office has examined and adopted the account between the United States and the state of Nebraska, pursuant to section 12 of the act approved April 19, 2864, for the 5 per cent upon the net proceeds of the sale of public lands within said state from July 1, 1865, to June 30, 1889, inclusive, and the amount of $224,828.82 has been found due the state of Nebraska per report No 47,601. Of the above amount only $113,445.74 is now available for payment to the state. A draft has been directed to be forwarded to the governor of Nebraska. He will receive the same payable to his order in the course of business. The remainder of amount due the state on this account, namely $111,383.08, being the amount due the state for the fiscal year of 1888 and 1889, will be reported to congress for a special appropriation, and when made this office will direct the draft for said amount, payable to the order of the governor of Nebraska as heretofore. Respectfully yours,

(S. 2,916) A. U. MATHEWS,
Comptroller.

By J. E. GARRISON, Deputy.

IT is unfortunate that partisanship should have as large a place as it holds in the consideration of the admission of territories to statehood. For this however, the democrats are chiefly responsible. Dakota, as one or two states, was knocking for entrance for several years before its appeal obtained any serious attention from the democratic party; which was dominant in the popular branch of congress, the opposition of that organization being due solely to the fact that, either as one or two states, the republicans would be in control. At last when a final issue could not be safely denied, the Dakotas sang younger. The democrats made their entrance contingent on the entrance of Montana and Washington, which they had some hopes of democratizing. Like tactics were attempted by the democrats in the present congress but the republicans have been strong and resolute enough to defeat them. The proposition to make another "omnibus" bill, to include democratic New Mexico and Arizona and republican Wyoming and Idaho, failed, and the republicans plan, which has the distinguishing quality of common sense and common justice has been adopted. Under this action the claims of each territory will be considered independently from those of the others, and the action taken in each instance will be determined by the merits of the individual case under deliberation.—Globe Democrat.

WM. NEVILLE, J. M. Patterson, S. M. Chapman O. H. Ballou, A. B. Todd, W. S. Wise and Mayor Ritchie start today for St. Louis to close the final arrangements with the M. P. people guaranteeing the right of way from Union via Plattsmouth through Cass county for the new railroad. The general warantee signed by fifty odd of of our best business men was taken to St Louis by the committee. The only strange thing about this railroad guarantee is that a few, and we are glad to be able to say a very few of our capitalists have refused to do anything to aid the Missouri Pacific in coming to Plattsmouth. These men, the HERALD notes, are men who have asked and received the assistance and help of the people of Cass county on divers occasions. While the HERALD does not intend to dictate to any man what business is on an occasion like this, we cannot help but note this lack of public spirit in these gentlemen and want of confidence they display in our city, in the people and even in themselves. We are going to have the Missouri Pacific and we are going to record the names of the generous, energetic, unselfish, wholesouled, men of Plattsmouth who have taken charge of her interests in this matter and secured to us the Missouri Pacific spelled with a large M P.

HENDERSON, of Iowa, stirred up democracy in congress yesterday while discussing the admission of Idaho as a new state in the following lively fashion: Mr. Henderson said the attitude of the democratic party was a familiar sight to the country. The democratic party was in its old breech, pulling back, when the civilized world cried "forward and onward." The democratic party was the Holy Ghost. It had a batch of wives. Slavery was one, slave territory another, treason another. [Derisive laughter on the democratic side.] Mr. Henderson—Oh! you recognize them. You know their names. And now you have polygamy for one of your wives. Corrupt ballot boxes was one of your wives, and you have been true to every one of them. [Laughter] You never left their bed and board for a single moment, I like your loyalty for them. But do not shock behind constitutional shields to escape your purpose. The people know what you are. The HERALD wishes him success in his new home.

The Journal's fun of jumping on J. A. Cleaver [illegible] is not to be commended. Mr. Cleaver whether [illegible] highly esteemed as a good citizen. The simple fact that Dr. H. Wolfe was a democrat may be the secret which has caused a reflection on the standing or integrity of Mr. Cleaver. The HERALD insists upon a fair show regardless of party.

"Today will be kept as a memorial of the institution of the sacrament of the altar, the Lord's supper. Roman Catholic churches will celebrate masses. The ceremony at blessing oils, chrism, etc., also being one of great solemnity. To the faithful this is a function of grave importance."

We see from Kearney papers that Kearney's city council has appropriated $300 to aid their hose team in their final contest this year, at Plattsmouth, for the state championship and champion cart; they having won it twice, if they succeed in again winning, it will belong to them forever. We simply mention this to show how liberal the city of Kearney is. Three years ago Kearney had the Fireman's tournament; the citizens raised $4,000 in cash, they offered $3,000 in prizes, took in $2,000 gate money; paid the boys all fair, gave $1,500 to the [illegible] and $500 to department [illegible] And let us say right here, that the Firemen's tournament held in Kearney in 1887, was the first real boom for Kearney and one of the many that followed to make that town what it is today. Let our city council be liberal in these matters with the fire boys and [illegible] in [illegible] shape, as this will be one of the big games for Plattsmouth this coming year. The secretary is receiving [illegible] every day for a different address, and he has [illegible] that this will be the largest tournament ever held in the state.

FRANK AND GONZALI.

A rainy evening prevented what would have been a big audience at the opera house last night. Less than two hundred people were in attendance, yet as far as we could learn all present had a good time and they got through the rain.

The show was very good indeed. The Gonzalis are supported by twenty of our best musical people and is artily applauded. The Omaha quartette was a valuable acquisition, yet some of our home talent was equally well received.

When we put all in mind where all did well it is not say that we are glad to know they will repeat the program every day when those who love a good show will have an opportunity of hearing it.

The Feats of Strength were a great hit, but as the performance is to be repeated we will not go into a detailed description but take pleasure in assuring our readers that they will miss a splendid entertainment if they are not present at the next performance.

The HERALD learns today from Mr. Myers and others, that there was no basis for the criticism against Foreman Shock, of the planing mill. Mr. Myers had only been laid off for the balance of the week and the reason for it was his continued and oft timed absence from duty without notifying his foreman as he required. He could have laid off a day or election day if he had requested it, but instead of asking for one day when work was crowding in on them he had without notice already been off Saturday and Monday. The HERALD had no intention of doing any one an injustice, the information comes to us direct from parties whom we, at the time, supposed knew the facts and as we thought, were giving them. The correction of the report is gladly made.
