Will Abolish Cinders and Smoke.

The Portland locomotive works are constructing an engine which it is believed will save several millions of dollars annually to the railroads of this country, says a Boston dispatch to the Chicago Tribune. This engine, it is expected, will reduce the consumption of fuel by at least 20 per cent and altogether do away with cinders and smoke. The peculiar mechanism which produces the result is a downward draught as opposed to the present upward one. The engine will be completed early in May, and will make a journey across the continent to test its work and exhibit its construction.

Mr. Marsh's Opinion.

James Marsh of Aten, Neb., after an experience of four years in selling Chamberlain's Pain Balm, says: "It is the best and most reliable liniment ever produced." A fifty cent bottle of it will accomplish more in the treatment of rheumatism, lame back or severe sprains than $5 invested in any other way. The prompt relief from pain which it affords is alone worth many times its cost.
