Weakness at Liverpool is Chief Factor in Local Grain Markets.

WHEAT YIELDS ONE CENT UNDER PRESSURE

Corn is Also Affected and Oats Takes a Sympathetic Dip and the Depression Even Extends to Provisions.

CHICAGO, Nov. 8.—Liverpool's weakness was the chief factor in the grain markets today. Wheat closed 1c and corn ⅜@½c lower. Oats sympathetically lost ¼c. Provisions were heavily sold. January pork closed 52½@½c lower; January lard a shade under and January ribs 2½c higher.

The loss in Liverpool worked potently on the price of wheat at the opening. The initial price was under puts, at a loss from yesterday of ½@⅝c, December at 68⅛@68⅝c and May at 72⅛@72⅝c. At these figures there was some buying by shorts and against holders of puts, which resulted in a rally of ⅝c. This failed to hold. The fact that there was almost no outside demand acted as a bearish influence and there was a rush to dispose of long stocks on the bulge. The price declined, December to 68⅜@68½c and May to 72⅜@72½c. At this point there was a rally caused by a determined effort to protect puts, which sent the December option to 68⅝c and the May to 72⅞@72⅝c. These figures acted merely as a bait to bidders and the price eased off on profit taking to 68⅛c for December and 72½c for May. The close was weak, December at 68⅛@68⅛c and May at 72⅛c. At no time did the price get above puts. A reported increase of 28,000,000 bu. in the world's stock for October had much to do with the closing weakness. Northwest receipts were 778 cars, as compared with 2,554 cars last year and 589 cars last week. Receipts at primary points were 933,000 bu., including yesterday's receipts incompletely reported on account of elections. Primary receipts were 2,000,000 bu., as against 3,213,000 bu. a year ago. Receipts here were 85 cars, 7 of contract grade.

Export clearances at the seaboard, exclusive of yesterday's, were equal in wheat and flour to 581,000 bu. Bradstreet's reported a decrease of 1,453,000 bu. New York reported 22 loads for export.

Corn showed little strength, following wheat on the Liverpool weakness. Local receipts were small, but the country acceptances were reported increasing. Trading was moderately active. The opening was a net loss of ¼@¼c from yesterday. The market declined steadily under liquidation and was at its weakest at the close. December opened at 31⅝@31½c, ranged from 31⅛c to 31⅜c and closed ⅜@⅜c lower at 31⅛@31¼c. May opened at 32⅝@32¾c, ranged from 32½c to 32⅞c and closed at 32½c. Receipts were small, only 151 cars. Seaboard clearances were 578,000 bu.

Sympathy with corn and some liberal selling by shorts caused a decline of ¼c in oats. The trade was fairly good, but no transactions of importance were reported. The cash demand was slow, both locally and at the seaboard. December oats opened at 22½@22⅝c, sold at 22⅜@22⅝c and closed at 22⅜@22½c. Receipts here were 151 cars.

Irregularity marked the trade in provisions. The opening was at a slight gain and this was followed by an advance, chiefly in pork, which went up 7½c, caused by investment buying and liberal shipping orders. The market turned weak later on free selling of pork and lard. January pork closed 5⅝c under yesterday at $9.70 bid, January lard a shade under $5.25 and January ribs 2½c higher at $5.00.

Estimated receipts tomorrow: Wheat, 80 cars; corn, 200 cars; oats, 110 cars; hogs, 36,000 head.

MOVEMENTS OF STOCKS AND BONDS.

Market Opens at Brisk Pace, But Gains Are Soon Wined Out.

NEW YORK, Nov. 8.—The stock market started off this morning apparently on a prosperous and animated career of rising prices, but before the trading had ceased this afternoon the early gains were practically all wiped out and a level of prices lower than Monday was established. Various considerations connected with politics were an influence in the early rise. Thus the London market was encouraged by the more cheerful news from the beleaguered British forces in South Africa and prices of stocks were bid up in that market. The Berlin market was pleased with the report that Great Britain had decided to relinquish its claims in Samoa to Germany, and one result of this was to prompt Berlin to buy American stocks. In this country the relief from the uncertainties of election time and the hope of an easier money market prompted some large buying of stocks which lifted prices at the outset. But there were large holdings by professional operators which had been bought last week in the faith that an outside demand for stocks would develop and the first hour of trading was devoted to the selling of these holdings on a large scale to take profits. When it was seen that the buying demand was not continuing in force the sagging tendency set in. Efforts were made to sustain prices by manipulation of special stocks, members of the iron and steel group and the prominent high-priced industrials being conspicuous. The violent break in Leather and the heavy selling of Manhattan had an unsettling influence on the whole market, and the stiffening of the money rate and uneasiness over the future of the money market completed the discouragement of the bulls. The organized support which has pushed up Leather for several weeks seemed entirely withdrawn, and it was allowed to drop the successive stages of 7 points, compared with 40 at the close on Monday. A sudden rally in the closing dealings brought the price back to 31. Manhattan had risen to 111⅝ when the statement for the fiscal year made its appearance, showing a failure to earn the increased dividends paid on account of the addition of stock by a margin of $238,360. This carried the price down to 107½, with a final recovery of only ½. The industrials showed marked sympathy in this break and the level of the whole market fell below Monday, the general rally being but feeble. The fall in sterling exchange rates was a reflection of the hardening money market. There was evidence of renewed pressure upon New York for loans from interior points, New York exchange at Chicago falling from 10c premium to par. New York exchange at New Orleans also fell to an additional discount. The subtreasury today showed a credit balance at the clearing house of over $350,000. Hopes of relief to the New York money market from any quarter were thus dissipated, but the last hour of the market saw an active liquidation of stock holdings with little demand to meet it.

Prices of bonds were better sustained than those of stocks, but the day's changes were mixed. Total sales, par value, $2,480,000. United States new 4s and the 5s advanced ⅛ per cent in the bid price.

The Commercial Advertiser's London financial cablegram says: "The markets here were brisker today than for some time and also more cheerful. Various war rumors were current. It was said in Berlin that Kimberley had been relieved and on this report Germany bought African mines. The alleged concessions to Germany in Samoa were interpreted favorably. It was thought that compensation to Great Britain might include Delagoa bay. Consols were 100⅞ in the morning on fears of a higher bank rate. Later, opinion on this point changed and consols went to 101⅛. Americans began strong on reports of republican success in the elections, but weakened on New York sales, closing flat on reports of democratic gains. Spanish 4s reached 64⅝ on a vague story from Paris that Russia had bought Ceuta, opposite Gibraltar, for a large sum. Tintos were 46½@46¾. Anacondas, 9 11-16. No gold was engaged, but the price was advanced to 77s 10d. There is very little in the market. Money was in strong demand, but Paris exchange, despite the strength of London bills, moved 2c in favor of England."

Foreign Financial.

BERLIN, Nov. 8.—The rate of private discount was ⅛ harder today, therefore prices on the bourse opened hesitating on apprehensions of further stiffening of money. Later they became firmer on receipts of the news of the agreement between Germany and Great Britain in regard to Samoa. Spanish 4s were good on favorable advices from Paris. Americans and Canadian Pacifics were maintained. Locals were weak, but closed better. Exchange on London, 20 marks 45½ pfgs. for checks.

FRANKFORT, Nov. 8.—Prices on the bourse today were favorably influenced by the news received from South Africa and the announcement of the Anglo-German agreement in the matter of Samoa. Portuguese and Mexicans were harder. Americans were firm. Locals fluctuated.

PARIS, Nov. 8.—There was a general recovery of prices on the bourse today, which was encouraged by the lesser probability of a rise in the bank rate and was accentuated by the more favorable war news. Kaffirs made a good advance and were actively bought on English account, affecting the whole list. Internationals were in good demand in sympathy with the sharp rise in Spanish 4s. Rio tintos started well, but lost the advance later on the easy tone of copper. Mozambiques were especially strong. 4 p. m.—Three per cent rentes, 100f 25c for the account. Exchange on London, 25f 24½c for checks. Spanish 4s closed at 65.35.

LONDON, Nov. 8.—American securities advanced at the opening and remained steady all day. Business was rather restricted. The final tone was steady. Bar gold, 77s 10d. Spanish 4s, 64.25. Gold premium at Buenos Ayres, 138.29.

BUENOS AYRES, Nov. 8.—Gold was quoted today at 170.80.
