CONDEMN HIGH PRICED STOCK FOODS

Prominent Hog Raiser Says Prices Charged Are Unwarranted—Makes His Own Hog Food, With Better Results.

"That he is all through paying fancy prices for stock foods and hog remedies and that he is raising some of the best hogs ever placed on the market" was the statement made recently by E. H. Beckstead, well known hog raiser and authority on live stock.

Mr. Beckstead's hogs are the envy of his neighbors, and have "topped the market" for several years in Iowa. He states that for years he bought high-priced hog foods and hog remedies, but he is all through paying extravagant prices for what he can made himself. He states that what the hogs need are minerals, and tells the secret of his wonderful success by explaining that he takes about five pounds of ordinary mineraline (which is pure concentrated minerals and cost only a couple of dollars) and mixes same with enough bran or filler to make a hundred pounds. All hogs, and especially brood sows require minerals as they keep them free from worms, and in the pink of condition, and are essential to the hogs growth and a well balanced ration. This inexpensive mixture placed in a sheltered box where the hogs can get at it as they need it, will produce far better results than any high priced so-called stock foods.

Send two dollars to The Mineraline Chemical Co., 1638 North Wells St., Chicago, Ill., and the ywill forward you by prepaid parcel post, enough mineraline to make a full hundred pounds. (Adv.)
