The prize winner now is "Wurl Bros." famous 5-cent cigar, which has no equal on the market. It has forged its way to the front against keen competition and is now one of the best sellers in eastern Nebraska, because it is made from the finest tobacco, carefully selected. The "Porto Reco" is our best 10-cent cigar. Remember—Otto Wurl, Manufacturer.

No musical entertainment in recent years can compare with the cantata of Queen Esther to be put on at the Presbyterian church the evenings of August 12th and 13th, Thursday and Friday of this week. Nearly fifty people take part in the program, counting the great chorus, which is quite an interesting feature. The soloists have all been selected on account of real musical talent, and the result is a charming rendition of this beautiful cantata which will delight the public. Reserved seats are now on sale at Lehnhoff's, and those desiring to attend should secure seats early.

OBITUARY.

Richard Kinneman, whose death was briefly mentioned yesterday and whose funeral occurred this afternoon, was one of the early residents of this county, having come here in the "fifties." He was born in 1818, and was therefore past seventy-eight years of age. He enlisted with company A, first Nebraska regiment, and served through the war. He was sick but a short time, and died of congestive chill, leaving a wife and nine grown children to mourn his demise. Mr. Kinneman bought a farm across the river a few years ago, where he has of late resided. His old comrades and friends of early days will indeed be sorry to hear of his call to the other world.

All Aboard For Union.

Col. Stoutenborough of the Missouri Pacific, informs us that a coach will be attached to the freight which leaves here at 7:35 a. m. for the convenience of Plattsmouth people who wish to attend the old settler's reunion at Union. The coach will be brought back on the train leaving Union at 5:30 in the afternoon. This arrangement is for both days.

The fare will be 60 cents for the round trip. The days are Wednesday and Thursday of this week.

Hogs Thrive on Sorghum.

A correspondent of the "Texas Farm and Ranch" says: "I have found sorghum the best paying feed for hogs. Plant and cultivate as you would to grind to make syrup; common land, five-foot rows, fifteen inches in drill. Plant three times in succession. First time at cotton-planting time; twice more three weeks apart. Commence feeding when the seeds are in dough. I estimate sorghum as being worth as much per acre for hog feed as three times the same land in corn.

Pearl Steam Laundry.

B. F. Goodman has secured a complete outfit of the latest up-to-date machinery, and will have it placed this week in the room next to the Vienna bakery. By Monday he expects to have one of the most complete laundries in the state ready for operation and asks a share of your patronage.

Will You Stand It?

The taxpayers of this city should go to the council chamber in a body tonight and help veto the last act of the Water company fiasco. The treasury is being looted, not by tens, but by hundreds of dollars. Matthew Gering, who claims to have been hired to defend the city in the Water company case, has drawn $414.56 as expenses, a cost bill in the federal court estimated at over $100 must be paid, and now another raid is made, or attempted, by Matthew Gering filing a claim for attorney fees of $600. Over $1,100 to be paid out, and for what?

The city was defeated in the federal court at Omaha, then Gering took an appeal to the wrong court and the city was beaten again. If he had taken an appeal to the proper tribunal we might have gotten a different settlement. His failure to do what he promised to do may have cost the city several thousand dollars, and now on top of that comes this bill for $600 more. There seems to be no limit so long as a dollar remains in the treasury, unless the taxpayers go and demand their rights.

A Strong Cast.

Since our publication of yesterday we have heard much favorable comment on the strength of the cast of "A Prisoner of War." Probably no stronger selection could have been made in this city.

In the part of Major General Stamberg, commanding the United States forces, Mr. Fitt should be unusually strong, as he certainly looks the part to perfection.

A rehearsal will be held this evening and also tomorrow evening, but on Thursday and Friday evenings on account of the cantata no rehearsal will be held, it being the wish of the P. E. O. to in no way interfere with the attendance at the Presbyterian church.

We are informed that the prices for "A Prisoner of War" will be as follows: Reserved seats and general admission the same price—25 cents. Admission for children under 15 years of age, 10 cents, but no seat will be provided at this price, and a special portion of the coloseum will be set off for the purpose of those taking advantage of this 10 cent rate. Children occupying reserved seats, will be charged the full price—25 cents.

A Live Merchant.

John T. Coleman has moved his stock of jewelry into the drug store with Hedbloom, and having a neat line of everything needed in watches and jewelry he is certain to get his full share of the trade. His expenses are light, and he is satisfied with a growing business rather than big profits, and purchasers will find his store replete with bargains. In repair work Mr. Coleman has no superior in the city, as many who carry watches willingly testify. Remember to call at his new quarters in the Hedbloom drug store, where O. H. Snyder formerly held forth.

Police Court.

George Humphrey was turbulent last evening, and when Officer Murray went to arrest him he drew a knife and showed fight. He was taken to the cooler just the same, and this morning he plead not guilty to the charge of disturbing the peace, and his trial was set for Friday. As an old fine unpaid was standing against him he was sent to jail to serve it out, and will be handy for trial Friday.

The savings banks of New York state have 36,000 more depositors and $26,000,000 more deposits than they had a year ago.—Ex.

Alaska has paid us to date $103,000,000. This enormous sum has been derived from furs, herring, salmon, cod, ivory, whalebone and gold. At the time of the last census the United States had taken out $76,000,000. Since then we have been enriched by $27,000,000. Of this, $20,000,000 has been gold, and the remainder from other products. These are giant figures, but they are the exact truth. The first actual settlement of that wonderful country will begin next spring. The sum total of what it will add to the world's wealth in the coming years passes conjecture. It will be a pile of money, mountainous and sublime.
