Romance in Origin Of Superstitions

By H. IRVING KING.

Shuddering.

Sometimes, without any apparent cause, when engaged in work or conversation which occupies the mind entirely, one will suddenly shudder. And then, if he is a superstitious person, he will at once recall the old superstition that such a shudder means that "Some one is walking across his grave." This superstition is an ancient one, having its basis in suggestion, and is common today in the rural districts especially. Of course the person seized with the sudden shudder, being still alive has, properly speaking, no grave. But there is, somewhere, a spot where his grave will be.

The shudder is caused by a slight temporary physical disturbance due possibly, to "an undigested piece of cheese." But to the man superstitiously inclined, the shudder seems uncalled for and out of place; and what is uncalled for and out of place must be accounted for. Allied to ignorance is fear. The imagination demands a working hypothesis of some kind and grasps at suggestion.

The shudder suggests something gruesome—and what could be more gruesome than one's own grave? But the place of one's own grave is always there—why should a connection between it and its future occupant be set up at that particular moment? Ignorance, fear, man's primitive instinct to try and explain what he cannot understand—the ingredients of superstition—offer the solution. The "grave" is being disturbed—" some one is walking across it."

Primitive psychology can be very minute and very logical in such cases. And there you have your superstition, which appeals much more to the imagination than any explanation the doctor may give you of your sudden shudder. Besides, the superstition is so much simpler and more easily understood than the doctor's explanation!

Do You Know the Bible?

(Cover up the answers, read the questions and see if you can answer them. Then look at the answers to see if you are right.)

Follow these questions and answers as arranged by J. WILLSON ROY.

1. What was the council of the Sanhedrin?
2. Why were the Sadducees generally opposed to the preaching of the gospel?
3. Who were the Pharisees?
4. What is the meaning of the word "Rabbi?"
5. Why were the Pharisees said to devour widow's houses?
6. What is meant by the "gates of hell," which should not prevail against the church?

Answers.

1. The highest tribunal held in Jerusalem at the time of our Lord.
2. Because, as semi-infidels, they had a greater repugnance to its teachings than even the Pharisees and the rest of the Jews, who still retained the spirit of the Mosaical laws.
3. A powerful sect among the Jews, whose prominent characteristic was a strict literal observance of the Mosaical law, to which a vast number of additions have been made.
4. It signifies "great" or "master," and was used as a complimentary expression when addressing a superior.
5. They endeavored to persuade the poor widows to make vows or offerings to the temple, by which they themselves became rich.
6. Gates are a common symbol in the Bible for power, government or security. To say, therefore, that the gates of hell should not prevail against the church was that it shall never die, it shall never be extinct.

Where It Started

Fraternities.

The first Greek-letter fraternity was Phi Beta Kappa, founded in 1776 at the college of William and Mary. Originally a social organzation, it became an honorary society in 1831. The first fraternity organized strictly on the order of the modern college fraternities, was Kappa Alpha, organized in 1825 at Union college.
