DRY GOODS.

NEW YORK, September 18.—There has been a fair demand and the market shows a steady hardening, but particularly so for low and medium grades of bleached and brown cottons. flannels, dress goods and printing cloths, the last named advancing 6 per cent in ten days. Agents again advanced Amoskeag shirtings 2½ per cent, also Amoskeag ticking ½, Alexandria 36 and bleached cottons to 9 cents. In all classes of reasonable specialties there was good business and a combination of large trade by jobbers at all distributing points maintains an order demand in excess of both stocks and production. The Empire Woolen company, also the Riverside mills and Oswego Falls company, having sold the largest possible production to April, 1884, have withdrawn samples of woolens and worsteds from further sale. The tone of the general market is stronger and healthier.

THE NECESSITY
FOR THE SPECIALIST,
DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and know how to treat them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a more enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately for humanity, the day is dawning when the false philanthrophy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner
