The Drama at Weeping Water.

The Weeping Water Dramatic Club have in rehearsal Ten Nights in a Barroom, which they intend rendering for the benefit of the Red Ribbon Club at Weeping Water on Friday evening, March 7th. Their programme would indicate that the play was well cast, and with all the accessories of orchestra, etc., will be exceeding'y interesting, and entertaining. Wish we could be there to see.

—Tuesday witnessed a regular Nebraska "blizzard" which, though severe while it lasted, was of short duration. It began to snow about nine o'clock, and until three the wind blew and the snow fell so fast that it was almost impossible to see. Out on the prairie the war of the elements must have been overpowering to travellers. About three the wind lessened a little, the snow ceased to fall, and the thermometer began to descend below zero, rapidly, and Tuesday night was one of the coldest nights we have had.

—We have before us the 10th Annual Report of the State Superintendent of Public Instruction, presented us by Prof. Thompson on our last visit to Lincoln. It is illustrated with cuts of the best school buildings in the State, among which appears our high school building, at Plattsmouth. Prof Thompson says he can hardly supply the demand for these reports from those east who desire to come to Nebraska and make a home, and wish to know how our educational interests are managed.

—The HERALD Job Office this week gets out for Mr. W. J. Hesser a very fine wholesale price list of greenhouse and bedding plants. Mr. Hesser is making arrangements to supply these plants in greater quantities than any previous year, and at prices as low as eastern houses. His stock comprises full varieties and his plants are always thrifty and well grown. We predict for Mr. H. a big run of trade this Spring, and profits enough to build a mansion on the hill, and additional greenhouses, and all sorts of improvements.

—Going down the Street Monday we met John Shannon who with a grave face very earnestly asked us if we wanted to make one of a party going to the Black Hills next spring to stay a month or two He said Andy McLaughlin, Capt. We began to tell about the work we had to do and that it was doubtful if we could leave—when John says "Oh well, if you can't go, its no matter, we just thought Johny Heffner went out there last year and came back and found three babies and maybe if we went"——* * *——This is the meanest town for an unfortunate man we ever lived in. Some day we'll get even with these boys and then there'll be a wail.

JUDGE PEABODY!
PURE GRIT.
HIGH SCHOOL HALL!
Friday Evening.

—Just before we left for Lincoln, Tuesday, we were informed by our better half that she was going to have a "kettle-drum" at our house, and she was glad we were going away. Well, what's a kettle-drum? That's just what we asked, and on figuring the thing down fine, not to put a nice point on it, we found out it wasn't anything much, only a hen-party, where they drink tea and things and have a good time. Now, you just hold on old lady, sending us off that way, just you wait till you go up to see your mamma this summer and if we don't have a high old stag-party all on our own account in that house, grass won't grow, that's all. We'll invite all our gentlemen friends, the lawyers, the doctors and the politickers, and will have whis—t and cigars and checkers and will use lots of Adam's ale for culinary purposes, and to dilute things, and when you come home that house will show the effects of a flood. We propose to raise you out of the game, go one better on your "kettle-drum," and let a whole band chip in.

The Wrestlers.

On Friday evening last the farfamed and plucky little Frenchman Albert Christol, held a wrestling match with the champion of Nebraska, called Clarence Whistler. It seems the men tried a bout in Omaha, and Whistler threw the Frenchman, but it was claimed there was some unfairness about it, and Christol challenged Whistler to try it again at Plattsmouth, where Whistler would not be surrounded by his friends.

The hall was moderately full, some of our best citizens attending, no ladies and no children admitted. Messrs. Sage and Bestor were chosen referees, and Capt. Solliday, umpire. Phil Young read the rules of the match. The men were stripped to the waist and were not allowed to catch any hold below the belt, no tripping, no touching of the knees but fair Graeco-Roman, manly strength wrestling.

Whistler is much the larger man and threw Christol the first fall. Christol gained the second fall and strained Whistler's elbow so that he could not use it in the third round, though Christol was not allowed to catch on that side. Christol won the last fall, and, of course, the match. Prof. McCune gave some exercises with war clubs, and Christol and W. L. Wells tried the gloves a little. All was orderly and quiet and the audience expressed themselves pleased.

—A young boy of about sixteen, son of one of our most respectable citizens, was arrested on Friday last, for stealing from the money drawer in the ticket office at the depot, $24.00. He confessed his crime and showed the whereabouts of the stolen money, all but $5.00 with which he had liquidated a debt at the Temperance Billiard Hall. His trial before Judge Sullivan resulted in a fine of fifteen dollars and costs, the judge stating that had there been a reform school in the state he should have been sent there, but as the only other punishment was imprisonment in our palatial and exquisitely clean county jail, which would only work him evil, he would let him off this time with a simple fine. This should call the attention of parents to the fact that many of our town boys spend altogether too many of their precious hours, which should be devoted to obtaining an education, or learning a useful trade, in hanging about the billiard hall. This amusement is harmless enough in itself, but the way to make boys and girls temperate is to teach them that over indulgence in anything is intemperance, and if they do not control themselves in their amusements, they will weaken their ability to resist temptation and thus render themselves more liable to fall into graver temptations, as did this youth, whose over indulgence in billiard playing led to a desire for money to carry it on, and to gratify that desire, he yielded to the temptation to commit a crime that lays him liable to the laws of the state.

The steps downward are very easy, boys, and seem harmless enough, but it is very hard work to climb the path back to honesty and *temperance* again, once you get started down.

Charge of the Rat Brigade.

Half a rod—half a rod—half a rod onward,
Right through the holes they made
Stole the six hundred.
Too shrewd for trap or cat,
Boldly they came and sat,
Eating "Centennial Rat-
Ex-term-inator!"

Now for fresh air they run,
And as they writhe and burn,
Each asks his mate in turn,
Is this the equator?
Then falling stiff and flat,
Men cry, approving, "That
Was the Centennial Rat-
Ex-term-inator!"

When will its triumphs wane?
Not while the rats remain;
Not while it proves their bane;
Anti-fill-ation.
Sound, then, its praise so high,
Nations abroad may cry
We, too, entreat to buy
"Centennial" Rat-and-dry
Ex-term-inator!

Actuated by this motive and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. The last that has come to our notice is informing our friends that they have secured the agency for sale of the Mason & Hamlin Organ. For the information of Friends of the Mason & Hamlin Organ I will say these men are *Frauds* and that only the gentlemen named below can furnish the Mason & Hamlin Organ. A Handsome Income for an Energetic Lady or Gentleman.

The Ohio Scale Works of Cincinnati have just completed and are now introducing to the public a Handsomely finished Family Scale, an article that has always been needed in every household, and in a communication addressed to the publishers of this paper the proprietors ask us to refer them to some reliable party, to introduce it for them to the people of this County. It is very seldom that a new article steps so suddenly into universal favor. Housekeepers are loud in its praise, it is always ready, there are no weights to get lost or to be hunted up, is reliable, and will not get out of order. The description of them is a handsome base surmounted by a column in which works a spiral spring so scientifically adjusted as to weigh anything up to twelve pounds with perfect accuracy, on the top of the column is the platform on which the articles to be weighed are placed, and they have an adjustable indicator so that you can tank the tare of any vessel you may use in weighing giving you the exact net weight. Housekeepers at once see their value in weighing fruits, sugars and other ingredients used in preserving, cooking etc., or in testing the weights of purchases from others.

The scales are made of all brass, are highly polished and are finished in a skillful manner. They are very attractive and take the eye of every one who sees them.

It seems to us that nearly every family in this county will want one, and is certainly a rare opportunity for some smart and energetic party to pick up quite a nice little income during the next few months. the Company has agents in other counties who are easily making from $5.00 to $6.00 per day selling them, and we would recommend parties in need of employment to drop the OHIO SCALE WORKS, No. 124 and 127 Central Avenue, Cincinnati, O., a Postal Card, and all information etc., will be cheerfully given them by mentioning our paper. 46t4

The Death Rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of everyday life we are apt to overlook the dangers attending it and often find too late that a Fever or Lung trouble has already set in. Thousands loose their lives in this way every winter, while had *Boschee's German Syrup* been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the Throat and Lungs, *Boschee's German Syrup* has proven itself to be the greatest discovery of the kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known. 45eowly.
