There is a Difference in Lenses

Just as there is between a piece of pure gold and that containing alloy. The lenses used by me are the finest that can be had. These come in the rough and are ground until they exactly meet the requirements of your particular eye trouble. One cannot be too careful about the eyes. The matter of a dollar or so should not enter into the calculation. This store refuses to ask for your patronage by price alone—the cure is the thing desired by me or well as yourself. Even so, you will find the charge unusually low, taking into consideration the high quality.

It will be to the interest of your eyes to have them examined here
