THE SPECULATIVE MARKETS.

Bulls and Bears Alternately Control the Wheat Pit.

THREE INFLUENCES HELP ALONG CORN.

Heavy Buying by Hutchinson a Bull Influence—Light Trade in Oats—Immense Stocks of Provisions—Cattle and Hogs.

CHICAGO, Dec. 2.—[Special Telegram to THE BEE.]—The wheat market did not act naturally all day. There were too many outside rumors and too little attention given to legitimate news. Bullish influences controlled the market early and the bears took a turn later when a prospect for further financial troubles helped to depress the market. The market started stronger under the following conditions From Liverpool cables of a decrease of 1,680,000 bushels on ocean passage, an up-turn in the prices of stocks at New York, buying by foreign houses on private cables and pretty good buying by local operators, several of whom are usually bears. After a small advance was started, Logan & Co. had a message saying that 85,000 bushels of wheat were loading at Baltimore, Dunham & Co. and others had dispatches about some 200,000 or 300,000 bushels ordered from store at St. Louis, a part for millers and part for export. With this sort of news May wheat, which opened at $1.01½ to 1.01¼ and sold $1.01⅜ to 1.01½ to $1.02¼ with sales of December around 93¼c. Toward noon it was learned that west side railway stock had sold off to 90½c. At the same hour there were further rumors about the Keystone (Philadelphia) bank. Two or three local houses threw a large amount of wheat on the market and prices went off sharply. May to $1.00¾ and December to 91⅞c, with a rally at once to 92¼c for December and $1.01½ for May. On the curb wheat was firmer. Puts on May sold at $1.00¾ and calls at $1.02⅜.

Three things helped corn earlier in the day. Cables were ½d higher, the stock of contract corn here is reduced to 380,000 bushels. Hutchison was under the market. The price of May started at 53½c, rose to 53⅝c, sold at 53½c and up to 54⅛c at the end of the first hour. The strength did not hold and at 1 o'clock the price was back to 53⅜c. At the close corn was ⅝c up for the day at 53⅝c for May. Brokers in the pit declared that there was but one bull influence all day and that was the buying by Hutchinson of over 2,000,000 bushels scattered all through the session. December was quoted 49⅝c, up to 50⅞c, to 50c at the close. January was quoted at 50⅝c to 51c, to 50⅝c at the close. Privileges on May corn for Wednesday sold at 55⅜c and 54⅛c.

There was light trade in oats most of the session. The strength in wheat and corn early and light local stocks of contract oats, now reduced to 193,000 bushels, gave the market a little advance. May opened ¼c up at 45⅜c, sold up to 46⅛c and closed at 45⅞c or ⅜c up for the day. December was quoted at 43½c to 44c to 43⅞. January was ⅜c under December all day.

The stocks of provisions as given out this morning proved surprisingly large. Recent estimates were liberal but stocks as published exceeded expectations, showing 158,000 barrels of new and 95,000 barrels of old pork, 35,000,000 pounds of ribs and 110,000 tierces of lard. The opening of the market was heavy. Pork felt the bearish influence most and opened with a decline of 12½c for January and 10c for May. A further decline carried January to $10.90, 27½c under last night and May to $11.70, 22½c from last night. Later in the day much of the pressure caused by the placing of December stuff was relieved and prices recovered to $10.97½ and $11.77½ at the close. Lard sold down to $5.60 for December, $6.00 for January and $6.50 for May, recovering to $5.70, $6.05 and $6.55. Ribs sold but 5c lower and recovered a part of that.
