This class is individual for any and all articles may have been omitted in any of the foregoing classes, therefore when persons desire to enter and exhibit any thing not found enumerated in any of the above classes the same attention will be given them as in other classes and awards made when worthy—the committee will report according and the board of directors will designate the amount of premiums to be awarded in each case where premiums are recommended.

CLASS THIRTEEN

VICK'S FLORAL PREMIUM.

For the purpose of encouraging the culture and love of flowers, I authorize the officers of every county society in America to offer one of my floral chromos for the best exhibition of cut flowers. The offer is made to amateurs only, and the flowers to be exhibited at the regular annual fair. The awards to be made by the regular judges, or by any committee appointed for that purpose. The flowers not to be made up in bouquets but exhibited separate and named.

JAMES VICK, Rochester, N. Y.

NOVELTY STONE.

Prof. Wilber has written an article to the Omaha Bee in which he reviews the cost and durability of the novelty stone, and says. "The cost of material and labor equal in mass or wall to 1000 brick, will cost at least $15 when laid. Some who have tried the experiment within a few days, make the cost of the patent Novelty Stone equal to 9 for the space of 450 brick." The Prof. states that he thinks Bostrico cement can be used as the Portland cement, which is so costly. *He* says that the people are exceedingly anxious about the matter but he fears the cost of the Stone will prevent its general use. Will some one tell us whether we have any of this cement here? We have the best of sand, now if some substance as our "native lime" or other cement can be found we may expect that this stone, for which Gov. Garber has the right to manufacture in this county, will become a decided success.
