THE SPECULATIVE MARKETS

Wheat Was on the Jump Yesterday and Prices Improved.

CORN LEFT OFF WITH QUITE A LOSS

Considerable Alarm Among Shorts Was Manifested at the Opening in Wheat and There Was a General Rush to Cover.

CHICAGO, Ill., Nov. 11.—Wheat was on the jump today. The government crop report was the cause and prices were lifted 1½c, closing within ⅛c of the top. The figures on corn muddled the pit and that cereal left off with a loss of ¼c. Oats is unchanged and provisions a shade easier.

A good deal of alarm among shorts was manifest at the opening in wheat. There was a general rush to cover and the market for a time was quite excited. Cables were weak and lower, but this had little or no influence here, nor did the fact that Partridge, Logan and others sold generously on the advance. After the noon hour the market had another spurt, but the ruling sales sent it back somewhat. It is something unusual for the government to make a report on the wheat crop in November and operators did not look for any report. Last month's percentages indicated a crop of 510,000,000 bu., based on the percentages of acreage published in June and the average yield per acre published in October confirmed the estimated acreage and the indicated yield as then published. But the report as given out by the government says that the yield will not exceed 500,000,000 bu., and it was this which created the strength and an advance in the market. It was a decided surprise.

The opening was about from ⅛c to ¼c higher than yesterday; closing figures ruled firm and prices were advanced from ⅛c to ⅜c more, than became easier and prices declined ⅝c for December and ½c for May, again developed strength and this time prices were advanced ⅝c for December and ½c for May, ruled irregular and the closing was 1⅛c higher for December and 1⅛c higher for May than the closing figures of yesterday.

Corn was active and unsettled. Opening trades were from ⅛c to ⅜c above the final figures of yesterday, the government report placing the yield per acre at 22.4 bu., and indicating a crop of 1,640,000,000 bu., being construed by some as bullish. The advance brought a great number of selling orders, a good deal of long property coming out under which the price gradually sagged off ⅝c, when the estimated arrivals for tomorrow came in at 175 cars, which caused the market to again advance ⅝c, but did not last as continued selling by prominent houses, supposed to be acting in the interest of longs, caused a decline of from ⅛c to ⅜c. The market then changed some, ruled steady and closed with from ⅛c to ¼c loss. The report reduced previous estimates about 35,000,000 bu. The near futures were relatively easier than May, which tended to depress that future.

Oats averaged slightly higher. Opening sales were made at from ¼c to ⅜c advance, there being considerable excitement in May. There was good realizing by longs and at 35c for May there appeared to be liberal offerings and it was difficult to execute sale orders and at that figure early prices declined ⅝c. Top figures reached 36c and reacted within ⅜c range.

The provision market was not very active. The principal feature of the trading in the pit was selling of January and buying of May lard by Wright at 5c difference in price and in such lots as were wanted. The prices were at the best for the day soon after the opening. January pork only once touched a point as high as it closed yesterday and wound up at a decline of 12½c for January and 7½c for the closing. Lard was also easier and closed with a loss of 7½c. January ribs were comparatively firm, the decline in them being only 2½c.

Shippers were anxious to secure vessel room and the offerings not being large, agents were able to get ¼c advance in rates to Buffalo and 3c was paid for wheat and 2½c for corn.

Estimated receipts for tomorrow: Wheat, 275 cars; corn, 175 cars; oats, 125 cars; hogs, 14,000 head.

Traders' Talk.

CHICAGO, Ill., Nov. 11.—Counselman & Day to Cockrell Bros.' Commission company: Wheat opened ⅜c higher on lighter receipts and the bullish influence exerted by Mr. Hodge's unexpected comments as to the yield. Both local and outside speculators hastened to buy back what they had yesterday, forcing an advance to 74⅞c for December and 80c for May wheat. Cables were lower without exception and clearances were small. Shippers were not bidding any advance to speak of and after the market began to stagger the heavy longs sold liberally, giving it a rather toppy look at the closing advance. Corn was heavy throughout. Oats, like corn, was supported by a rather different quality of buying while the leading longs sold very freely through brokers. Provisions sagged all day under the very best quality of selling by insiders. The country as usual has got loaded on the advance on a basis of about $4.00 for May pork and we do not believe they will make a profit on it. Lard and ribs are still manipulated, but the longs are willing sellers on hard spots.

CHICAGO, Ill., Nov. 11.—F. G. Logan & Co. to Duncan, Holzinger & Co: The wheat market has been broad and strong today with general buying by commission houses. The December future continues to resist all efforts made by the shorts in that month to widen the spread. Toward the close a rumor denying the authenticity of the government report on wheat started free selling quickly a half cent, but as the rumor was unfounded the market closed firm, and we think the final report on wheat will show about 475,000,000 bu and believe wheat should be bought for higher prices. While showing a considerable reduction from last month the government report on corn was not so bullish as expected, and caused free realizing by the longs.

STOCKS AND BONDS.

There Was Another Advance in Prices in a Majority of Cases.

NEW YORK, Nov. 11.—The stock market during the greater part of the day was active and strong, with a further advance in prices in a majority of the issues traded in. There was confident buying of the grangers, Louisville & Nashville, Lackawanna, Union Pacific and other leading stocks, the improvement in which was equal to from ¾ to 1 per cent. At the same time the specialties more particularly General Electric, Denver & Rio Grande, Green Bay & Winona, Laclede Gas and Louisville, St. Louis & Texas were in sharp demand and rose anywhere from ¼ to 2½ per cent. The improvement, however, was subsequently lost not only in these stocks but in the general list as well, on account of a determined raid on American sugar which carried that stock down from 110 to 105¾. A good many stop loss orders were caught on the way down, the execution of which accelerated the decline. There was undoubtedly considerable liquidation for the long account, but the bears put in additional short lines not only in Sugar but in Distilling and Cattlefeeding and in Chicago Gas as well as in the railway shares. During the last hour Reading and the Grangers were vigorously raided and yielded a point or so from the highest. Baltimore & Ohio and Chesapeake & Ohio common, which had previously advanced 2½ per cent and ¾ per cent respectively, reacted about ½ to 1 per cent. While the industrial stocks show net losses for the day of 1 to 1½ per cent, the changes in railway shares were comparatively slight. Reading and Missouri Pacific lost 1 per cent, Rock Island ¾ per cent, and the other still smaller fractions. On the other hand the Union Pacific and Burlington & Quincy left off a shade better. Railway mortgages were active, the transactions footing up $2,205,000. As a rule prices moved up ¼ to 1¼ per cent.

The Post says: Probably the bears will be heard from pretty continuously from now on regarding the new congress and the industrials, and they have an advantage in the bad speculative name ejected by all such stocks except one or two.

LONDON, Nov. 11.—[New York Herald Cable—Special to THE BEE.]—The stock market represented several features of interest as regards movements of prices, but new business has been somewhat restrained in view of the settlement commencing Monday. Consols opened 1-16 to ⅛ of 1 higher, but closed unchanged. Indian rupee paper improved ¼d. Foreign government securities have shown a good deal of irregularity. On the continental bourses, Greek 4s have been up ¼ per cent, several Turkish issues are easier, while Hungarian gold, Italian and Russian 4s mark a small improvement. Chilian bonds at one period fell heavily, but have since partially recovered, closing ⅞ to 1 per cent lower. Brazilian, Argentine and Buenos Ayres bonds close firm at one advance. Venezuelans also are better. Home railways have been more or less dull all day, at the same time they are very inactive. Brighton deferred has fallen off ¾ per cent, Chatham preference ½ per cent and several others ¼ per cent, but South eastern deferred recovered ¼ per cent. Americans have been extremely firm all day. New York has been freely sending buying orders. Final quotations are best, a general advance being established, including 1½ per cent in Denver preference, 1½ per cent in Louisville & Nashville and New York Central, ⅞ per cent in Chicago & Milwaukee, and ¼ to ½ per cent in all others. Canadian lines, however, are not so well supported. During the afternoon they have lost their early improvement. Money is in quiet demand. Short loans have been obtained at ½ to 1¼ per cent. In the discount market bills have been scarce; those at two and three months were quoted at 2¼ to 2½ per cent.

New York Money Market.

NEW YORK, Nov. 11.—MONEY ON CALL—Steady, ranging from 4½ to 6 per cent; last loan at 5 per cent and closing offered at 5½ per cent.

PRIME MERCANTILE PAPER—5½@7 per cent.

STERLING EXCHANGE—Is firm, with actual business in bankers' bills at $4.84¼ for sixty-day bills and $4.87¼ for demand.

LIVE STOCK MARKETS.

Little Change in the Cattle Situation—Hogs Active and Lower.

OMAHA, Nov. 11.—Receipts for the past five days foot up 12,197 cattle, 19,332 hogs and 8,728 sheep, against 10,862 cattle, 18,801 hogs and 5,361 sheep the corresponding five days last week.

There was no particular change in the cattle market at least so far as beef steers were concerned. Offerings in this line were decidedly limited. Fair to very decent corn fed cattle sold at from $4.65 to $4.80, and sales of the ordinary grass and partly fed cattle were made at from $4.30 down to $3.60. The run of westerns is about over. Receipts today were mostly cows and feeders. What were good enough for beef went to the killers at around $4.75 to $4.90. A fair clearance was effected, although the market was rather easy and trading not active by any means.

The cow trade was only moderately active and prices ruled weak to a dime lower than Thursday. Sales of poor to very good cows and heifers were at from $1.25 to $4.85, the bulk at from $2.00 to $2.40. Bulls, oxen and stags were steady to weak at from $1.75 to $2.50. Calves were in liberal supply. Veals sold freely at steady prices from $4.00 to $5.00. Large calves and yearlings went at from $4.50 to $4.60.

The feeder trade was moderately lively and prices were substantially unchanged. Extreme sales were at from $3.40 to $4.05, the bulk of the decent stock selling at from $3.40 to $3.85. Representative sales:
