AS EASY

Needs Only a Little Thinking. The food of childhood often decide whether one is to grow up well nour ished and healthy or weak and sickly from improper food.

It's just as easy to be one as the other, provided we get a proper start. A wise physician like the Denver doctor who knew about food can accomplish wonders, provided the patient is willing to help and will eat only proper food.

Speaking of this case, the mother said her little four-year-old boy was suffering from a peculiar derangement of the stomach, liver and kidneys, and his feet became so swolllen he couldn't take a step. "We called a doctor, who said at once we must be very careful as to his diet, as improper food was the only cause of his sickness. Sugar, especially, he forbid.
