**You Would Not Accept Counterfeit Money, Why Accept Counterfeit Goods.**

Good money is made by the government, in which you have implicit faith and confidence. Good goods are made by manufacturers who are willing to stake their reputations on the quality of the material offered to you through the medium of their advertisement in The Bee. Counterfeit goods are not advertised. The reason for it is, they will not bear the close scrutiny to which genuine goods are subjected. Counterfeit money pays more profit to the counterfeiter. Counterfeit goods are offered to you for the same reason.

Insist on the Genuine—
Reject the Counterfeit.

Beer is an effervescent product, most susceptible to taint, therefore to retain its life and purity it must be kept air-proof. We use the utmost precaution in preparing

**Storz Blue Ribbon Bottled Beer**

It is aged for months in hermetically sealed tanks, filtered through white wood pulp, conveyed through our improved pipe-line direct to the automatic bottling machine and put in sterilized bottles. Throughout this entire process it is not subjected in any way to the contaminating influence of the air and, after being sealed, each bottle is pasteurized one and one-half hours by the approved method of Dr. Pasteur of Paris. That's why **Storz Beer** is pure, healthful and absolutely free from the germs and impurities that lurk in water, milk, tea, coffee or other beverage—that's why prominent physicians recommend **Storz Beer.** It will do you good to drink it.
