Weak Cables and Good Prospects Matched by Export Demand.

SEPTEMBER CLOSES SHADE LOWER

Corn Strong on Light Receipts and Small Country Offerings — Continued Active Buying of Oats —Provisions Steady.

CHICAGO, June 19.—Weakness in the foreign markets and fine crop prospects were matched today by a strong export demand for wheat. September wheat closed a shade lower, September corn ¼c higher, September oats ¼c up and provisions from 2½@10c to 10c lower.

Fine growing weather and lower cables were the features in the wheat situation that appeared to make the most impression on the local operators at the start and there was exhibited a general disposition to sell. Toward the close there was a good cash and export demand, which gave encouragement to the bulls. Rains in the southwest, where harvesting is in full swing, caused some timidity among the shorts. September opened ¾c lower at 69⅝@69⅞c and, after going to 69@69¼c, closed a shade lower at 69⅜c. Seaboard reported fifteen boat loads taken for export and clearances of wheat and flour were equal to 414,983 bu. Primary receipts were 431,929 bu., against 575,617 bu. a year ago. Minneapolis and Duluth reported 262 cars, compared with 287 a week ago and 351 last year. Local receipts were 49 cars, none of contract grade.

Business in the corn pit was moderately active, with buyers largely in the majority during the greater part of the day. Country offerings continue very small and this fact, combined with light receipts, was responsible for the strength apparent during most of the session. September opened unchanged at 44⅝@44⅝c and on fair demand by local shorts the price advanced 2 85-8c. At this figure moderate realizing set in and the market sagged toward the close, final figures being ¼c higher than yesterday's close at 44⅝@44¾c. Seaboard reported 25 boat loads taken for export. Local receipts were 163 cars, only two of which were of contract grade.

Light receipts and more or less talk of possible manipulation of July had as much to do with the firmness in oats as anything. September was the strongest feature and for a greater part of the day's business was done in that delivery. There was continued active buying by the interests which supported the market yesterday. September opened unchanged to a shade higher at 26½@26¾c. The price was bid up to 26⅞c by local longs and later by shorts, but afterward receded slightly, closing ¼c higher at 26⅝c. Local receipts were 126 cars.

Provisions were steady and the market was quite dull, with rather an easy undertone. There was less demand for September lard, which resulted in a little setback for the whole list. Outside longs were disposed to take profits and local packers were also moderate sellers. September pork opened unchanged to 5c lower at $15.02½@15.07½, but weakened to $14.97½, at which point it closed at a loss of 10c. September lard opened 2½@5c lower, at $8.77½, went up to $8.80, but reacted, closing 2½@5c lower at $8.77½. September ribs held fairly steady during the session, opening a shade lower at $8.17½@8.20, the high point of the day, and closing 5@7½c lower at $8.15.

Estimated receipts for tomorrow: Wheat, 60 cars; corn, 175 cars; oats, 140 cars; hogs, 30,000 head.

MOVEMENTS IN STOCKS AND BONDS.

Stock Market Shows Many and Sudden Fluctuations.

NEW YORK, June 19.—The decided activity in today's stock market reflected doubts and hesitations in speculative minds. There was a considerable amount of speculative liquidation, but the professional bears also had their share in the weakness in the market, as was quite conclusively shown by the substantial rally late in the day, when they began to look for stocks to cover their short contracts and found a limited supply. The late rally was achieved, however, on a light volume of dealings. St. Paul was conspicuous and the apprehension that many of the recent rumors regarding developments in that stock were purely conjectural had much to do not only with its movement, but with the generally unsettled tone of the trading. There was some rightly placed authority cited today for assertions that it was not contemplated at all to effect any actual absorption or legal passing of control of St. Paul or any interchange of the stock for new bonds. The absorption of a part of St. Paul by other rival railroad interests may go far toward conserving the safety of the general railroad situation, but a question arises as to the increase this would result in the vestment value of St. Paul stock itself. The absorption of the large amount of stock put it in a technical position to be easily manipulated.

The exports of gold announced today reached only $1,250,000, leaving the week's shipments below $5,000,000. It is not probable that shipments made later than today could reach Berlin before July 1, so that a further outgo is not looked for there. The week's considerable depletion of the cash reserves of the banks and the expected requirements next week to prepare for the unprecedented disbursements on July 1 make it probable that money will continue active during the rest of the month. Any large demands for speculative use would endanger the comfort of the money market. This was a potent factor in discouraging speculative activity. A violent slump in Colorado Fuel of 17 points and a sympathetic reaction in Pennsylvania Coal to $4 under last night were due to doubts cast upon recent assertions that the company would be absorbed by the United States Steel corporation. St. Louis & San Francisco rose 3¾ over last night. A number of industrials, including American Tobacco, showed marked strength.

The bond market was quite active and irregular. Total sales, par value, $3,125,000. United States bonds were all unchanged on the last call.

The Commercial Advertiser's London financial cablegram says: The market today was an idle one, with quotations dropping. Old time stagnation was in evidence after the first hour's trading. The trading was weak on fears that the money conditions would develop some stringency. The market held dull and inert after the early trading, with no fresh movement until afternoon, when New York purchases of Milwaukee & St. Paul and United States Steel corporation caused a better finish. The Bank of England has received £71,000 in bars and has bought £42,000 from Roumania. Paris exchange is 25.21. Berlin exchange, 20.40.
