GRAIN AND PRODUCE MARKET

Weather and War Talk Unite to Advance Prices of All Grains.

MUCH PROFIT TAKING AT THE ADVANCE

Corn Gains Considerable on Talk of War and Oats Follow Tendency of Other Grains, with Provisions Strong.

CHICAGO, Jan. 12.—Worry over weather and war advanced prices today in every trading pit on the board of trade. Wheat at one time was up a cent a bushel for May. Closing prices were strong with gains as follows, compared with last night: Wheat, ⅝c; corn, ⅝c; oats, ¼c; pork, 90c; lard, 12½c, and ribs, 10@12½c.

A bullish sentiment pervaded the wheat pit. The market was strong at the start, May being up ⅝@½c to ⅞@1c, at 81c to 81⅝c. The principal factors influencing the situation at the opening were a decline in the price of British consols on a renewal of war talk, firm foreign markets, together with lack of moisture in the southwest. At the advance there was liberal profit taking, which resulted in a setback of about ½c. The market steadied on heavy purchases by the big Leiter interest. Later in the session a report was circulated that Japan had accepted Russia's counter proposition. This rumor started another selling movement on the part of local traders. The desire to take profits was intensified by a fairly large increase in the world's available stocks. Under this selling pressure May declined to 80⅝c. A better export demand with reports of rains in Argentina soon caused a reversal of sentiment. Prices responded readily to the change, May advancing to 81⅛@81⅜c. The close was strong at that figure. Clearances of wheat and flour were equal to 308,700 bushels. Primary receipts were 780,000 bushels, against 548,000 bushels a year ago. Bradstreet's world's visible supply increased 1,200,000 bushels. Minneapolis, Duluth and Chicago reported receipts of 468 cars, against 480 last week and 397 a year ago.

The war scare induced considerable covering in corn early in the day. There was also good buying for investment account. Offerings were not large and as a result the market ruled strong. Poor condition of the receipts coming in added confidence to the bulls. The demand continued good throughout the entire session, closing prices were firm. May opened ¼c to ⅜c higher, at 47⅛c to 47⅛c, ranged between 47⅛c and 47⅝@47⅝c, closing at 48⅛c, a gain of ⅝c. Local receipts were 475 cars, with 1 of contract grade.

A report that a prominent long was adding to his line brought out a good general demand for oats. Good demand also helped to encourage buying. Strength in other grains caused strength in this market. Offerings were quite liberal on the advance and prices receded some what. The close was steady. After opening ¼c to ⅜@⅜c higher, at 38⅛c to 39⅛@39⅜c, May sold between 39⅛c and 39⅞c, closing at 39⅝c. Local receipts were 184 cars.

Provisions were strong on lighter receipts of hogs, but more especially on renewed talk of war. Shorts and commission houses were active buyers early in the session, with offerings coming mostly from packers. The strength manifested at the opening was well maintained and closing prices showed good gains. May pork opened 17½c to 22c higher, at $12.90 to $12.95, sold between $12.87½ and $13.05, closing at $13.02½. Lard opened 7½c to 10c higher at $6.87½ to $6.90, and after ranging between $6.85 and $6.92½, closed at $6.92½. Ribs were also up 7½c to 10c at the start, at $6.57½ to $6.60. After selling between $6.55 and $6.62½, May closed at $6.60 to $6.62½.

Estimated receipts for tomorrow: Wheat, 20 cars; corn, 265 cars; oats, 75 cars; hogs, 48,000 head.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS

Revival of Anxiety Over Far Eastern Situation in Wall Street.

APPARENT IN THE YIELDING PRICES

Effect Strikingly Noticeable in the Killing of Speculative Interest Causing a Stagnation in the Market.

NEW YORK, Jan. 12.—The revival of anxiety over the far eastern situation made itself apparent in the yielding tendency of stock today as well as of cotton, which consistently advanced. The effect was much more noticeable, however, in the almost total killing of speculative interest. During the afternoon the stock market became practically stagnant. The dribble of stocks was sufficient to cause a slow downward tendency of prices but there was as much lack of aggressiveness on the part of the bears as of the bulls. In fact there was evidence of some desire on the part of bears to cover shorts in a few stocks.

The borrowing demand for Pennsylvania in the loan crowd pointed to an uncovered short interest. The firmness of this stock in face of the depression elsewhere caused some credence to be given to the persistent rumors of a plan of adjustment of points of antagonism being worked out in official consultations between the Pennsylvania and the Wabash interests. There was a demand for amalgamated copper to cover shorts. The late firmness of this stock was attributed in part to the encouraging reports of trade conditions, especially the large foreign demand for copper and the large increase in foreign consumption, judged by the lack of impression on European stocks made by the large purchases of the last few months.

The movement in United States Steel preferred was languid, but the trading in it was fairly maintained. The advances in wire products was a favoring attitude. The steel corporation announced the renewed offer to employes of preferred stock with privilege to receive a bonus on earnings and the reduction of the price to $35 a share instead of $32.50 as in the preceding offer, was received with varied comments. The poor response of yesterday's market to the then favorable far eastern situation was the subject of disappointed comment, giving rise to the belief that the abstention of the market on the part of buyers might have some other motive than war. The market closed without effectual recovery.

Bonds yesterday were steady. United States 2s declined 2¼ and the 3s declined ½ per cent on call.
