—We understand that at the school meeting at Cowles last week an unpleasantness occured between Mr. John Payer and Mr. Mathew Crabtree, brought about by Mr. Payer chalenging Mr. Crabtrees vote. Some warm words were indulged in by the parties at the time, and after the meeting adjourned the quarrel was resumed and they came to blows, when Mr. Crabtree drew a revolver, a small calibre and fired at Payer but missed him and hit Mr. T. J. Ward who was trying to part the pugilists. The ball entered Mr. Ward's face just below the righ eye, passed through the check bone and lodged near the ear. The wound was dressed by Dr. Callender, and though the ball has not been removed the wound is not considered dangerous.

No effort was made, we understand, to place Mr. Crabtree under arrest, and he quietly boarded the train the following morning and skipped out to parts unknown.

—Just as we go to press we learn that the B. & M. depot at Hastings was burned last Tuesday night. It seems that three railroad men who were intoxicated were sleeping in the depot and overturned a lamp, setting fire to the building, two escaped, but the other perished in the flames.

An exchange in a nighboring town contains an account of a sad affair. It says that a certain man in that town, who never advertised, was found dead under his counter where he had been lying for two days. He was accidently discovered by a small body who went in to get a nickle changed. As he had never advertised people had forgotten where his store was, and hence nobody happened to discover the body previous to its mortification.

MR. ED.—Since the Election is over we have all concluded to go to work at home and drop politics for another year or at least until the campaign of 1880 which no doubt will be one of the closest contested campaigns witnessed since 1869, but as I did not take any very active part in the election, I feel that there is no guilt resting upon me, and I am satisfied to put up with the Co. and precinct officers for another term for the simple reason I am *obliged* to, there was a great deal of talk throughout the county about a new deal, but when it come to voting, the old ticket with little exception. I heard a good straight Republican remark next day after election that *All* and *Jones* were to be removed next by Democrat or Greenbacker.

Mister Editor I suppose you know. There was some voting a few days ago, well several persons were suspected, but *we've* all agreed that All's elected.

No Good Preaching.

No man can do do a good job of work, preach a good sermon, try a law suit well, doctor a patient or write a good article when he feels miserable and dull, with sluggish brain and unsteady nerves; and none should make the attempt in such a condition when it can be so easily and cheaply removed by a little Hop Bitters

Be Wise and Happy.

If you will stop all your extravagant and wrong notions in doctoring yourself and families with expensive doctors or humbug cure-alls that do harm always, and use only nature's simple remedies for all your ailments—you will be wise, well and happy, and save great expense. The greatest remedy for this, the great, wise and good will tell you, is Hop Bitters—rely on it. See another column.

—THE—

Red Cloud CHIEF for 1880.

OUR NEW DEPARTURE!

$1.00 per Year!

STRICTLY IN ADVANCE. POSTAGE PAID.

You ask why we reduce the price of the paper. Simply because the time has come to reduce. The price of newspapers and periodicals of all kinds are being reduced all over the land, and the CHIEF cannot afford to be behind in a matter of so much importance to its patrons, on the contrary it proposes to take the lead in this matter as it does in all others in this part of the country.

HOW CAN WE AFFORD SUCH A LOW PRICE?

We will tell you how we can afford it. At the low price to which the paper has been reduced, we hope to run our circulation up to fifteen hundred in the next three months, we will then have double the circulation that we have now, and will realize as much money from the subscription list as we do now at two dollars a year for 750 copies. And again, at the old rate of $2 00 a year and mostly credit there are always some who do not pay and those who do pay have to pay for their own paper and for somebody else's who don't pay, or what amounts to the same thing, pay double price, ($2 a year) while others don't pay at all. By adopting this new plan all will have to pay for the paper who receive it as no names will be placed on the books unless the money is paid, and each subscriber will be notified a week before his subscription expires and if he does not renew, his name will be promptly cancelled. We will have no delinquents to carry, no bad debts to loose, and by having a much larger circulation will of course realize a much larger per cent, from our advertising space. Thus, dear reader, we hope to furnish you a good paper for the extremely low price of one dollar a year

The CHIEF will remain the same size as at present, and we shall add new material and improvements from time to time as we can afford it. The CHIEF will give all the local news and will publish the full proceedings of the Board of County Commissioners as soon after the meetings of the Board as they can be obtained.

All who are now in arrears for the paper will be notified by postal card, and charged at the rate of $2 00 a year until paid up. All who have paid in advance will be entitled to an extra copy of the paper, sent to any address, for a sufficient length of time to reduce the subscription overpaid to the regular rates, $1.00 a year. All new subscriptions and all renewals of subscription coming in between now and the last of December, will date from January 1st. 1880 No charge for the paper from now until January 1st.

Editor CHIEF,

STATEMENT UNDER OATH.

TO WHOM IT MAY CONCERN:—In the year 1875 I treated with Kendall's Spavin Cure a bone spavin of several months growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard since and he never has been lame, nor could I ever see and difference in the size of the hock joints since I treated him with Kendall's Spavin Cure.

Pause, Ponder and Peruse!!

The invention of that superior and complete sewing machine (the "Family" Sewing machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price ($25), it is very difficult to conceive of any invention for domestic use of more or even equal importance to families. It has great capacity for work; beautiful, smooth and quiet movement, rapid execution, certainty and delightful ease of operation, that at once commend it above all others. The working parts are all steel, strong and durable, and will last a life time; the bobbins hold 100 yards of thread; the stitch is the firmest of all stiches made, neat and regular, and can be regulated *in a moment* to sew stitches from an inch in length on coarse material down to the finest, so infinitesimal as to be hardly discernable with the naked eye, and with a rapidity rendering it impossible to count them as fast as made; it has more attachments than any other, and it does to perfection all kinds of heavy, coarse, plain, fine, or fancy needle work with ease, and far less labor than required on other machines. It needs no commendation, the rapid sales, increasing demand, and voluntary encomiums from the press, and the thousands of families who use them, amply testify to their undoubted worth as a standard and reliable house necessity, extending its popularity each day. Machines sent anywhere to be examined before any money is paid. AGENTS WANTED by the Company. Address them for information, FAMILY SEWING MACHINE CO.,
