Life of General Sherman.

No literary announcement of the year is of greater interest to the general public than of a comprehensive Life of General Sherman, which is about to be published and sold through agents by the noted house of Hubbard Brothers, Philadelphia. Admirable biographies of Grant and Sheridan, complete to the time of their death, are already familiar to the public, but a life of the third great commander, to finish the series, has been lacking.

The various biographies of Sherman hitherto published have necessarily been incomplete; and even his own memories, written in 1875, said almost nothing of his intensly interesting early life, and not a word of course, of the more than twenty years of social activity and fraternity with old comrades since the war.

The work which is now to be issued will splendidly supply the widely felt demand for a history of the great stratgetic commander.

It is being written by Willis Fletcher Johnson, whose ability as a historian is familiar to the reading public of America through his former unusally popular works, which have had millions of readers and the sales of their vast editions enriched an army of book agents; he is Maj.-Gen. O. O. Howard, a man of fine literary attainment, who knew Sherman better than any other of his comrades now living, and ranked next but one to him in the army. That this history of Sherman, the last of the great Generals, will surpass all others in popularity is not to be doubted. It will doubtless be the best life of the great chieftain published and we predict for it wonderful popularity.
