GRAIN AND PRODUCE MARKET

Opening is Strong and Higher After Day's Setback.

BULL NEWS NORTH AND SOUTH

Wheat Breaks Strong and Recovers Quickly from Slump of Wednesday and Corn is Advanced.

OMAHA, Aug. 29, 1907.

The market opened strong and higher and recovered from yesterday's set back.

News from the northwest and southern Minnesota was bullish, with damaging reports of rain and cool weather. Wheat in that section has made little or no progress in the last two weeks.

Wheat opened strong and recovered quickly from the set back yesterday.

There was a good general trade, and all early offerings were well taken, and early sellers turned to buying later.

Cables came higher and outside markets were all firm.

September option opened at 84⅝c and closed at 85⅝c.

Corn opened higher and showed good strength. Buying was heavy and all offerings were absorbed quickly.

September corn opened at 54c and closed at 55½c.

Oats opened strong and a shade higher on good commission house buying and light offerings. Considerable selling developed later but was well taken and prices held firm. September oats opened at 30½c and closed at 30½c.

Primary wheat receipts were 879,000 bu. and shipments were 456,000 bu. against receipts last year of 458,000 bu. and shipments of 301,000 bu.

Corn receipts were 256,000 bu. and shipments were 202,000 bu. against receipts last year of 391,000 bu. and shipments of 209,000 bu.

Clearances were 173,000 bu. of corn, 19,000 bu. of oats, and wheat and flour equal to 421,000 bu.

Liverpool closed ¼@¾d higher on wheat and ¼d higher on corn.

CHICAGO GRAIN AND PROVISIONS

Wheat Market in a Flurry, with Prices Generally Lower.

CHICAGO, Aug. 29.—Liquidation in the September option caused a highly nervous market in wheat to-day. At the close September wheat was off ⅞@⅞c at 83⅝@83⅞c. Corn was ⅛c higher. Oats were down ⅛c. Provisions were 5c to 10c lower.

The wheat market opened higher despite general selling in the December option. September was not sold so heavily at the opening, but later liquidation in this option set in and the market fell off readily whenever strong pressure was applied. Prices did not respond quickly to the bullish news received. Among these were higher Liverpool cables, a decrease of 1,230,000 bushels at Minneapolis, and small shipments from Argentina. Reports of damage by frost in Canada and the northwest were numerous today and the weather was reported in that section as being generally cold and wet. Whenever the market advanced slightly in response to these influences the advance was met by a flood of selling orders that carried prices down again. The decline at the close resulted in a good demand for export. September opened ⅛c to 1⅛c higher at 84c to 84½c, sold between 83½c and 84½c, and closed weak at 83⅝@83⅞c. Clearances of wheat and flour were equal to 421,000 bushels. Primary receipts were 879,000 bushels against 476,000 bushels on the same day last year. Minneapolis Duluth and Chicago reported receipts of 222 cars against 237 cars last week and 117 cars a year ago.

The corn market opened firm, but declined later in sympathy with wheat. The early bulge followed reports of heavy rains in Iowa and Illinois, which it is believed will do no good to the crop at the present time. Cables were higher and a fair export demand was reported. The scarcity of yellow corn, which is badly wanted by shippers who are willing today to pay a big price for it, also rendered the market nervous. September opened ⅛c to ⅜c higher at 55c to 55¼c, sold between 53⅝c and 55¼c, and closed easy at 53⅝c. Local receipts were 134 cars, with 29 of contract grade.

The oats market was dull all day, but prices withstood the bear movement far better than any other grain. The wet weather throughout Illinois and Iowa was a strong bullish factor, as only a small proportion of the crop has been stacked or threshed, and heavy rains mean more damage. September opened ⅛c higher at 30½c, sold between 30⅛c and 30½c, and closed at 30⅛c. Local receipts were 217 cars.

Provisions were easier on a heavy run of hogs here and at western points. The best support of the market came from local traders. At the close September pork was down 10@20c at $15.47@15.50. Lard was down 10c at $8.90. Ribs were 5@7½c lower at $8.62@8.67½.

Estimated receipts for tomorrow: Wheat, 171 cars; corn, 111 cars; oats, 421 cars; hogs, 25,000 head.

WEATHER IN THE GRAIN BELT

Fair Night and Day and Temperature Stationary.

OMAHA, Neb., Aug. 29, 1907.

Showery weather has prevailed over the Missouri and upper Mississippi valleys during the past twenty-four hours, and excessive rains have fallen at points in Iowa and eastern Nebraska since the preceding report. A fall of 2.07 inches occurred at Columbus, Neb.; 3.02 at Carroll, Ia.; 2.80 at Marshalltown, Ia., and 2.40 at Des Moines. The rain continues general over Iowa this morning, with cloudy and threatening weather throughout the Missouri valley. The weather is generally fair in the west, and will probably be fair in this vicinity tonight and Friday, with not much change in temperature.

Omaha record of temperature and precipitation compared with the corresponding day of the past three years:

	1907.	1906.	1905.	1904.
Maximum temperature	69	82	79	82
Precipitation	.02	.00	.00	.02

Normal temperature for today, 72 degrees.

Deficiency in precipitation since March 1, 4.99 inches.

Deficiency corresponding period in 1906, 4.36 inches.

Deficiency corresponding period in 1905, 1.34 inches.

Totals	4,859	3,783	286

CATTLE—Receipts of cattle were fair for a Thursday, but the total for the week to date has not been very large, showing a falling off as compared with last week, and barely up with a week ago. On account of the more moderate receipts for the week the market on killing cattle was a little better today.

Packers all seemed to want a few beef steers, and while the market was not active there was a better feeling. Sales looked anywhere from steady to a little higher than yesterday. In some cases sellers thought there was an advance of as much as 10c.

Cows and heifers moved off a little more freely and sellers were quoting the market on the more desirable grades at least as steady to stronger.

With feeders the situation was not so favorable for the sellers. Speculators were pretty well loaded up with cattle and the country was a poor buyer. The result was that the market was safely 10c lower and down in the feeder division speculators were quoting in some cases a 10@15c decline.

Quotations on cattle: Good to choice corn-fed steers, $5.00@5.30; fair to good corn-fed steers, $4.50@4.95; common to fair corn-fed steers, $4.00@4.35; fair to good range steers, $4.20@4.65; common to fair range steers, $3.20@4.20; good to choice corn-fed cows and heifers, $4.00@5.00; fair to good cows and heifers, $3.00@3.75; common to fair cows, $2.00@3.00; good to choice stockers and feeders, $4.00@4.25; fair to good stockers and feeders, $3.25@4.25.
