TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! BROWN'S IRON BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with BROWN'S IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price $1.00.

THE NECESSITY

FOR THE SPECIALIST,

DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and know how to treat them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a more enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately for humanity, the day is dawning when the false philanthrophy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner's methods of cure:

1. "Dr. H. Wagner is a natural physician." O. S. FOWLER, The Greatest Living Phrenologist.
2. "Few can excel you as a doctor." DR. J. SIMMS, The World's Greatest Physiognomist.
3. "You are wonderfully proficient in your knowledge of disease and medicines." DR. J. MATTHEWS.
4. "The afflicted find ready relief in your presence." DR. J. SIMMS.
5. "Dr. H. Wagner is a regular graduate from Bellevue Hospital, New York city; has had very extensive hospital practice, and is thoroughly posted on all branches of his beloved science, especially on chronic diseases." DRS. BROWNELL & EWING.
6. "Dr. H. Wagner has immortalized himself by his wonderful discovery of specific remedies for private and sexual diseases." Virginia City Chronicle.
7. "Thousands of invalids flock to see him."—San Francisco Chronicle.
8. "The Doctor's long experience as a specialist should render him very successful."—Rocky Mountain News.

Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was entirely avoided by the profession, and medical works of but a few years ago would hardly mention it.

To-day the physician is of a different opinion; he is aware that it is his duty—disagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and guardians will thank him for doing so.

The results attending this destructive vice were formerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored

The habit is generally contracted by the young while attending school; older companions through their example, may be responsible for it, or it may be acquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely enslaves the victim. Mental and nervous afflictions are usually the primary results of self-abuse. Among the injurious effects may be mentioned lassitude, dejection or irritability of temper and general debility. The boy seeks seclusion, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exceeding and annoying bashfulness in their presence. Lascivious dreams, emissions and eruptions on the face, etc., are also prominent symptoms.

If the practice is violently persisted in, more serious disturbances take place. Great palpitation of the heart, or epileptic convulsions, are experienced, and the sufferer may fall into a complete state of idiocy before, finally, death relieves him.

To all those engaged in this dangerous practice, I would say, first of all, stop it at once; make every possible effort to do so; but if you fail, if your nervous system is already too much shattered, and consequently, your will-power broken, take some nerve tonic to aid you in your effort. Having freed yourself from the habit, I would further counsel you to go through a regular course of treatment, for it is a great mistake to suppose that any one may, for some time be it every so little, give himself up to this fascinating but dangerous excitement without suffering from its evil consequences at some future time. The number of young men who are incapacitated to fill the duties enjoined by wedlock is alarmingly large, and in most of such cases this unfortunate condition of things can be traced to the practice of self-abuse, which had been abandoned years ago. Indeed, a few months' practice of this habit is sufficient to induce spermatorrhœa in later years, and I have many of such cases under treatment at the present day.

Young Men

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. WAGNER will guarantee to forfeit $500 for every case of seminal weakness or private disease of any kind and character which he undertakes to and fails to cure.

Middle Aged Men.

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of thin milkish hue, again changing to a dark and torpid appearance. There are many many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal-weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the genito-urinary organs.

Relief to the Afflicted.

In medicines, as in science, the specialists are the ones who always comes to the front and a compliment of great results. This remark is especially applicable to Dr. H. Wagner, of this city. He stands at the top of his profession, and the cures he performs for the unfortunate would seem wonderful if not properly viewed in the light of scientific acquirements. He is endorsed by the most eminent of the medical faculty. His office at 343 Laramie street, where he will speedily effect a cure for the suffering of either sex, no matter how complicated their complaint.—Pomeroy's Democrat.

Chronic Complaints Require Time for a Cure.

Persons at a distance who wish to be treated by Dr Wagner need not feel backward because of inability to visit him. Shall We Reform?

Specific remedies for all diseases is the theory practice at present of educated and experience physicians, and in all large communities they have their specialties, to excel in which they direct their studies and practice. Dr. Wagner is a successful illustration of this modern school of specialties, and his unprecedented success in the treatment of private diseases is as wonderful as it is flattering.—Prof. J. Simms.
