GRAIN AND PRODUCE MARKET

Wheat Displays Moderate Strength from Tuesday's Low Point.

BULLISHNESS IN CASH CORN

Receipts Are Falling Off and Bull Leaders Are Confident, Expecting Higher Prices—Wheat Higher on Cables.

OMAHA, Sept. 13, 1911.

Wheat had a moderate display of strength from the low points made yesterday, causing a return of bull sentiment, although leaders are of the opinion that there will be no marked advance until after the Canadian reciprocity vote is out of the way.

Cables this morning were disappointing to buyers, late advices showing a decline after opening prices. It looks like an unsettled trading market.

Outside corn markets are sending quite bullish news on the cash corn situation. Shorts in the September option are extremely uneasy, bidding the current month over the May delivery. Receipts are falling off and bull leaders are confident, expecting higher prices.

Wheat recovered from the decline yesterday and opened firm and higher on strong cables. Cash news was more bullish and samples on the floor brought ½@¾c better prices today.

Shorts in corn were responsible for the sharp advance. The cash situation is stronger each day. Samples were 1c higher today.

Primary wheat receipts were 1,100,000 bu. and shipments were 492,000 bu., against receipts last year of 1,113,000 bu. and shipments of 546,000 bu.

Primary corn receipts were 789,000 bu. and shipments were 1,060,000 bu., against receipts last year of 742,000 bu. and shipments of 490,000 bu.

Clearances were 35,000 bu. of corn, none of oats, and wheat and flour equal to 238,000 bu.

Liverpool closed unchanged to ¼d lower on wheat and ⅛@¼d higher on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Sept. 13.—Decided improvement in the flour trade, including exports from St. Louis, Minneapolis and Chicago, brought about a rally today in the price of wheat. Closing figures were the same as last night up to ¼c up. Corn showed a net gain of ⅜@⅝c to 1⅜c and oats an advance of ⅛@¼c. The end of the day left provisions 2½@7½c higher in cost.

It was in the last half of the session that the wheat market became unmistakably bullish. Earlier in the day prices had been weakened by an official estimate that the French crop would yield 320,000,000 bushels, as compared with 268,000,000 bushels last year. Depression resulted also from liberal receipts and good weather in the northwest. There was a sudden shift of speculators in general from the bear side when news of enlarged flour sales developed at widely separated centers and was confirmed by better buying of cash wheat for mills. Top prices reached did not hold, but close was fairly steady. Between opening and the finish December ranged from 96⅛@96¼c to 97¼c, and in the end was precisely at last night's figures—96⅝@96⅞c.

On purchases by big local shorts September corn today touched the highest price of the season—68½c. That option advanced just 1c more than the other months. December fluctuated from 64⅛@64½c to 64⅞c, closing firm ⅛@⅜c up at 64⅝@64⅞c. Cash grades were strong. No. 2 yellow was quoted at 68@68½c.

In oats, as in corn, the strength of the spot situation tended to give prices a lift. High and low points reached by December proved to be 46⅝c and 46⅛c, with the close ¼c net higher at 46¼@46⅜c.

Provisions hardened because of the upturn in corn. The rise for products, 2½@7½c, was almost uniform throughout the list.

NEW YORK STOCKS AND BONDS

Acute Weakness Once More Develops in the Market.

UNION PACIFIC TAKES BIG DROP

Depression in Several Railroad Stocks Attributed to Some Extent to Doubt in Regard to Sustaining Dividend Rates.

NEW YORK, Sept. 13.—Acute weakness once more developed in the stock market today. The meager gains of yesterday were swept away before an attack which, as the session progressed, became increasingly severe, and inflicted some heavy losses.

Union Pacific's decline, at the low price of the day, was, within a fraction of four points, one of the most severe drops of this stock during the summer. Missouri Pacific and New Haven lost the same amount, and both of these stocks, as well as New York Central, sold at their lowest prices since 1908. A number of prominent issues, including Reading, Southern Pacific, Canadian Pacific, St. Paul and Amalgamated Copper, lost 2 points or more. The market rallied briskly before the close under the influence of the short covering, regaining part of the day's losses.

The depression in several railroad stocks was attributed to some extent to doubt whether the dividend rates would be maintained. This was especially true of New Haven, which was also affected by the unfavorable annual report of the Boston & Maine, one of its chief subsidiaries.

Price cutting of the steel industrials has become widespread, although in most cases prices have not fallen far below the low levels reached early in the year.

Europe played less of a part in today's market. Transactions for European account were estimated at 12,000 shares, about evenly divided between purchases and sales.

The bond market was heavy. Total sales, par value, $2,107,000. United States bonds were unchanged on call.

Number of sales and leading quotations on stocks were as follows:
