REAL ESTATE
FARM & RANCH LANDS FOR SALE

California.

1,000-Acre Ranch

Highly improved, Sonoma Co., California, right at town and railroad; close to San Francisco; running stream through the property; water piped to all buildings; new bungalow, 9-r., 2 baths, foreman's house, 10-r. and bath; laborer's house, 5-r. and bath; modern horse barn, cow barn, capacity 100 cows; granary, tool shed, machinery shed, with steel boiler; creamery house and separator, silo, 240 tons capacity; calf and hog pens, 125 head Jersey, 15 head of horses, 25 head of Berkshire hogs, buggies, wagons and implements.

This ranch has its own irrigation system, dam and reservoir.

The property is in first-class condition and is for sale as a whole to settle an estate. Price has been made low to affect a quick sale—$125 per acre, including stock and implements. Terms can be made.

If you want an ideal California ranch, this is an opportunity that is seldom offered. This ranch would not be on the market were the owner alive. There is big money in this for some one.

8 TO 10 TONS ALFALFA PER ACRE. No. 84—A splendid 40-acre irrigated farm in Patterson colony, Stanislaus county, California, only 2 miles from town. Half now in alfalfa and half cultivated; small new house, barn, well, etc. Soil a rich warm loam 4 to 6 feet deep. Abundance of water for irrigation and the finest climate in the world. Alfalfa in this section yields 8 to 10 tons per acre and gives you green feed practically the year round. Great for dairying; cream brings big prices, as San Francisco only three hours away. 2 acres supports 3 cows; Stanislaus is the banner dairy county of California. Hogs pasture on alfalfa and fatten on milk. Add some poultry and you have an ideal money-making combination in an ideal country. Owner lives in eastern Nebraska, has other interests here and would accept in exchange a good Omaha residence.

GRAIN AND PRODUCE MARKET

With Sentiment on Exchange Mixed Wheat Wavers After Jump and Remains Still.

DROP EXPECTED BEFORE RISE

OMAHA, March 11, 1915.

Italy has bought a big lot of cash wheat in the United States and Canada within the last three weeks. Purchases have been at the rate of about 1,000,000 bu. per day and a good part of the wheat has been bought on a declining market. Many wheat traders have the impression that the recent decline was due to efforts of foreigners to secure supplies as low as possible.

Sentiment of the wheat trade is mixed. It would not surprise most of the trade to see a further decline before there is another upturn. A nervous feeling prevails and sharp changes in prices are expected.

In explaining the slow domestic demand for cash corn and oats attention is called to the fact that the use of patent feeds, which amounts to about 1,000,000 tons per year, has considerable to do with it.

Canadian stocks of wheat are about 80,000,000 bushels, of which 44,250,000 bushels will be required for food and seed, leaving 35,750,000 bushels for export.

Omaha Spot Market—Wheat was ¼@½c higher; corn, unchanged; oats, nominally 1½c higher.

The following sales were reported today: Wheat: No. 2 hard winter, 4 cars, 49½c; ⅔ car, $1.47. No. 3 mixed, 1 car, $1.48. Corn: No. 6 white, ⅓ car, 68c. No. 2 yellow, 1 car, 70c. No. 3 yellow, 2 cars, 69c. No. 4 yellow, 2 cars, 68c. No. 5 yellow, 2 cars, 68½c. No. 3 mixed, 2 cars, 68½c. No. 4 mixed, 1 car (near white), 68½c; 3 cars, 67½c. No. 5 mixed, 1 car (near white), 68c; 1 car (wet), 66½; 1 car (wet), 66c. Sample, 2 cars, 68c. Oats: No. 4 white, 1 car, 54½c.

Clearances were: Wheat and flour, equal to 722,000 bu.; corn, 299,000 bu.; oats, 125,000 bu.

Liverpool closing: Wheat, not quoted, corn, ¼d higher.

Primary wheat receipts were 568,000 bu. and shipments 508,000 bu., against receipts of 422,000 bu. and shipments of 429,000 bu. last year.

Primary corn receipts were 343,000 bu. and shipments 532,000 bu., against receipts of 356,000 bu. and shipments of 643,000 bu. last year.

Primary oats receipts were 613,000 bu. and shipments 1,316,000 bu., against receipts of 668,000 bu. and shipments of 941,000 bu. last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 11.—Wheat swayed in price today, largely according to the varying character of cable reports, especially the course of quotations at Liverpool. The close here was weak at ¼c decline to ¾c advance, compared with last night. Other leading staples all showed net gains: corn, a shade to ¼c; oats, ⅛@½c to ⅛@¾c, and provisions, 2½@5c to 12½c.

Weakness at the start in wheat was followed by a decided outage and then a quick reaction. The veering was wide, covering a range of just 6 cents, with May swinging the furthest both down and up. On the bulge from the extreme low point of the season, there seemed to be plenty of evidence that foreigners and domestic cash grain handlers were absorbing futures because of inability to meet requirements in the spot delivery. At the same time, advices were at hand that early weakness at Liverpool, which had been reflected here, had been succeeded by an upturn due to reduced estimates of the surplus in Russia and Roumania, to the sinking of two Pacific grain vessels and to storms in Argentina.

Realizing sales to collect profits for speculators seemed to have much bearing on the downward tendency of the wheat market approaching the close. Domestic reports on the crop outlook were slightly less favorable. Dispatches from Illinois and Missouri light soil sections referred to signs of considerable winter killing.

Improved demand from shippers west and southwest was responsible for a good deal of the strength shown by corn. Shorts here bought freely. Oats advanced chiefly on account of Chicago sales of 1,100,000 bushels for export. So far this week shipments of oats from this city amount to 1,300,000 bushels more than arrived.

Shorts in provisions were finally forced to cover owing to a stream of small buying orders that poured in nearly all day. Weakness at the start was said to be mainly the result of larger receipts of hogs throughout the west.

REAL ESTATE—INVESTMENTS

WHY ONLY GET

3 to 4%

WHEN YOU CAN GET

From 7 to 10%

The last year has certainly shown that mortgages on real estate and real estate itself is one of the best and safest investments a person can get. If you will investigate you will find that there was a great deal of money lost the last year in railroad stocks and other kinds of investments. When you investigate you will find that there is nothing that is any safer than mortgages on real estate and real estate itself located in this great middle west country.

We have several different plans where you can invest and be assured from 7 to 10 per cent on your money. Why not call or write us about it at once?

CATTLE—The modification of the state quarantine regulations brought in a large number of Iowa cattle. Unfortunately a good many of them were not billed according to government regulations, which caused more or less confusion and delay. Iowa, South Dakota and Missouri shippers should remember three things: First, to ship all cattle in cleaned and disinfected cars; second, have agents state on the bill of lading that the cattle are shipped in cleaned and disinfected cars, and that they are intended for stocker or feeder purposes; third, if the above plan is followed the cattle will have the benefit of competition from both feeder and packer buyers. If these rules are not followed the cattle will go into the quarantine division, where they can be sold only for immediate slaughter, regardless of whether they are fat or not.

The Chicago market slumped badly yesterday, prices being quoted 35@60c lower than the high point last week, and early advices from there this morning indicated a still further decline today. With big receipts and such unfavorable advices from other points it was not surprising that buyers started out this morning bidding sharply lower prices, and that it was very late in the day before enough business had been transacted to really establish quotations.

In the end a good share of the killing cattle sold around 10c lower than yesterday. There were several good buying orders for cattle on shipping account which helped out a good deal.

The best feeders did not show much change, but the medium and in-between kinds of cattle, the kind that would be considered neither very good for feeders nor good stockers, were slow and lower.

Quotations on cattle: Good to choice corn-fed beeves, $7.75@8.30; fair to good corn-fed beeves, $7.00@7.75; common to fair corn-fed beeves, $6.00@7.00; good to choice heifers, $6.25@7.00; good to choice cows, $5.75@6.60; fair to good cows, $5.00@5.75; common to fair cows, $3.50@5.00; good to choice
