FINANCE AND COMMERCE.

FINANCIAL

NEW YORK, November 7.

Money—Easy at 2½@3 per cent, closing at 2½ per cent.

Prime Paper—6@7 per cent.

Exchange Bills—Firm at 4.81¼; demand, 4 84.

Governments—Irregular.

Stocks—The market to-day was heavy, though at first the effects of the election reports were undoubtedly to induce some buying and to advance prices. There was no demonstrations on the part of the bulls and bear cliques, and the market has only drifted. There is still very little dealings in the market on either side by the speculating public, outside of Wall street, though there is a constant volume of investment, buying and withdrawal of dividends, and paying stocks from the street, over and above what comes in from that class of holders. This, however, has but little effect on the fluctuations of the market.

THE NECESSITY

FOR THE SPECIALIST,

DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all. Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and know how best them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a more enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately humanity, the day is dawning when the false philanthrophy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner's methods of cure:

1. "Dr. H. Wagner is a natural physician."
