Robbing Yourself

That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If

vou are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work naturally. Try it to-day.

"I had a severe spell of fever, which left me in a very weak condition and very nervous. I had severe spells of headache and neuralgia, and could sleep but very little. Every effort that was made to recover my strength was of no avail until I began taking Dr. Miles' Restorative Nervins. After I commenced to take the Nervine my sleep was profound and restful, and the pains in my head, as well as the neuralgia Jains, left me to a certain extent and I grew gradually better."
