Where It Started

The Yard.

Our familiar three-foot standard of measurement was established in England by King Henry I. The standard at his time was the "ell," a unit that differed widely in different localities. The king, wishing to establish uniformity, decreed that the standard of measurement should be exactly the length of his arm. The standard has survived to this day.

Cattle—Something like 400 cattle was received today but these were nearly all directs and the market was nominally steady all around. For the week receipts have been 35,300 head. Bulk of these came on Monday and a lower market resulted carrying westerns to the lowest point in years. Since that time all classes have reacted right sharply and closing values are higher than a week ago all around, gains amounting to 25c on range beeves, 50c or more on she stock and 25@40c on stockers and feeders. Light and handy corn feds are 25@50c higher with heavies about steady. Tops include fed yearlings at $10.50 and range beeves at $7.60.

Hogs—The week is closing with the usual small Saturday run of hogs, about 2,600 head. Packers put up their killing droves early and a clearance was made in good season at prices generally steady. Some little strength was noted during first rounds and some weakness was shown toward the close. Best light hogs made a top of $7.75 and bulk of the receipts sold from $6.60@6.75.
