Take Advantage of the Future

Rise in value. Don't envy the man who "got in on the ground floor." You take fewer chances today than the man who bought ten years ago. The city is growing to the west at a rapid rate.

SAFE TO BUY AND BUILD

In Happy Hollow and Dundee's newest addition, because it is west and the building restrictions assure good houses, preventing your neighbor from building in such a way as to depreciate your property.

DON'T MISS THIS OPPORTUNITY

But select a lot in one of these additions and start now by becoming an owner of real estate where values are bound to increase.

EASY TERMS

One-tenth cash and 1 per cent of purchase price payable monthly.

CATTLE—Receipts today were liberal for a Thursday, but the total for the four days is small, amounting to 19,447 head, almost 9,000 head smaller than a week ago and the smallest of any recent week. Still, receipts are running large as compared with a year ago, the total for the four days being double what it was during the corresponding period last February.

Packers were not quite so keen for beef steers this morning and the market opened rather slow, but steady to 10c lower. Cows and heifers were in pretty fair demand at about steady prices, and the same was true of stockers and feeders. The average quality of the cattle was pretty common, but there were some beef steers here good enough to bing $8.10.

Quotations on cattle: Good to choice beeves, $7.80@8.40; fair to good beeves, $7.35@7.80; common to fair beeves, $6.50@7.35; good to choice heifers, $6.25@7.00; good to choice cows, $5.90@6.60; fair to good cows, $5.25@5.90; common to fair cows, $4.25@5.25; good to choice feeders, $7.00@7.60; fair to good feeders, $6.50@7.00; common to fair feeders, $5.50@6.50; good to choice stockers, $7.40@7.85; stock heifers, $5.75@7.00; stock cows, $4.75@6.50; stock calves, $6.50@7.75; veal calves, $7.00@9.75; bulls, stags, etc., $4.75@6.25.

HOGS—Supplies were almost as large as on either Tuesday or Wednesday and were of very liberal proportions for a Thursday, arrivals being estimated at 247 cars, or 18,400 head. Total for the four days of 68,349 head is a falling off of 8,000 head as compared with last week and 5,000 smaller than two weeks ago, but larger than last year by 17,000 head.

Shippers duplicated yesterday's performance when they started out early buying everything they could get their hands on at 10c higher prices. They made the big end of their purchases at $8.00@8.10, as against a range of $7.90@8.00 for their droves yesterday. They operated heaviest on early rounds, of course, but stayed in the market until the finish.

The fact is that the general market was almost an exact reproduction of Wednesday's. Packers took a little more time about getting started today, but when they finally got going outside competition was so strong that in a great many cases they had to outbid shippers. First hogs bought by killers were possibly no more than a dime higher, but as a general thing their droves were put up at a 10@15c advance, and towards the finish they paid a flat 15c higher in a good many cases. After it once got started trade was fully as active as yesterday's and a good clearance was made by 10 o'clock.

The biggest string landed at $8.00, while bulk was quotable at $7.95@8.05, and the top touched $8.15, a flat 15c higher than yesterday's best price. Current values are 15@20c, and in most cases 20c, higher than the close of last week. The upturn is most noticeable on lights.

SHEEP—Supply figures dropped to a very moderate notch today, when only about twenty-eight cars, or 6,500 head, were received. This is the smallest run of the week to date, and considerably smaller than for any Thursday in recent weeks. The four days' supply totals 38,483 head, being 6,000 smaller, but almost 2,500 larger than two weeks ago.

and a gain of 2,000 over the same days of last year.

The lamb trade opened out in pretty good season on a generally steady basis. The market was a featureless affair, quality being on the whole poorer than most previous days of the week. The $11.00 quotation was retained on Mexicans, but the general run of prices showed the falling off in quality plainly. Today's trade makes the fourth one of steady prices, and current quotations are very little different from last Friday's figures. The market had a stronger tone early in the week, although there was no quotable advance in prices, while yesterday the tendency was, if anything, easier.

As compared with total receipts ewe supply was very fair, but prices held about steady. For the third time in three days Belmont's good fed westerns made $7.70, while a decent kind of westerns made $7.60, and Mexicans that had the much desired light weight, but did not carry any too much flesh, went at $7.50.

A new high mark for feeding lambs was set today when a bunch of Utahs sold at $10.60. The eagerness of buyers of feeding and shearing lambs to pay almost fat lamb prices continues to be the feature of the trade.

Quotations on sheep and lambs: Lambs, good to choice, $10.80@11.00; lambs, fair to good, $10.50@10.80; lambs, clipped, $9.00@9.75; yearlings, fair to choice light, $9.25@9.75; yearlings, fair to choice heavy, $8.00@9.25; wethers, fair to choice, $7.25@8.00; ewes, good to choice, $7.40@7.70; ewes, fair to good, $6.50@7.40.

Coffee Market.

NEW YORK, Feb. 17.—COFFEE—There was a less active demand in the market for coffee futures here today, while there appeared to be more disposition to take profits after the recent sharp advances and prices eased off in consequence. The opening was at a decline of 6 to 11 points in response to less favorable cables from Brazil, but there was a good demand around the initial prices and the market rallied to about last night's closing figures during the early trading, with May selling at 8.12c and December at 8.36c, or into new high ground for the season. Offerings increased around these figures and the market later eased off, with May selling down to 8c and December to 8.26c. Closing prices were 9 to 15 points net lower. Sales, 57,000 bags. February, 7.83c; March, 7.88c; April, 7.92c; May, 7.97c; June, 8.01c; July, 8.06c; August, 8.11c; September, 8.16c; October, 8.19c; November, 8.22c; December, 8.25c; January, 8.28c. Spot, steady; Rio 7s, 9¾c; Santos 4s, 10¾c. A fair business was reported in the spot market here, but the cost and freight situation was still unsettled, and it seemed difficult to obtain representative quotations. The official cables reported a decline of 5-32d in the rate of Rio exchange on London, with the Rio market 50 reis lower and Santos unchanged. Santos reported a clearance of 28,000 bags for New York.

GRAIN AND PRODUCE MARKET

Demand for Wheat is Active and Prices Range Unchanged to a Cent Higher.

CORN RULES FAIRLY STRONG

OMAHA, February 17, 1916.

Cash wheat was generally stronger, ranging from unchanged to a cent higher.

The demand for wheat was quite active and the sales were fairly heavy.

The corn market was pretty strong, but the cash demand was rather slow and the sales were comparatively light. Corn ruled from unchanged to 1c higher, the bulk of the sales going at 1c advance.

Oats ranged generally from unchanged to ½c higher.

Oats receipts were fair and there was a fairly good demand for this cereal.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Feb. 17.—Estimates that Argentine shipments had trebled in volume, as compared with a week ago, gave control of the wheat market today to the bears. Prices closed heavy, ⅛c to 1¼c net lower, with May at $1.29@1.29⅛ and July at $1.22⅝. Other speculative articles, too, showed a setback—corn, ⅝c to ⅝@¾c; oats, ⅛c to 1⅛@1¼c, and provisions, 12½c to 25c.

Reports of big shipments of wheat from Argentina were accompanied by advices that Australian shipments would also be substantially enlarged. The effect was to wipe out speedily all trace of an advance which had taken place here in the first part of the session and to send the market later almost uninterruptedly down grade. It was said in this connection that France and Italy had made special freight arrangements to provide transportation for large amounts of wheat already under contract in Argentina.

Hessian fly danger was chiefly responsible for a temporary bulge at the outset in the value of wheat. According to a leading crop expert, the pest has spread westward in Kansas over an important wheat-producing territory.

Coarse grains eased off with wheat. At first, however, corn showed an advance, influenced to some extent by complaints of dry weather in Argentina. Oats were bearishly affected late in the day by word of Canada offering oats freely to the east for shipment at the opening of navigation.

Provisions weakened under heavy selling by longs. Higher prices on hogs caused an upturn, but not of a lasting sort. New export business was noticeably small.
