The need of more tenement houses in Red Cloud was never more apparent than at the present time. Why would it not be a good investment for some one with a little Mle capital to build two or three dozen houses to rent.

It seems that congressman Laird has not forgotten his constituents of the Republican Valley, as advices from Washington state that he has been making strenuous efforts to secure regular service on the B. & M. through to Denver. As it now is mail for Denver and the west, from all points in the valley, has to pass over the B. & M. to Hastings and lay over a day, then be taken to Kearney and transferred to the U. P. road for Denver, which causes a great deal of unneccessary delay and inconvenience.

The fish pond which ornamented the street in front of the CHIEF office, Gump's office and Mosher's meat market has been partially filled up, just enough to destroy its beauty and usefulness. No more will we take moonlight sails on that lovely pond. No more will our devil sit pensively on the side walk and angle for the festive mud cat in its crystal depth. No more can we step from our office door into the skiff and row down to Mosher's meat market to get trusted for a quarter's worth of steak. The pleasant murmur of its rippling waters, borne along by the gentle zephyrs that come softly stealing up from the sunny south, will be heard no more forever. No more can Justice Gump punish the poor but proud and refractory criminals who cannot "buck up" the fine and costs, by ducking them beneath the scum covered surface of that once beautiful lake. No more will Dr. Damerell stand patiently at the corner of the office with a double barrelled shot gun in his hands waiting for the unsuspecting ducks to come for their accustomed swim on the placid bosom of that lovely lake. It is gone, played out, auxespielt; filled up by a few wagon loads of dirt.

In accordance with orders from Nat. and department headquarters, Garfield Post number 80 will observe memorial day with appropriate ceremonies, and they earnestly desire the cooperation of the citizens of Red Cloud and vicinity. All ex-soldiers are respectfully invited to join us in our efforts to keep green the memory of those who gave their lives for the Nation in which we are proud to live. We also desire the public schools to take a part in the exercises of the day, and have appropriate music for that occasion. What the Farmers Say.

Testimonials from those who have used the Cahill Plow Carriage and know whereof they speak.

May 4th, 1883.

L. D. Fowler, foreman for L. Cahill & Co., manufacturers of plow carriages and corn plows.

GENTS.—This is to certify that I bought of your salesman, Geo. Hymer, on April 13th 1883, one of your plow sulkies and after giving it a fair test with both two and three horses, and must say that it is the only sulky that I ever saw that I would use, it being of so much lighter draft than any other sulky which I have seen work. It does its work perfectly and lighter on team than I can do with the same plow and walk. My advice to all farmers is to give the Cahill a trial before buying any other.

Yours Respectfully,
JOSEPH RICHENDERFER.

Dated May 4th, 1883.

Red Cloud Neb., May 4th, 1883.

Mr. L. D. Fowler foreman for L. Cahill & Co.

I bought a plow carriage of W. H. Harvey, one of your salesmen, some three weeks ago and have had the carriage used with two horses ever since, and am well pleased after giving it a thorough test find it all or more than is recommended by the company, and I thinks it runs as easy if not easier than when same plow is held by hand, and works much better than any man can do and walk.

Yours Truly,
W. J. TURNER.

L. D. FOWLER.—Red Cloud Neb., I bought of your salesman on April 13th a Cahill plow carriage. My little boys have run it ever since, and done excellent work. I am well pleased with the carriage and they consider they are all or more than is recommended by the company. My horses do the work easier when on the carriage than they do with same plow and walk. I claim it is what every farmer wams to do work well and easy.
