Mr Editor:—I deem it just and proper to the public, and to myself to reply to an item in your last issue relating to the quick time in which H. B. Simons states that he, as Attorney, procured a pension for Mr. Milligan of this city, and of which he takes occasion to herald around the street corners to those he seeks to meet. I regard it due to myself for the reason, that since the publication thereof, clients have besieged my office, some with "fire in their eye," to know the cause of my delay in their cases, when Simons gets cases through in a four months? my valuable time has been much consumed by having to reply to divers inquries in such respect, in order to avoid futher personal inquiry, I will reply publicly through the press, first Mr. Simons is no pension attorney, neither has he ever been admitted as such, and has no knowledge of the laws of evidence, or the varied rules and regulations of the pension bureau. Second, he never got a pension claim through from the "stump up" by his own skill, during his short career as a self constituted pension agent.

3d. The Milligan pension was allowed through pension attorneys in Indiana, who have his case under the old law and who some months since procured his examination by a board of surgeons upon which the commissoner of pensions found sufficient evidence to grant pension under the Act of June 27th, 1890 and the claim was filed over a year ago by his Indiana attorneys. Mr. Simons ought to know that the people are not foolish enough to swallow so large a "fish story", every old soldier knows that from the date of filing an application it requires many months to ever get an order for medical examination, and after that, many more months, generally before the issue of pension, they also know that no attorney however skilled can prevail upon the pension commissioner to grant of his regular routine of adjudicating cases.

McKeighan himself could not do it neither could the president of tht United States congressmen of natonial reputation much less Simons who is a mere novice in the buisness and who boldly undertook to publish that he got a pension through in about four moths, a good plan to cheat the printer out of the cost of an advertisement,

To California, Oregon, Washington and other Western points—In Pullman Colonists Sleepers Via, the Union Pacific.

The constant demand of the traveling public to the West for a comfortable and at the same time an economical mode of traveling has led to the establishment of what is known as Pullman Colonist Sleepers.

These cars are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen, curtain which secure to the occupant of a berth as much privacy as is to be had in first-class sleepers, plenty of towels, combs, brushes, etc. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited.

Another fact not to be overlooked is that these Pullman Colonist Sleepers are attached to the daily fast express trains thus enabling passengers occupying these cars to make the same time as occupants of first-class Pullman Sleepers.

A charge of $3.00 for a lower or upper double berth is made between Council Bluffs, Omaha or Kansas City and San Francisco or Portland

For those furnishing their own bedding free berths are given in Pullman Colonist Cars running between Council Bluffs, Kansas City and Portland.

The Pullman Colonist Sleeper is especially commended for the use of the homeseeker who is moving to the west with his family, and who desires comfortable sleeping accomodations enroute but cannot afford to pay the first-class Pullman Sleeping Car fare.

For matter descriptive of any state or territories through which the Union Pacific runs, or for rates, time of trains etc., etc, apply to E. L. LOMAX, Gen'l Pass. and ticket Agent. Omaha, Neb.

When a few years ago a tariff was put on bunting the patriotic howl that went up over the land among the free traders is something that still rings in the ears of sensative people. We were taxing the American flag out of existence, you know. It was an outrage. We bought all of our bunting in England then, paying $25 for enough of it to make an average sized flag.

When the school children of to-day look up at the stars and stripes as they float from their school houses it will be a good thing for them to reflect that bunting has, on account of the rubber tariff, dropped down about 20 per cent in price and $18 will buy enough for a flag and that there are 13,000 looms in the United States weaving it. And it is only twelve years since the wicked republicans commenced to "tax the American flag."—State Journal
