Notice.

Editor "Nemaha Advertiser":

DEAR SIR: In looking over the last number of your paper a notice attracted my attention signed by Jerome Hoover, Esq., in which he states that certain [illegible] are in circulation that the undersigned claim an interest in Nemaha City for the purpose of injuring its prosperity. It may do quite well to circulate a report of that nature where the facts are unknown, but to those knowing the facts such a statement is merely foolish.

And for the purpose of giving a fair opportunity to persons to ascertain the facts we hereby warn all persons from purchasing any pretended claim or interest in the said town of Nemaha City, from the said Jerome Hoover, as he has sold and received pay for said town, and suit is now pending to place the undersigned in possession of the interest by them purchased in the same; and they have not authorized the said Hoover to sell or dispose of any portion of their interest, but directed suit to be brought long since for its recovery.

Commercial Nursery,

BLOOMINGTON, ILL.

The undersigned beg leave to inform the Nurserymen and Farmers of the West and South-west, that they are extensively engaged in the propagation of

ROOT GRAFTED AND BUDDED STOCKS FOR NURSERIES,

especially the *APPLE,* and a few other hardy Fruits. Having spent near twenty years in selecting their Fruits, they are now convinced that their list is unsurpassed, both in regard to the quality and the *proportions* in which they cultivate. Being very desirous of disseminating them as widely as possible, they adopt the method of sending out small, cultivated stocks for the Nursery, as being far more practicable and safe, than to incur the great expense, delay and risk of shipping large trees, which should always be raised near where they are wanted. From their long experience they flatter themselves that they are perfectly acquainted with the above business, and they graft only such hardy varieties as succeed well on the root, and bud on seedling stocks, and the most desirable, tender and half hardy kinds. The grafting will be done at the proper season, and in the best manner. The stock will be packed securely and shipped by express, with the greatest care in early spring, to any part of the West.

They have also, on hand, the largest and best crop of *MACLURA HEDGE PLANTS* ever grown, for sale on *best terms,* by the thousand or million. They may be shipped in the Fall or Spring. Their prices for Nursery stock will be found as low as any other of *equal quality* in the Union. Catalogue and Treatise on Hedge Culture, sent gratis to all applicants.

Patronage solicited. Orders for Nursery stock should be sent prior to 25th of December.

TO THE PUBLIC.

On the 26th of January last, I conditionally contracted to sell to Robert Hawk and J. G. Melvin a part of the land known as Neal's Point. Said contract has been forfeited by the failure of said Hawk and Melvin to comply with the conditions on their part. I therefor, take this method of warning the public not to purchase stock in said land or in a town called Alamo, which I understand is about to be laid out on said tract, from any persons.—I am the sole owner of said land, and will make no titles upon sales by either of the above named gentlemen. I further state that although I have the right to retain the amount they paid me as a forfeiture. I am not disposed to do so, and now notify all persons concerned that I am ready and willing to refund to Messrs Hawk and Melvin the amount they paid me on said conditional purchase.
August 15th, 1857. LOUIS NEAL.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

PROF. J. M. LOCKE, Analytical Chemist, of Cincinnati, whose high professional character is endorsed by
JOHN McLEAN, Judge of the Supreme Court of the United States.
THOS. CORWIN, Secretary of the Treasury.
HON. J. M. WRIGHT, Governor of Indiana.
N. LONGWORTH, great wine grower of the West.
Also, DR. J. R. CHILTON, Practical Chemist of New York City, endorsed by
HON. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & Co., Propr's of the Metropolitan Hotel, and many others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove, as they have proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Colonies. If however there should be any one who has not received them, they will be promptly forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
