## A Review of the Past Week's Transactions at the Leading Centres.

### Unexampled Prosperity in All Lines of Business in Omaha and Eastern Cities.

### FINANCIAL.

REVIEW OF THE WEEK.

NEW YORK, June 4.

The events of the week in financial circles were of less importance than those of several preceding weeks. Money was easy throughout the week with 2@3 per cent as the leading rates for call loans. Foreign exchange was quiet but firm and leading drawers advanced their rates ½ cent for both classes. Government bonds were active and strong for the 4s and 4½s, but the other issues were dull and lower. Railway and miscellaneous speculation opened weak in tone, and prices yielded ½ to 2 per cent, but subsequently a firmer feeling prevailed, and there was general improvement under a brisk buying movement. Later in the week frequent reactions and counteractions occurred, but as a rule fluctuations were not especially wide. The early improvement ranged from 1 to 5 per cent, and the subsequent reaction from 1 to 4 per cent.

STOCKS.

The stock market this morning opened firm, with advance in prices of ½ to 1½ per cent, led by New Jersey Central, Union Pacific, Northwest, St. Paul and Omaha and Kansas and Texas. Subsequently a weaker tone set in and the advance was not only lost, but a further decline recorded. The drop ranged from ½ to 2½ per cent. During the afternoon there was a partial recovery, but later on the weak tone again set in and prices fell to the lowest of the day. Toward the close, however, a decidedly strong tone set and an advance of ½ to 1½ per cent from lowest point of the day was established.

### Current Packing Operations.

The Cincinnati Price Current of June 2 reviews the position to that date as follows:

The past week not only shows an increase in the number of hogs marketed in the west compared with the preceeding week, but it is larger than during corresponding time last year. Our returns indicates a total of 355,000 for the week, against 120,000 during the preceding week, and 130,000 for corresponding time last year, and to date since March 1, a total of 1,320,000 hogs, against 1,940,000 a year ago, a decrease of 620,000 in number. At Chicago last year the aggregate receipts during June were 658,000, and the opinion has been promulgated from there that there will be 100,000 less received in that market during June this year. If prices be maintained we shall not be surprised to see last year's number more nearly reached, though we do not expect it to be equalled. At Kansas City the receipts are now very good, with liberal shipments to other markets; quality improving. At Omaha there has been a fair business done this season. At Atchison we understand that packing will soon begin. Ottumwa is doing a little more than last year. Quincy reports that prospects are not so good for hogs as last year for the summer. At Cleveland packing operations are now limited. The reported foreign exports of hog products last week were much more liberal than for many weeks past, although still short of corresponding time last year. The recent failure of the English government to find any cause for interference with importation of American hog product will have an assuring effect upon the British markets, and if prices here should be somewhat reduced in the early future a material improvement in the foreign movement may be reasonably expected. It is understood that under a rigid system of inspection the French government will allow the importation of our meats.

Special reports show the number of hogs packed from March 1 to date at the undermentioned places with comparisons, as follows:

Saturday Evening, June 4.

Reports from the wholesale markets during the week closing June 4th indicate increased sales and an active demand for all staples. Breadstuffs show an upward tendency. Wheat is higher and active, with supply keeping pace with demand. Corn is steady at last quotations. Flour is in unusually good demand, especially for the higher grades, in some of which we note an advance of fty cents per hundred. The cattle market remains unchanged, though the demand for local slaughtering is good. Hogs for packing purposes are low, owing to diminished foreign demand. All butchers' material are active with no change to note from last week's quotations. Produce of all kinds is active; the demand for strictly first class articles exceeding the supply. ### Dust to Dust.

The funeral services of the late Mr. Nathan C. Doolittle, whose death on Wednesday was announced in these columns, took place on Friday afternoon from his late residence on Davenport near 11th street. The last sad rites were performed by the Rev's: Sherrill and Beans in the presence of a a large assemblage of the friends of the deceased. The pall bearers were the following clerks in the Union Pacific headquarters, with which Mr. Doolittle had been connected so long during his life: Conn Gallagher, Jerry Mulvihill, Alfred Manderson, Chas. Fogg and J. S. France.

Mr. Dooolittle was born in New Haven, and at the time of his death was 29 years old. He first came to Omaha in 1867 from Wisconsin, and entered the Union Pacific headquarters in the employ of Geo. W. Frost, then purchasing agent. He soon made a wide circle of acquaintances and endeared himself to many friends by his amiability of character. For three years past he has slowly failing in health. During his long sickness the watchful care of tender and loving friends ministered to his wants and allayed his sufferings.
