LOOK TO YOUR INTERESTS!

STEAM FERRY BOAT,

AT

Brownville, Nebraska.

To those in the States contemplating going to the Nebraska and Kansas

GOLD MINES,

The undersigned would respectfully inform the public that he is now prepared to cross the Missouri River at Brownville, and outfitting at, and starting from that point, not to be found at any other places on the Missouri River. In the first place, on both sides of the river are large extents of bottom lands in which grass makes a much earlier start than on the upland, and is much more abundant, being inexhaustible the entire season. Here, then, is a desirable place to recruit stock before starting on the Plains. Stock can also be purchased here on very favorable terms.

The Brownville Steam Ferry boat, being the best in the River, offers peculiar inducements for crossing at this point. It is large and commodious; with powerful machinery, which enables the proprietors to ferry emigrants and others in the most expeditious manner.

For Outfitting

We undertake to say that the business men of Brownville are as well prepared to serve those wishing supplies, with a superior quality and on as favorable terms as can be found elsewhere. Everything desirable can be purchased in Brownville, such as Provisions, Clothing, Mining Implements, &c., &c.

The Route from Brownville to the Mines is universally admitted by those who have traveled it and others, to be superior in every respect. Brownville is about midway between St. Jo. and Omaha. As to distance, an examination of the map is all that is necessary to prove to any one that it is nearer from here to the mines than from any other point on the Missouri. On this route wood and water abound the entire distance, while on many others, wood has to be hauled for many days.

The foregoing facts are fully and satisfactorily established by the immense travel of last year, and those who adopt it the present season will have no cause to regret having done so. Therefore

Cross the Missouri River at and start from Brownville.

Our experience in catering to the tastes of the citizens of Brownville warrant us in the belief that we will be able to give entire satisfaction, and that we will receive a liberal patronage.

Brownville June 7, 1860.

A Card.

The public are now respectfully informed that the undersigned have procured from Cincinnati and put in operation one of Hamer & Co.'s flour mills of the latest patent, and the first brought to this Territory. They were induced to exchange their former mill for this one, from the high character they have gained in the east, and from the personal testimony of millers who have tried them throughout the Western States, and in view of the increased demand for grinding which will exceed that of any previous year in Nebraska, requiring a mill that will do the work better and quicker than any heretofore in operation.

In addition to their flour mill they will keep the Corn Mill constantly running, ready at all times to accommodate the farmers without detention, and by giving their undivided superintendence to the business assisted by their former miller, Mr. Wells, they hope for the continuance and increased patronage of their friends.

Assorted Lumber, Shingles and Lath constantly on hand. GREEN & MARTIN.

Peru Mills, Sept. 1st, 1859.
