FINANCE AND COMMERCE.

FINANCIAL

NEW YORK, July 16.

Money—Market easier at 2@2½ per cent, closed at 2 per cent.

Prime Mercantile Paper—5½@6 per cent.

Sterling Exchange—Bankers' bills weak at $4.83¾; demand, $4.87½.

Governments were lower for 3's, 4's and 4½'s.

Stocks showed a general decline in prices up till the last half hour when there was an upward reaction of from ⅜ to 1⅜c, closed firm at reaction, though showing an important decline for the day ranging from ¼ to 2 per cent. This afternoon the payment of Western Union dividends was in progress at the Mercantile Trust Company, the president of which says Gould deposited money for that purpose and that assignment to him is legal and regular. The Evening Post says the market has touched a lower point than at either of the two previous periods of depression, on about February 20th, and May 21st, and it is believed there is now so large a short interest outstanding that it is reasonable to look for an upward turn soon somewhat similar to those which culminated in higher prices on April 12th and June 15th. Even taking the view that the general course of prices for most of the stocks would be downward for the next six months, as it has been for the last six, there will be a reaction as on former occasions and probably in proportion to the decline.
