FINANCE AND COMMERCE.

THE BUSINESS OUTLOOK.

NEW YORK, August 24.—R. G. Dun, of the Mercantile Agency, reports nothing occurred during the week to alter the generally favorable conditions which exist for autumn business. Business throughout the country has been well maintained. Bank exchanges indicate considerable increase over the corresponding week last year, and there are certainly indications of increased activity at many leading centers. The conditions of the money market seem favorable, and there is certainly a vast production of grain. The market has been irregular but at times giving some evidence of strength, but all advance in price has been subsequently lost. Provisions are also irregular with considerable fluctuations but closing weaker. In petroleum the market is generally unsettled, with a tendency upward, without material advance. Freights are stronger with desirable tonnage in good request. The wool trade is dull. In butter and cheese business is moderately active with some export demand. Brazil grades of coffee are in better demand and at a slight improvement in prices. Tea is dull and unchanged. Raw sugar is a little more active and prices steady. Refined is only in moderate demand at prices a trifle weaker. The iron trade is not very satisfactory, consequent on an over supply of most kinds of pig; prices lower. The feeling in trade, however, is more hopeful.

Failures reported for the last seven days, 165, against 170 last week. Distribution: New England 23, middle states 20, southern 80, western 48, Pacific and territories 21, New York City 5, Canada 19.

TESTIMONIALS.
SUPERINTENDENT'S OFFICE, Chicago, West Division Railway, Chicago December 5, 1882.
O. Elwell, President Sioux Falls Water Power Company.
DEAR SIR:—I have received from your company since October 1, 1882, about 100 carloads of granite paving blocks and have laid them between the rails of our street railway tracks in the heart of the city. I have been using paving material in this city for many years, and I take pleasure in saying that in my opinion the granite paving blocks furnished by your company are the most regular in shape and perfect in form, and as far as I have been able to judge, are possessed of as durable feature as any material that has ever been offered or laid in the city.
