THE NECESSITY

FOR THE SPECIALIST,

DR. H. WAGNER,

Has long been acknowledged and more so at this day than any other. The vast field of medical science is ever increasing, and its numerous branches are brought nearer and nearer to perfection, and no one man can any longer grasp them all. Hence the necessity for dividing the labor. And it is true beyond all doubt that disease, affecting the genito-urinary organs need special study more than anything else, if we would understand and know how treat them properly.

DR. H. WAGNER is fully aware that there are many physicians, and some sensible people, who will condemn him for making this class of diseases a specialty, but he is happy to know that with most persons of refinement and intelligence a more enlightened view is taken of the subject, and that the physician who devotes himself to relieving the afflicted and saving them from worse than death, is no less a philanthropist and benefactor to his race than the surgeon or physician who by close application excels in any other branch of his profession. And fortunately for humanity, the day is dawning when the false philanthropy that condemned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for has passed away.

A Few Reasons

Why you should try the celebrated Dr. H. Wagner's methods of cure:

1. "Dr. H. Wagner is a natural physician."
O. S. FOWLER,
The Greatest Living Phrenologist.

"Few can excel you as a doctor."
DR. J. SIMMS,
The World's Greatest Physiognomist.

3. "You are wonderfully proficient in your knowledge of disease and medicines."
DR. J. MATTHEWS.

4. "The afflicted find ready relief in your presence."
DR. J. SIMMS.

5. "Dr. H. Wagner is a regular graduate from Bellevue Hospital, New York city; has had very extensive hospital practice, and is thoroughly posted on all branches of his beloved science, especially on chronic diseases."
DRS. BROWNELL & EWING.

6. "Dr. H. Wagner has immortalized himself by his wonderful discovery of specific remedies for private and sexual diseases."—Virginia City Chronicle.

7. "Thousands of invalids flock to see him."—San Francisco Chronicle.

8. "The Doctor's long experience as a specialist should render him very successful."—Rocky Mountain News.

Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was entirely avoided by the profession, and medical works of but a few years ago would hardly mention it.

To-day the physician is of a different opinion; he is aware that it is his duty—disagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and guardians will thank him for doing so.

The results attending this destructive vice were formerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

The habit is generally contracted by the young while attending school; older companions through their example, may be responsible for it, or it may be acquired through accident. The excitement once experienced, the practice will be repeated again and again, until at last the habit becomes firm and completely enslaves the victim. Mental and nervous afflictions are usually the primary results of self-abuse. Among the injurious effects may be mentioned lassitude, dejection or irrascibility of temper and general debility. The boy seeks seclusion, and rarely joins in the sports of his companions. If he be a young man he will be little found in company with the other sex, and is troubled with exceeding and annoying bashfulness in their presence. Lascivious dreams, emissions and eruptions on the face, etc., are also prominent symptoms.

If the practice is violently persisted in, more serious disturbances take place. Great palpitation of the heart, or epileptic convulsions, are experienced, and the sufferer may fall into a complete state of idiocy before, finally, death relieves him.

To all those engaged in this dangerous, practice, I would say, first of all, stop it at once; make every possible effort to do so; but if you fail, if your nervous system is already too much shattered, and consequently, your will-power broken, take some nerve tonic to aid you in your effort. Having freed yourself from the habit, I would further counsel you to go through a regular course of treatment, for it is a great mistake to suppose that any one may, for some time, be t every so little, give himself up to this fascinating but dangerous excitement without suffering from its evil consequences at some future time. The number of young men who are incapacitated to fill the duties enjoined by wedlock is alarmingly large, and in most of such cases this unfortunate condition of things can be traced to the practice of self-abuse, which had been abandoned years ago. Indeed, a few months' practice of this habit is sufficient to induce spermatorrhœa in later years, and I have many of such cases under treatment at the present day.

Young Men

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. WAGNER will guarantee to forfeit $500 for every case of seminal weakness or private disease of any kind and character, which he undertakes to and fails to cure.

Middle Aged Men.

There are many at the age of 30 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of thin milkish hue, again changing to a dark and torpid appearance. There are many meny men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. W. will guarantee a perfect cure in all cases and a healthy restoration of the genito-urinary organs.

Consultation free. Thorough examination and advice, $5.

All communications should be addressed, Dr. Henry Henry Wagner, P. O. 2389, Denver, Colorado

The Young Man's Pocket Companion, by Dr. H Wagner, is worth its weight in gold to young men. Price, $1.25. Sent by mail to any address.

Let Your Light Shine.

Dr. Wagner, the celebrated specialist, of Denver, Colo., 343 Larimer street, believes in letting the world know what he can do, and is doing for thousands of his fellowmen. His treatment for lost manhood is sure to win him a name that posterity will bless. Ten thousand testimonials from all over the United States from those he has cured, is proof positive that he does cure the worst cases of these diseases. The afflicted from chronic and sexual diseases of every kind will find him their best friend. Read his advertisement in all our city papers, and call on him for advice, as we know you will corroborate us in saying he is the sufferer's true friend.—Rocky Mountain News.

Relief to the Afflicted.

In medicines, as in science, the specialists are the ones who always comes to the front and accomplish great results. This remark is especially applicable to Dr. H. Wagner, of this city. He stands at the top of his profession, and the cures he performs for the unfortunate would seem wonderful if not properly viewed in the light of scientific acquirements. He is endorsed by the most eminent of the medical faculty. His office at 343 Laramir street, where he will speedily effect a cure for the suffering of either sex, no matter how complicated their complaint.—Pomeroy's Democrat.

Chronic Complaints Require Time for a Cure.

Persons at a distance who wish to be treated by Dr. Wagner need not feel backward because of inability to visit him. If they will w[illegible] to the doctor he will send a list of questions w[illegible] nables him to send medicines, counsel and [illegible] to thousands he has never seen. He has pa[illegible] in every city, town and station in Colorado, [illegible] well as all over the United States. See his ad[illegible] n his advertisement.—Denver Tribune.

Shall We Reform ?

Specific remedies for all diseases is the theory practice at present of educated and experience physicians, and in all large communities they have their specialties, to excel in which they direct their studies and practice. Dr. Wagner is a successful illustration of this modern school of specialties, and his unprecedented success in the treatment of private diseases is as wonderful as it is flattering.—Prof. J. Simms.

Those persons who need medical relief for the most delicate of diseases will find an accomplished and successful physician in the person of Dr. Wagner, No. 343 Larimer street, who is highly recommended by the medical profession at home and abroad.—Pomeroy's Democrat. Bigotry and ignorance must give way to wisdom, and the wise physician believes in letting his light shine for the glory of his fellow men. Printer's ink is the torch he can best use to guide the weary and sick one to the fountain of health. If this article should be instrumental as a "TORCHLIGHT" set up on a hill to guide suffering humanity to 343 Larimer street, Denver, Colorado, it will answer the purpose for which it was written. Address

DR. HENRY WAGNER,
P. O. box 2389, or call at 343 Larimer Street,
Denver, Colo.

Read the column headed "The Necessity for the Times."

COUNCIL BLUFFS.

ADDITIONAL LOCAL NEWS.

A Dark Crime.

A colored waiter at the Transfer Hotel giving his name as R. Jones, was yesterday arrested on the charge of having stolen a registered letter in Kansas City last July. Jones has been here about two months, but the affair has followed him up, and now he will probably be taken back to answer for it. The letter which he obtained contained $20, and was designed for another person, whom it is said he personated.

COMMERCIAL.

COUNCIL BLUFFS MARKET.

Wheat—No. 2 spring, 70c; No. 3, 60c; rejected, 50c; good demand.

Corn—Dealers are paying 28@30c; rejected corn, Chicago, 40@45c; new mixed, 49c; white corn, 50c; the receipts of corn are light.

Oats—In good demand at 20c.

Hay—4 00@6 00 per ton; 50c per bale.

Rye—40c; light supply.

Corn Meal—1 25 per 100 pounds.

Wood—Good supply; prices at yards, 5 00@6 00.

Coal—Delivered, hard, 11 60 per ton; soft, 5 50 per ton.

Butter—Plenty and in fair demand at 25c; creamery, 30c.

Eggs—Ready sale at 15c per dozen.

Lard—Fairbank's, wholesaling at 11c.

Poultry—Firm; dealers are paying for chickens 16c; live, 2 50 per dozen.

Vegetables—Potatoes, 50c; onions, 50c; cabbages, 30@40c per dozen; apples, 3 50@4 00 per barrel.

Hogs—Market for hogs quiet, as the packing houses are closed; shippers are paying 4 00@4 75.

POSTAL TELEGRAPH.

John Mackey Determined to Give the Public Cheap Rates.

Carson (Nev.) Appeal.

Last evening John Mackey passed down on the train, and between Virginia City and Carson was interviewed by a reporter of The Appeal. His mind is centered on postal telegraphy, and he talked freely on the subject.

Rep.—The scheme is now fairly launched, I suppose?

Mackey—We have started several lines, and our factory in Ansonia, Conn., is turning out fifty miles of steel and copper wire a day. The wire is copper, with a steel core running through the centre to give it strength. It will last for years. Look at these old iron wires (waving his hand out of the car window). They wear out, and it keeps men reparing all the while. They are of very little account. Our wire is a world-beater.

Rep.—Any lines in operation yet?

Mackey.—Between New York and Chicago we send 500 messages a day with operators under the new system. The dispatches are fixed on a cylinder, and then it goes like a flash. We charge 25 cents for twenty words, and my idea is that such a tariff is too high. There is big money in half a cent a word. I hope to see the tariff reduced to 12½ cents for 25 words. The greatest expense is the delivery, and we expect to adopt a system by which the dispatches can be turned over to the post-offices and be put into the delivery boxes the same as letters. By combining the postal telegraph with the post-offices in large cities we give the public the cheapest system for the area of country covered in the world.

Rep.—You will pay high wages to operaters?

Mackey.—We will pay the highest wages for skilled labor, and I consider that a telegraph operator must be a man of the highest intelligence. Some of the Western Union men who have grown old in the service get $40 a month. Our new machines are lavor-saving, and we can afford to pay the best wages. We can handle ten times the amount of business that the Western Union can, and will make that extra business by placing telegraphy where poor men can use it. Gould's line is capitalized for over $100,000,000 and it can be duplicated to-day for $20,000,000 or less.

Rep.—Do you consider Gould a formidable antagonist from a business standpoint?

Mackey—No, I do not. He is the worst hated and most overrated man in New York. He has frightened the life out of heavy business men, and they think he can crush them out if he chooses. This is all humbug. Capital is not so powerful as people think. When a man has kept his business as a constant menace to the public and acted as the bully instead of the friend to his patrons, it takes very little to knock him out, provided you give his patrons to understand that you are in the fight to stay. Opposition lines have not succeeded because the people feared that they would sell out to Gould, and so you see they do not dare patronize the new line for fear that after the consolidation Gould would revenge himself and crack on the prices higher than ever. This new line has the confidence of the public because it is not looked upon as a sell-out proposition. Some lines started out in good faith, but the public held aloof until they had to sell or fall. We are not in the field for anything except to give the public cheap telegraphy, and we expect to sustain friendly relations with our patrons, upon whom we depend for our returns. I think the time is drawing near when capitalists will not feel that they must war with the public to make money. I hold that the better you please your patrons the more money you can make. Instead of watering the stock and salting down profits, extend your business and cheapen your rates. This is the true principle. We will fight Gould on fair business principles, and we will look for public patronage when we show the public what can be done with wire and electricity.

Rep.—When will you come to this coast?

Mackey—Not at present. We have all we can attend to now, and probably will be two years getting our lines laid. We will work west, however, as fast as we can.

Rep.—Of course you will give the press cheap rates?

Mackey—Most assuredly; we will give them rates that will astonish the publishers, who have been in the habit of passing two-thirds of their earnings over to the Western Union. I cannot say what rates, as that part of the business has not as yet been given much consideration. We just now want to build our lines. We will underbid any rival company on press dispatches if we have to furnish them free.

A Splendid Remedy for Lung Diseases.

Dr. Robt. Newton, late President of the Eclectic College of the City of New York, and formerly of Cincinnati, Ohio, used Dr. Wm. HALL'S BALSAM very extensively in his practice, as many of his patients, now living, and restored to health by the use of this invaluable medicine, can amply testify. He always said that so good a remedy ought not to be considered merely as a patent medicine, but that it ought to be prescribed freely by every physician as a sovereign remedy in all cases of Lung diseases. It is a sure cure for Consumption, and has no equal for all pectoral complaints.

NINTH ANNUAL CONVENTION

Of the Woman's Christian Temperance Union,

Held at Falls City, October 11, 12, 13 and 14.

Special Correspondence of The Bee.

The Woman's Christian Temperance Union of Nebraska held its annual meeting at Falls City, October 11, 12, 13 and 14, and was a grand success. Falls City is beautifully situated amid rolling prairies, dotted here and there with groves. Already in the focus of two railways, the old reliable Burlington and Missouri River and the Missouri Pacific, which has opened up a new field of commerce and a new line of towns, it bids fair to be one of the chief cities of our State. Property is becoming more valuable every day, and buildings are being rapidly erected and in short Falls City is in a "boom." Her people are most kind and gave the W. C. T. U. a most hearty welcome.

On Friday morning Miss Jennie E. Ford, of Kearney opened the convention by appropriate words of welcome and made herself more beloved than ever to the women of the State.

Mrs. R. L. Hyde, of Lincoln had devotional exercises and her Bible preaching was most effective. The prayers and hymns voiced the sentiments of these earnest women, and none can doubt that our State will be the better for this widespread temperance sentiment.

There were about forty delegates present from all parts of the State and a remarkably intellectual looking set of women they were, of which Nebraska might well be proud.

Committees were appointed and miscellaneous business was put through briskly, and parliamentary rules were observed and, having attended several conventions of men, this body of women compare most favorably.

Considering that women here had but little practice in public meetings this ready acquiring of business rules and intricate State organization shows that in the future the womanly element in our politics will be felt. Iowa felt her influence last week, most decidedly.

Mrs. Mary K. Pollock, a winsome little woman from Plattsmouth read the annual report of the Treasurer showing a good balance in the coffers. The annual address by Mrs. Jennie E. Ford, that magnificent temperance worker, in the afternoon, and her showing of the past years work, encouraged our hearts, and her practical plans and motherly counsel for the campaign of 1884, will send us out to labor with renewed vigor. Mrs. Ford has that special gift so essential to leaders in a reform that her followers admire her for, her intellectual and executive ability and at the same time love her for her sweet womanly ways. On Friday evening Miss Mary E. Robbins, of Falls City, formally welcomed the convention and to her great efforts the W. C. T. U owes very much.

Mrs. Mary T. Folsom, of Gibbon, responded most gracefully, and made a most stirring argument for prohibition. Mrs Folsom is a woman of rare ability, wide culture, and has a magnificent command of language. She is a fascinating speaker, and has such a sweet feminine manner that all must love and admire her. She is a great acquisition to the ranks of the Nebraska W. C. T. U.

Friday morning Mrs. M. A. Jardine, of Omaha, led the devotional exercises, and all knowing her capacity, know that they were most earnest and forcible. The annual report of Corresponding Secretary Mrs. L. Brackin, showed the earnest and patient work of the Union throughout the State.

There are now about thirty-five organizations under the name of Woman's Christian Temperance union, comprising 700 members. About 1,500 children are marching in our Band of Hope. Temperance literature is flooding our State, and in every way temperance sentiment is being made. The future looks bright, and although defeat met us in Ohio, victory crowned our efforts in Iowa. The temperance question is the question of the day. Even politicians, the last to admit it, recognize the fact. The party which comes out square on the temperance issue is the party of the future. Compromise never effected peace in the anti-slavery struggle, nor will it in this temperance question. It is either for or against, clear-cut, decisive prohibition or out and out anti-prohibition. The politician who ignores this temperance sentiment will be ignored himself for re-election.

After listening with interest to the ably written report of Miss Bracken, Mrs. E. M. J. Cooley, State organizer, reported that she had organized seven unions, delivered 82 public addresses, comprising lectures before State and County Teachers' institutes, State and County Sunday School conventions, State and District Ministerial associations, and had travelled over 5,000 miles. Such a report of work accomplished must thrill the heart of every temperance worker.

Saturday afternoon Mrs. L. O. Dodge, of Omaha, led devotions with great earnestness, showing how much the church has lost in all these ages by repressing the womanly element in her membership. Mrs. Hyde, of Lincoln, reported on resolutions; Mrs. Dodge, of Omaha, on plans of work, and Mrs. Benrought, of Springfield, on finance. Election of officers resulted as follows:

President—Mrs. Jennie E. Ford, of Kearney.

Rec. Sec.—Mrs. Judge W. C. Barnd, of Kearney.

Cor. Sec.—Mrs. Mary T. Folsom, of Gibbon.

Treasurer—Mrs. Mary K. Pollock, of Plattsmouth.

State Organizer—Mrs E. M. J. Cooley.

There were also Vice-Presidents of every Judicial District and eleven Superintendents of departments of work elected. President Jennie E. Ford was elected delegate to the National Woman Christian Temperance Union Convention, convening at Detroit, Mich., October 31.

Resolutions were unanimously adopted endorsing the work of Mrs. Marion B Baxter, of Michigan, and Mrs. Laura G, Fixon of Minnesota, and recommending local unions to secure their services.

Saturday evening after devotional exercises President Ford gracefully introduced Mrs. Dr. H. B. Lowry, of Lincoln, who read a most comprehensive paper on compulsory education. Mrs Lowry is a fine looking woman of noble carriage and queenly bearing. She read in a low but perfectly distinct tone of voice and by her earnestness, logic and facts, combined with graceful delivery she carried all hearts by storm. Her position was well taken and ably defended. Compulsory education, like Woman Suffrage and Prohibition, is sure to come.

Mrs. E. M. J. Cooley then made a most earnest address on the infancy of educating our children on this blood-stained license money, which was received with enthusiasm by her audience.

Sabbath morning dawned clear and bright, a fit emblem of the dawn of temperance which will by and by succeed this long night of debauchery, drunkenness and crime which has so long plunged our fair earth in midnight darkness. The consecration meeting led by Mrs. Mary T. Folsom, of Gibbon, was unusually impressive, many being affected to tears. Mrs. De Long, of Tecumseh, a Universalist pastor, preached the anniversary sermon. The lady is tall and commanding in appearance with a face full of strong, noble character, yet sweet and womanly. She would be noticed among a thousand women or men and marked as a thinker. Her discourse was entitled "Christianity and Modern Reform," and showed much research and scholarly attainments. Christianity will solve this problem, and if Christians were only in earnest, and would vote and work as they pray, vice and debauchery would soon be vanquished. One gem of her many fine thoughts impressed me forcibly, "Wait on the Lord. In his own good time he will make right to triumph over wrong. I believe in the Fatherhood of God. While my Father holds the helm no final disaster can overcome the world." The music was specially fine, being kindly furnished by residents of Fals City. The clergy, too, co-operated with the Union most earnestly, and we hereby thank them for their courtesy. The afternoon meeting was devoted to the children and it made us oh! so happy to turn from the discouragements of the other departments of work, to this juvenile work—the most important, pleasing and hopeful phase of temperance labor, these dear little one with hearts so easily impressed for good. Their enrollment in the temperance army means defeat for the liquor traffic in twenty years. Even now we can hear their steady tread as they are marshalled by loving mothers and tender, patient teachers all over our land. We may laugh at their tiny strength, but a few years will transform them into strong men and women who will vote this damning traffic out of right.

The meeting was addressed most touchingly by Mrs. Daniels, Folson, Hyde and Burroughs. In the evening a crowded house, many standing, awaited eagerly the beginning of the session.

Mrs. L. A. Phillips, of Fullerton, led the devotions. Mrs. Rachel Hyde, of Lincoln delivered a carefully prepared address on Sunday School Temperance Work, which was heard with marked interest, and whose suggestions are most practical.

President Ford then introduced Mrs. Marion B. Baxter, of Michigan, who excelled herself in deeply emotional address on the duty of the State in suppressing the liquor Traffic. Mrs. Baxter has spoken in Omaha on this question, and all who heard her were much pleased. She is a woman of broad intellect, grand views and noble principle. An earnest face that is lighted by great sparkling eyes that can burn with indignation, twinkle in humor or glow with enthusiasm, she has the breathless attention of every one in the house. Her speech was full of vigor, and her closing plea for fallen women was fairly eloquent. Mrs. Baxter will do good service in this temperance warfare, and has before her a brilliant career. A vote of thanks was unanimously passed, and many crowded about her with words of encouragement and admiration.

Thanks are due to the residence of Falls City, who so kindly welcomed us. The Union Pacific. B. & M. and Missouri Pacific railways who granted reduced rates, are also hereby earnestly thanked for their very great kindness, to the clergy, the musicians and all who rendered aid we tender our grateful appreciation. Personally, I cannot close without rendering a tiny tribute to Hon. A. J. Weaver and wife who threw open their doors so hospitably and entertained so royally. Mrs. Weaver is a lovely woman, wife and mother, and her husband will represent most ably Nebraska at Washington this winter. Such noble people increase one's faith in human nature.

And thus with sweet memories of those few pleasant days in Falls City and with regrets at parting, but taking away renewed hope and vigor for another year's earnest work, the ninth annual convention of the Nebraska Woman's Christian Temperance Union adjourned to meet October, 1884, in our own dear city of Omaha.

A SAILOR THIRTY YEARS.

About three months ago I was taken with severe pains in the small of my back, in the region of the kidneys, from which I became a terrible sufferer. I consulted with a number of physicians, and finally placed myself under their treatment, they telling me I had the sciatic rheumatism and kidney complaint.

On examination my urine was found to be in a very bad condition, of a very dark color, and impregnated with a heavy red brick-dust deposit, and very offensive. I had the most careful and best medical attendance, and tried all the popular remedies without experiencing any relief. Fortunately about this time the virtue of Hunt's Remedy being called to my attention, I bought and used a bottle, with such satisfactory results that I continued on for six weeks, when, having used four bottles, I found I was as well as ever and entirely cured. All pains left me, my water returned to its natural color. I am now in excellent health, and able to attend to my business (grocery).

Whenever an opportunity occurs to recommend your valuable medicine I always do so, as I am confident it will do all your claims for it, and that every time.

Yours, with gratitude,
CAPT. JOHN KIMBALL.

New London, Conn., May 9, 1883.

ALEXANDER'S CASE.

About one year ago I was taken with a severe attack of disease of the kidneys, from which I suffered severely. I applied to our local physician, and not receiving any help I called on Mr. John A. Morgan, our druggist, and stated my case. He immediately handed me a bottle of Hunt's Remedy, offered it as the great specific for that complaint. I commenced using it at once, and from the very start I began to improve, and by the time I had used the bottle was entirely well. I would advice any persons having difficulty with the kidneys to give Hunt's Remedy a trial, I know of one case besides my own being cured and would cheerfully recommend it to any one.

CHARLES H. ALEXANDER,
Foreman Dye House, Shetucket Mills.
May 8, 1883. Greeneville, Conn.

I certify to the above being a true case, having sold the medicine to Mr. Alexander, and know him to be a gentleman respected highly in the position he holds.

JOHN A. MORGAN,
May 8, 1883. Druggist, Greeneville, Conn.

Mercury.

Has been more destructive to human health and [illegible] than war, pestilence and famine combined. So said a distinguished writer many years ago, and it is as true to-day as then. The poor victim of Blood Disease is drugged with Mercury to cure the malady and then dosed with Iodides to cure him of the Mercurial Poisoning; but instead of relief, the first one breaks down his general health and makes him a cripple, and the other ruins his digestive organs. To those afflicted in this way Swift's Specific is the greatest boon on earth, and is worth more than its weight in gold. It antidotes this Mercurial Poison, tones up the system and brings the sufferer back to health and happiness. Every person who has ever been salivated should by all means take a thorough course of this remedy.

JEFFERSONVILLE, TWIGGS CO., GA.

Five years ago I found on my plantation a colored man who was badly diseased. He stated that five years before he had contracted a violent case of blood poison, and had been treated by many physicians all failing to cure him. I treated him with Swift's Specific, and in a short time he was sound and well, and has not had a symptom of the disease since.

D. M. HUGHES.

One gentleman who had been confined to his bed six weeks with Mercurial Rheumatism has been cured entirely, and speaks in the highest praise of S. S. S.

CHILES & BERRY,

First Mortgage Loans a Specialty

This Company furnishes a permanent home institution where School Bonds and other legally issued Municipal securities to Nebraska can be negotiated on most favorable terms. Loans made on improved farms in all well settled counties of the state through responsible local correspondents.

MANHOOD RESTORED.

A victim of early imprudence, causing nervous debility, premature decay, etc., having tried in vain every known remedy, has discovered a simple means of self-cure, which he will send FREE to his fellow-sufferers. Address, J. H. REEVES, 43 Chatham st., New York

PERSONAL.—Parts of the human body enlarged, developed and strengthened, etc., is an interesting advertisement long run in our paper. In reply to inquiries we will say that there is no evidence of humbug about this. On the contrary, the advertisers are very highly endorsed. Interested persons may get sealed circulars giving all particulars by addressing Erie Medical Co., P. O. box 513, Buffalo, N. Y.—[Toledo Evening Blaze. tu11-1y
