FINANCIAL

NEW YORK, November 1.

Money—Easy at 2½@3 per cent, closing at 2½ per cent.

Prime Paper—6@7 per cent.

Exchange Bills—Dull at 4.81¼; demand, 4.84.

Governments—Lower.

Stock speculation shows a decided movement in another direction to-day. The bulls and bears seem to be awaiting the movements of each other, and as there has been no positive demonstration, there have been no significant changes. Prices ware a fraction lower than at the close last night. Northern Pacific sold up to 29¾ for common and 64¾ for preferred, on the announcement that the government had ordered the transportation of the Oregon and British Columbia mails over the Nortern Pacific lines. This, it is stated, would add over $500,000 to the receipts of the company.

The Evening Post says: "Four times as much stock is being withdrawn from the street as comes into it from investors, and the actual supply of dividend paying stocks in the street is being steadily diminished. This fact will make itself apparent whenever there is another attempt to cover an outstanding short interest."
