From Saunders County.

ASHLAND, Neb., June 18.

EDITOR HERALD:

I have been so busy that I have not found time to answer your inquires relative to the agricultural status of Saunders county.

From the best sources of information I think the following figures approximate the facts:

There has been about 8,000 acres of wheat sown in the county the last spring, which promises well universally.

Thompson Bissell has the largest crop out—250 acres. There are five men in the county who have over 100 acres of out, and two have over 200 acres.

There is about 3000 acres of corn, of which Joe Nesbit, Esq., has 120 acres—the largest crop in the county.

There have been about 700 breaking plows sold into the county the present season, which, with an average of 25 acres to the plow, will break 17,500 acres.

The largest number of homesteads taken in this county in one day was (40) forty, and the total number this season is about 1,000.

The largest cattle raiser in the county is Thompson Bissell, who keeps about 200 head. The largest wool grower is Moses Stocking, who has about 1,200 head of sheep.

The subject of tree culture is receiving considerable attention, but as yet no very extensive forests have been planted. The largest in the county was planted by and is the property of Judge Marble; it consists of 18 acres.

Many are turning their attention to fruit culture on a small scale.

Hoping these facts will be satisfactory,

I am yours, &c.,
C. H. WALKER.

Hurry to the Republican.

EDITOR STATESMAN.

I have after a close examination of the Republican found a location there which will satisfy the expectations of the most particular, in the matter of timber soil and water; and so far as landscape is concerned, I verily believe that there is no point in Nebraska that can surpass it.—Therefore I will attempt the establishment of a settlement there. There will be no colonization about it; Secretary for the Treasury, Interior or war Department; every one will do as he pleases, and in case of danger, will—Americans are wise enough to take care of themselves.

I will start from Camden, Seward Co., on the morning of Monday, the 23d of August. Every one desirous to get 160-acre homestead, or the privilege to buy land at $1.25 per acre, will do well to accompany the train. Those not satisfied with the Republican valley when they have seen it, will not lose their time, for they will have the sport of a grand buffalo hunt. Come one, come all! do not wait to go on the Republican until half of the land over there is gone to railroad grants. A strong settlement well concentrated is impregnable by Indians; at any rate it must be made so. Here is a fine opportunity for a merchant; better still for the owner of a good portable sawmill. Fear not there is timber enough to make everything go by steam. The distance from Camden is two hundred miles. Those determined to go will please notify me at once.

VICTOR VIFQUAIN.

In chemistry, the best way to separate two bodies is to introduce a third. The same holds true in other departments.—To increase the distance between a pair of lovers, let little Willie walk into the back parlor with a lighted candle in his hand.

A clergyman, who was consoling a young widow on the death of her husband, spoke in a very serious tone, remarking that he was 'one of the few—such a jewel of a Christian—you can not find his equal you well know.'' To which the sobbing fair one replied, with an almost broken heart, ''I'll bet I will.''

A little boy, five years old, while writhing under the tortures of the ague, was told by his mother to rise up and take a powder she had prepared for him. ''Powder! powder!'' said he, raising himself on his elbow, and putting on a roguish smile. ''Mother, I ain't a gun!''

The New York *Tribune* in a well considered article on the turf, says in opposition to gambling there, ''with the introduction of thoroughbreds on four legs, let us have thoroughbreds on two.''—We can have good stock without blacklegs if we only think so.

Rain water caught during May or the first week in June, will keep a long time perfectly pure and sweet. Some caught in 1828 was pronounced as sweet as spring water in 1850.

A lady in New York is making an ineffectual attempt to whiten her complection by drinking pale brandy. Her nose blushes at the experiment.

The sword presented to General Washington by Frederick the Great is for sale in New York. It should be purchased by the National Government.

A story is told of a young man who was going west to open a jewelry store. When asked what capital he had, replied:

'A crowbar.' He has not been here.

The Omaha *Herald* calls the Chicago *Times* the ''Democratic nigger organ.'' You shouldn't call such hard names.—It isn't our soup, however, and you can fight like Kilkenny cats if you want to.

''If it wasn't for hope the heart would break,'' as the old woman said when she buried her seventh husband and looked anxiously among the funeral crowd for another.

It is very dangerous for any man to find any spot on this broad globe that is sweeter to him than his home.—*H. W. Beecher.*

A hen in Georgia has laid an egg, inscribed, ''Woe to R. B. Bullock.'' It is clear that the hen that laid such an egg belonged to the cluck clucks.

The very climax of superfluous benevolence has been declared to be that of holding an umbrella over a duck in the rain.

An old proverb says: ''Speech is silver, but silence is golden.'' Some say that this suggested the idea of ''*hush money.*''

Fifty-one volumes of the *Congressional Globe* sold recently in New York for thirty cents. Of a verity gab is cheap.

WHAT CUYLER SCHOLFAX Says of Weeping Water.

Extract from Letter to Mrs. Grundy.

"As I was telling you, my dear Mrs. Grundy, I came on my mule to Weeping Water in a sadly dilapidated condition—*sans* hat, *sans* boots coat stockings—in short, destitute of all those convenient appurtenances which ornament a well dressed man—having been deprived of all by the merciless savages, who even took my cigar case.

Thinking that I might in that flourishing town obtain a second-hand blanket, I rode up to

REED BROS.'

store, and hitching my mule by the ears to a large freight wagon loaded with goods for the Plattsmouth retail trade, I entered. Judge of my surprise when I was promptly met and offered a complete outfit, from a pair of stub-toed boots to a goose-quill toothpick, for the paltry sum of nine dollars and sixty-two and one-half cents, the 2½ cents being the profits on the goods. * * * If you want anything in the miscellaneous line, call on them, and if you don't see what you want ask for it. I would remark here that they are generous, liberal, good looking and truthful to a fault."

THE AMERICAN

SHUTTLE SEWING MACHINE

Is retailed at a price within the reach of all.

This machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, quilt, tuck, ruffle and gather; will sew equally well on silk, linen, woolen or cotton goods, with linen or cotton thread.

The American Shuttle Sewing Machine is

Warranted for Five Years

Our Agents will be supplied with duplicate parts of the machine in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe and Florence machines. It has the under-feed like the best of high priced machines, and is the only

Low Priced Shuttle Machine

in the market that has this feed. We are enabled to sell a first class Shuttle Machine at a very low price, on account of its simplicity, and consequent low cost of manufacturing, in comparison with complicated machines.
