COMMERCIAL AND FINANCIAL

Free Movement of New Crop Continues to Weaken Wheat.

JULY AND SEPTEMBER AGAIN SHOW LOSS

All Other Markets Are Likewise Weaker, and Corn and Oats and All Provisions Have Lower Quotations.

CHICAGO, July 13.—Indications of the free movement of the new crop and favorable reports from the harvest fields weakened wheat today. July left off 1c lower and September lost ⅝c. Corn and oats declined ½c each. Pork closed 22½c down, lard lost 2½c and ribs 1½c.

Higher Liverpool cables and confirmation of heavy export business at the seaboard yesterday, together with advices from New York that the foreign demand was still unsatisfied, started wheat strong. Fine weather and more favorable crop news developed generous selling by scalpers, partly for the short account and partly to secure profits from investments made on the recent break. The market did not get support enough to sustain prices in the face of this selling and September went off to 67 5-8c. July lost 1c, declining to 74¾c. A break of 5c a bu. in cash wheat at St. Louis and indications that by this day week new wheat would be moving too freely for the demand caused great weakness in the end, and prices declined still further. Chicago received 40 cars of wheat, 37 cars being new and 12 cars of the lot contract grade. Minneapolis got 44 carloads, Duluth none, while a year ago the two places received together 184 cars. Atlantic port clearances of wheat and flour were equal to 146,000 bu. July opened ⅝c higher at 75¾c, sold up to 75 7-8c, then dropped to 74c, the closing figure. September began from ⅛c to 5-8c up at from 68¼c to 68 3-8c, rose to 68½c, then weakened to 67 1-8c bid at the close.

The weather was fine for corn and crop prospects improved, but the comparatively low price at the start encouraged bulls to buy on the rally in wheat and prices were materially advanced. The market turned decidedly weak during the latter part of the session on bulls unloading their holdings and the early advance was more than lost. September opened from 1-8c to ¼c higher at from 32 3-8c to 32½c, rose to from 32 5-8c to 32¾c, then sold off to 31¾c bid at the close.

Selling by professionals during the last half hour, favorable crop reports and the weakness in corn caused a downfall in oats. A good cash demand was practically the only bullish factor. September began from 1-8c to ¼c up at from 19¾c to 19 7-8c, steadied to 19 7-8c, dropped to 19c, then rallied to 19 1-8c at the close.

The falling off in receipts and higher prices for hogs started provisions strong. Later the edge was taken off the market by moderate realizing and selling by packers. The decline in the grains also had a depressing effect. September pork opened 5c higher at $10.17½, declined to $9.87½ and then rallied to $9.90 at the close. September lard started from 5c to 7½c better at $5.67½, advanced to $5.70, then reacted to $5.60, the closing price. September ribs began from 2½c to 7½c up at from $5.70 to $5.75 and sold down to $5.60, the closing price.

Estimated receipts for tomorrow: Wheat, 50 cars; corn, 300 cars; oats, 150 cars; hogs, 30,000 head.

BARLEY—Dull; December, $1.18 1-8.

STOCKS AND BONDS.

Market Breaks on Reports of Yellow Fever at Santiago.

NEW YORK, July 13.—The sharp break in prices on the Stock exchange today was due to the reports that yellow fever had broken out among the forces at Santiago. The proportions of the break in prices is a demonstration that there is an enemy in Cuba which is more feared than the Spanish army. There was undoubtedly a good deal of liquidation induced by the reports, but there were also the obvious earmarks of a bear raid in the piling up of all sorts of alarmist rumors. Several times during the day the bears had misgivings about their campaign and started to cover, but as often renewed the selling movement. There was an extensive covering movement in the final dealings, however, which caused substantial rallies all through the stock list and the speculative bonds as well. Net losses of between 1 and 2 points are nevertheless liberally sprinkled all through the list. There was an extensive movement to realize also in some of the junior mortgage bonds, which have been advancing during the last four days. The reaction in these was as sharp as in the stock list, but there was a large absorption at the decline and an easy rally in most cases. The Atchison adjustments, which led in point of activity, were an exception, closing near the lowest. Business continued weak in the Atchison preferred stock and its net loss is less than the average. There was no attempt apparently to support the stock, but the pressure to realize was not severe. Wall street timidity over the outbreak of fever in the United States camp grew out of a fear that the disease will thus gain a foothold in this country and interrupt railroad traffic with quarantine. The market was heavy from the start on London selling, based on the decreased estimates of the government report. The peace rumors which caused the Spanish 4s sharply had no effect on Americans. Business in bonds was largely confined to the speculative junior issues, which all reacted on realizing. Total sales, $5,085,000. United States new 4s declined ½ and the old 4s ¼ in the bid price today.

The Evening Post's London financial cablegram says: The stock markets here remained quiet today and the gold withdrawals exercised a slightly depressing effect on the closing tone. Americans were prejudiced by reports of yellow fever among the troops in Cuba and all were lower except Central Pacific and Canadian Pacific. Bonds are being freely deposited in connection with the reorganization of the Baltimore & Ohio. As to a possible change in the discount rate of the Bank of England tomorrow, all that can be said is that this report that it may not check the gold withdrawals, while a reduction of 2 per cent would not facilitate them. Owing to the great abundance of call money, the bank rate is quite inoperative. The bank today sold £353,000 in German coin for shipment to Berlin, through Berlin. The continued decline in that direction would seem to be associated with the development of various industries in Russia, the capital for which has been largely raised in Germany. Spanish 4s were strong and closed at 58¾. Argentines were sensibly firmer and Chilians showed large rise.

The following are the closing quotations of the leading stocks on the New York market today:

Foreign Financial.

BERLIN, July 13.—Business on the bourse here today was quiet. International securities were maintained. American securities were steady. Canadian Pacifics irregular, closing harder.

PARIS, July 13.—Business at the opening of the bourse was irregular, but stocks were afterward strong in consequence of the upwardness of Spanish 4s on covering purchases, the rumors of the surrender of Santiago and the improvement in the rate of exchange. Prices closed generally firm. Copper shares unchanged. Spanish 4s closed at 58.90. Three per cent rentes, 102f 17½c for the account.

LONDON, July 13.—The market for American securities, after declining somewhat, was quiet, with a hardening tendency. The closing tone was firm and the demand neglected. The amount of bullion withdrawn from the Bank of England on balances today was £358,000, mostly for Germany. Spanish 4s closed at 58⅞. After the closing there was a further advance to 58¾. Gold is quoted at Buenos Ayres at 176.50.

San Francisco Mining Quotations.
