SALESMEN
STEP UP TO $5,000 A YEAR

Five thousand farmers in the four counties adjacent to you will buy electric light and power plants in the next 10 years. If you and salesmen under you sell 100 per year among all these prospects, your personal income will be $5,000 a year. Do you want to be in the $5,000 class the next 10 years of your life?

Farmelectric, the Ford parts plant, is the light and power unit that farmers like. All wearing parts are Ford parts. Every Ford garage is a Farmelectric service station. In what other plant can money buy such insurance of continuous operation?

Farmelectric is made in several sizes to meet the light and power needs of large and small farms, country places, garages, clubs, etc. The Eclipse Battery, built by the oldest and largest manufacturers in the world, is standard equipment. Farmelectric costs less than any other plant of like capacity and may be bought on the simple basis of $25 with order.

These facts are being told to 4,000,000 farmers through the Country Gentleman, Farm Journal, Successful Farming, Rural New Yorker, and other great farm papers.

THE FARMELECTRIC MAN

Must be ambitious to succeed.

Must be able to meet men and make friends.

Must be willing to work and work hard.

Must be able to direct a small sales force and

Must have the very small amount of capital needed to organize his territory.

The average ambitious man has qualifications. Please write us, stating the counties you would like to control, what you have been doing and why you think you are the man to make this money, and if your application is passed on favorably we will wire you where to meet our field representative.
