FARM AND GARDEN.

Cider apples in Westchester county, New York, are worth at the present time, only about ten cents a bushel, and are abundant.

There are now living in Scotland about 2,500 Aberdeen-Angus cattle, male and female, and two-thirds as many—a few more than 1,800—in this country.

Hog cholera in its fatal form is prevailing in parts of Monroe and Lawrence counties, Indiana. Recently many have died, and it is especially fatal among young pigs.

Convenience and economy of space are almost synonymous terms, and these are the great points to be kept in view. Good ventilation is as essential to the well being of stock as of man.

The transportation rates on dressed beef shipped by rail have been fixed at seventy-five per cent above live stock rates, the rate being forty cents per 100 on live stock, and seventy cents on dressed beef.

When using the wagon to take a load to the field, throw in a shovel and bring back a load of loam from around stumps and logs, or woods dirt, and throw it into the compost heap. It will pay.

Varnish for scratches in horses is recommened by a correspondent. He says that by washing the diseased parts thoroughly with warm suds, and applying a coat of coach varnish, a speedy cure is effected.

Few farmers think so far as to put a prop under the tongue or thills of farm carts while loading, or at other times when not in motion, and yet thoughtfulness in this matter would save much suffering to animals.

It is claimed that basswood is the best lumber for water pipes; it keeps constantly saturated, and in this condition any wood is very durable. A farmer, who laid 300 rods of basswood logs nine years ago, finds them now as good as new.

The following orchard fruits are recommended by prominent horticulturists as being especially suitable for northern states: Apples—Baldwin, Northern Spy, Tompkin's King, Rhode Island Greenings, Golden Russet. Pears—Duchess, Bartlett, Sickel and Louisa.

Pumpkins and squashes should be kept in an upper room on boards or shelves, and just warm enough to prevent them from freezing. Never put them in a damp cellar or pile them in bulk or where the rats can get at them; better feed them to the hogs or cows at once than do either of the above.

Sweet potatoes must be well dried, packed in clean dry barrels, not so tight as to exclude the air, and then the top may be covered with dry sawdust (dried by fire) about two or three inches thick to prevent them from wilting or drying up too much. Never put them in salt barrels or cover the tops so tight as to prevent the evaporation from escaping.

Bromide Destructive to the Teeth.

A Hartford dentist, writing to a newspaper concerning the destructive effect upon the teeth of bromide of potassium, which he advises people to take only through a glass tube—or, if they do not, to brush the teeth thoroughly after taking it—says: "The extensive and almost universal use of tonics and sedatives, in the form of iron and bromides—and, I will add, the general use of fine wheat and non-bone-making food materials, are what support the vast army of dentists in this country." It is a curious fact that the effect of American food upon the teeth of emigrants who have been used to a coarser and perhaps a more wholesome diet, is more marked than upon the teeth of the sons of American ancestors. As an illustration of this a former dentist of Cincinnati once remarked upon the rich harvest which the members of his profession in that city enjoy during the week of the May festival, which brings into town thousands of recent German emigrants from the surrounding country.—*Hartford Courant.*

The Queen's Floral Tribute to Garfield.

The wax counterpart of the floral wreath sent by Queen Victoria to be placed on President Garfield's coffin is completed. For two years the designer has been at work upon the frame, and as a historical work of art it is of much value. It is a heavy frame of English oak, made from the wood of a tree that stood for 300 years and was cut down by the British at the battle of Waterloo to build a bridge. The frame is engraved with oak leaves, except across the lower border, where the rose, which is the Queen's favorite flower, intertwines with the hollyhock. At the top of the frame are engraved the sword, and shield, and bible, surmounted by the garter; on the right the United States coat of arms, and on the left that of Great Britain. Below is a gold plate bearing the presentation words of the order to the Garfield family. Across the top is written, "Honi soit qui mal y pense," and on the lower border "Strangulatus pro Republica."—*Cleveland Herald.*

Naming the Baby.

There are many families in which the really absurd practice prevails of retaining the same set of Christian names from generation to generation, with the natural result that each member of one of these families is constantly mistaken for his father or his cousin. In the giving of names considerations of sentiment should always give way to those of convenience. It is satisfactory to observe that the very commonest of our Christian names are fast losing their popularity, and that the custom of giving double names, and that of using surnames as Christian names are becoming more general. These useful innovations are especially to be recommended to the Smiths, the Browns, the Jonses and all possessors of excessively common surnames. We may reasonably hope that in a generation or two there may be no longer any plain John Smiths to lament the inconvenience of bearing a name which is practically "no name at all."—*Boston Journal.*

Catholic College.

Mr. J. D Kingsley, secretary, Holy Cross College Gymnasium, Worcester, Mass., writes: Every member of our club frankly admits that St. Jacobs Oil, the conqueror of pain, is the best cure they have ever used, and all speak of it in terms of the highest approbation. 50 cents a bottle.

White House Business.

One of the leading secretaries at the White house tells me that the business of the executive has increased largely since the days of Lincoln and Grant, writes a Washington correspondent. "Up until the time of Hayes," says he, "hardly a scrap of paper was kept here to show what the president did or why he did it. Now we keep a record of everything and we make a point of answering every letter. Notes are kept of the contents of all important letters received, and by our record here, in case of an appointment, we can tell just why and upon whose recommendation the appointment was made. In case the appointee turns out badly the president is relieved of the blame and it is thrown upon those who recommended him. We receive a great many letters that should go to the various departments. Some poor woman in the distant part of the country wants a pension. She does not know anything about the pension bureau, and the only person in the government with whom she is acquainted is the president. She writes to him. Of course our letters are referred by us to the pension office, and it is the same with other letters of the same class. As the executive office is carried on now, it is absolutely necessary to have a good force of clerks, and the day has passed when presidents can stand around the street corners and ask every other person they meet to come and have a chat with them at the White house."

Pile Tumors

When neglected or imperfectly treated often degenerate into cancer. By our new and improved treatment without knife, caustic or salve, we cure the worst cases in ten to thirty days. Pamphlet, references and terms, three letter stamps. World's Dispensary Medical Association, 663 Main street, Buffalo, N. Y.

Several rich Americans have contributed liberally toward the restoration of the church in Stratford-on-Avon, wherein Shakespeare's bones lie, while the Bartholdi statue has no place whereon to plant its feet. These people are like the mother who neglected her boy's trousers while she went to the vestry to make trousers for heathen boys.

It Should be Generally Known

That the multitude of diseases of a scrofulous nature generally proceed from a torpid condition of the liver. The blood becomes impure because the liver does not act properly and work off the poison from the system, and the certain results are blotches, pimples, eruptions, swellings, tumors, ulcers, and kindred affections, or settling upon the lungs and poisoning their delicate tissues, until ulceration, breaking down, and consumption is established. Dr. Pierce's "Golden Medical Discovery" will, by acting upon the liver and purifying the blood, cure all these diseases.

In all things throughout the world, the men who look for the crooked will see the crooked, and the men who look for the straight will see the straight.—*Ruskin.*

The famous shell road of New Orleans is a boulevard of almost snowy whiteness, nearly 200 feet in width and nine miles in length.

English Mormons are said to have comfortable headquarters at Liverpool and a comfortable balance in the Bank of England.

The population of Nevada is steadily dwindling. The Carson Tribune estimates that there are now not more than 12,000 voters in the state. In 1880 the total vote was 16,611. Only one county has 3,000 voters, and of all the others only three have a voting population in excess of 1,000 each. One county is credited with 200 votes only, and there are five counties whose combined vote will not exceed 2,500.

Sierra Valley, Sierra county, Cal., is one of the prettiest but most isolated places in the state. It has no telegraph communication with the rest of the world, and can only be reached by a difficult stage ride of twenty-five miles. The inhabitants have just begun to sing "Grandfather's Clock," and probably will not hear of "Wait Till the Clouds Roll By" for several months yet.

Incendiaries who are rich enough to employ a lawyer to defend them are now spoken of as pyromaniacs, just as a poor ragged devil full of liquor is called a drunkard, while a man who can employ a doctor instead of a policeman to take care of him is called a dipsomaniac; and a poor girl who steals is a thief, but a richer one is a kleptomaniac.

100,000 ROYAL PRESENTS!! AND A Long Loan at 4 Per Cent.

THE publisher of the ILLINOIS AGRICULTURIST desires to secure 100,000 more subscribers. For 50 cents we will mail you our paper 6 months on trial, and immediately send you a numbered Receipt, which will entitle the holder to one of the following presents. Its circulation is now 55,000. Only 45,000 more needed before the Distribution takes place, March 15, 1885. All these presents will be given to these new 100,000 subscribers.

PARTIAL LIST OF PRESENTS TO BE GIVEN AWAY:

10 Cash presents of $1,000 each; 10 U. S. Bonds, $500 each; 10 U. S. Greenbacks, $100 each; 100 U. S. Greenbacks, $10 each; 1,000 cash Presents of $1 each; 1 Grand Square Piano; 1 Grand Cabinet Organ; 100 Ladies' Gold Watches, $40 each; 100 Silver Hunting-Case Watches, $20 each; 100 Semi-Winding Nickel-Case Watches, $8 each; 50 Ladies' Chatelaine Watches, $10 each; 50 Boys' Silver Watches, $10 each; 200 Waterbury Watches, $2·50 each; 50 Ladies' Gold Neck Chains, $15 each; 50 Gents' Gold Chains, $25 each; 20 Ladies' Gold Bracelets, $15 each; 10 Silver Dinner Services, $100 each; 10 Silver Tea Sets, $60 each; 10 Sets Parlor Furniture, $100 each; 500 Solid Gold Rings, $3 each; 500 Sets Solid Silver Teaspoons, 6 to a set; 5 Bicycles, $90 each; 1 matched pair Trotting Horses, $1,000; 500 pairs Ladies' Roller Skates; 500 pairs Boys' Roller Skates; and hundreds of other useful and valuable presents, which we can not enumerate here. All the above presents will be awarded in a fair and impartial manner. Presents will be sent to any part of the United States or Canada. Every person sending us 50 cents for a 6-months' trial subscription to our paper is also privileged to apply for a loan, to be made out of advertising profits, the amount borrowed being permitted to remain unpaid as long as the borrower remains a subscriber and keeps the interest paid.

With 100,000 circulation (which will probably be doubled) our profits will approximate as follows: RECEIPTS:—100,000 yearly subscribers, $100,000; 1,000 inches advertising, $1 per line, $14 per inch, 12 issues, $168,000; total, $268,000. EXPENSES:—For paper and press work, 100,000 copies, 12 issues, $50,000; editorial work, office, repairs, etc., $20,000; 100,000 Presents, $50,000; total, $120,000; leaving a net profit of $158,000. For this enormous profit for sale of advertising space the ILLINOIS AGRICULTURIST depends on its 100,000 subscribers, for advertisers pay for space in proportion to circulation. With but 25,000 circulation the profits would be but a tenth of the amount. Therefore as subscribers are doing us a favor when they send us their names, we desire to return favor for favor. Any subscriber who desires to borrow from $100 to $500 at 4 per cent., the principal to stand if desired, as long as the borrower remains a subscriber, should so state when he sends us 50 cents for a 6-months' trial subscription to our paper

CONDITIONS: Loans made pro rata, not less than $100 nor more than $500. First year's interest at 4 per cent. to be deducted from amount loaned. Your individual note is all the security asked, provided you will send the names of several of your neighbors to whom we can refer—not as to the amount of property you are worth but as to your good character. Every subscriber must *positively* agree to show the paper and present to his friends and neighbors. When a loan is made, the adjoining form of note will be sent with the money to the subscriber's nearest bank or express office, and no note need be signed until the money is paid over. Send the names of several references, and immediate inquiry will be made. If no loan is desired, no references need be sent.

One year after date, for value received, I promise to pay to the order of the publisher of *IL. AGR. Realtorist* the sum of ..... dollars, with interest at 4 per cent. per annum after maturity. It is understood and agreed that no part of the principal of this note will be demanded or become payable (except at my pleasure), as long as I remain a paid-up subscriber to the above named paper. (Signed) .....

900 GOLD WATCHES FREE! WHO WILL SEND THE QUICKEST?

In making up the above list of presents, we decided to reserve 89,000 to be divided equally among the first 900 subscribers received. If you send 50 cents you will be entitled to *one receipt* good for *one present*, and if your letter is among the first 900 received you will also be entitled to a beautiful gold watch. The watch is one third larger than the picture. We will send a printed list of the awards, free, and all presents will be forwarded to holders of receipts as they may direct. A list of watch winners will be published in our paper. The 50 cents you send us is the regular price for 6 months, therefore you pay nothing for the present. Subscribe at once. Don't wait a day. We will send you the paper one year and 3 numbered receipts good for 3 presents, if you send us $1. Get five friends to join you, and send $2.50, and we will send the paper 6 months and 1 numbered receipt for each of your subscribers and 1 extra for your trouble. No postponement. Send 10 subscribers, with $5, and we will send you 12 subscriptions and 13 receipts. This offer is good only until March 15, 1885. We have 55,000 subscribers already, and only require 45,000 more to have the desired number. Our old patrons and subscribers, whom we number by *thousands*, should go to work at once and help us increase our list by this grand and generous offer.

Hard to Believe.

It is hard to believe that a man was cured of a Kidney disease after his body was swollen as big as a barrel and he had been given up as incurable and lay at death's door. Yet such a cure was accomplished by Kidney-Wort in the person of M. M. Devereaux, of Ionia Mich., who says: "After thirteen of the best doctors in Detroit had given me up, I was cured by Kidney Wort. I want every one to know what a boon it is.

The Record of the Fairs.

The superiority of Wells, Richardson & Co's. Improved Butter Color over all others made, is again demonstrated by its record at the Autumnal Fairs. The test of practical use is what tells the story, and the great value of the premiums given by the Agricultural Fairs lies in the fact, that the judges in these cases are regular farmers, who know what their needs are and what will supply them. Wells, Richardson & Co's. Improved Butter Color, which has taken first premium at all fairs where exhibited, is put up in a vegetable oil so prepared that it cannot become rancid, a most important property, the lack of which is fatal to so many of the Butter-Colors offered for sale. It does not color the butter-milk; it imparts a bright natural color, which is unattained by many others; and being the strongest is the cheapest Color in the market.

[FAC-SIMILE OF TYPE-WRITER LETTER.]

TO THE PUBLIC, GREETING:

Boards of Health are now everywhere correcting the faults of sewerage and advising the people how to prevent future epidemics.

But other precautions are necessary, without which no amount of Sanitation can avail. Dr. Koch says that cholera has but little chance among those who keep the digestive organs and the liver, skin and kidneys (the sewers of the body) in healthful operation.

Warner's SAFE Remedies are the best scientific Curatives and Preventives, and we cannot too much emphasize the importance of using them now, as a safeguard against any future scourge

Much of the common ailments are caused, not primarily by bad blood, but by IMPAIRED LIVER AND KIDNEYS. This results in blood corruption and injury to the entire system. Remove this impaired action, and most ordinary ailments will disappear. Other practitioners have held that extreme liver and kidney disorders are incurable. We, however, by the severest tests, have unanswerably proved the contrary. Please note:

FIRST.--WE DO NOT CURE EVERY KNOWN DISEASE FROM ONE BOTTLE. Warner's Safe Remedies are specifics, which have been successively put upon the market ONLY IN OBEDIENCE TO STRONG PUBLIC DEMAND. These remedies are: Warner's SAFE Cure, for kidney, liver, bladder and blood disorders, General debility, Impotency, gravel, female irregularities; Warner's Safe Diabetes Cure, for Diabetes—the only known specific; Warner's Safe Rheumatic Cure for Rheumatism, Neuralgia; Warner's Safe Pills for constipation, diarrhoea, biliousness; Warner's Safe Nervine for nervous disorders; Warner's Safe Throatine for Asthma, catarrh; Warner's Tippecanoe for all stomach derangements.

SECOND.--Warner's Safe Remedies, spite of all opposition, have won the victory and are everywhere recognized as leading STANDARDS.

THIRD.-After six years of unequalled experience, we give these unqualified guarantees:

GUARANTEE I.--That Warner's Safe Remedies are pure, harmless, effective.

GUARANTEE II.--That the Testimonials used by us, so far as we know, are bona fide, with a forfeit of $5,000 for proof to the contrary.

GUARANTEE III.--That Warner's Safe Remedies are NOT MERELY TEMPORARY, BUT PERMANENT, IN THEIR CURATIVE EFFECTS AND WILL SUSTAIN EVERY CLAIM, IF USED SUFFICIENTLY AND PRECISELY AS DIRECTED.

FOURTH.--Special inquiry among hundreds of our oldest patients results in unequivocal testimony that the cures wrought six, five, four and three years ago, were PERMANENT. And most of these Patients were pronounced INCURABLE when they began Warner's Safe Remedies. Read a few of Thousands of examples:

ELDER JAMES S. PRESCOTT, Box 262, Cleveland, Ohio, founder of North Union Shakers: In 1878 was pronounced incurably sick of chronic Bright's disease, by the best physicians. Then he resorted to Warner's SAFE Cure. March 12, 1883, wrote: "Health never better. Just past 80th year." Oct. 18, 1884: "I am enjoying a very comfortable degree of health." He says also, "I am an enthusiast over Warner's SAFE Cure." Used 4 doz. bottles. James S. Prescott.

MRS. HELEN LEIKEM, West McHenry, Ill., two years ago used Warner's SAFE Cure and SAFE Nervine for complete nervous prostration. August, 1884, she wrote "I have never enjoyed such good health; have had no return of my old trouble." Helen Leikem

S. A. GETTYS, Insurance agent, Chillicothe, Ohio, in 1879 was attacked with vertigo, which for two years and a half periodically affected him. He was a chronic sufferer from dyspepsia. He had the best medical attendance without success. In 1883 he was cured by Warner's SAFE Cure, and writing Dec. 5th, 1884, from East Liverpool, Ohio, he said "I have never had the least trouble since I used Warner's SAFE Cure, which benefited me permanently." S. A. Gettys

THE REV. JAMES WAXHAM, of La Porte, Ind., in Jan., 1882, used Warner's SAFE Cure for Bright's disease and after four months treatment says he was as well as ever. June 28th, 1884, he wrote, "My health is fully restored, and I am free from annoyance from my old complaint." Jame. Waxham

R. H. McMICHAEL, of Emporia, Kans., in 1880, while living at South Bend, Ind., had inflammation of the bowels and a hard lump formed on his right side covering half the abdomen. Forty doctors examined him, five treated him but gave him no hope of cure. He lost sixty-five pounds of flesh. June 1st, 1884, he began using Warner's SAFE Cure, 23 bottles of which fully restored his health. July 15th, 1884, he wrote, "My cure is permanent. I was a living skeleton, who was restored by the use of Warner's SAFE Cure." R. H. McMichael

JOHN W. MAPES, M. D., Paris, Ill., used Warner's SAFE Cure in 1880 and Nov. 24th, 1884, he said "my kidney trouble cured then, remains so to this day." John W. Mapes M.D.

EDWIN FAY, Esq., Davenport, Ia., in 1881 had Bright's disease and doctors said he could not live six months. Dec. 4th, 1884, he wrote, "Warner's SAFE Cure used as directed, will cure any case of Bright's disease. I am now free from any kidney disorder." Edwin Fay

FIFTH.-It is no small satisfaction to us to know that very many thousands of people owe their life and health to Warner's Safe Remedies.
