GRAIN AND PRODUCE MARKET

December Shorts in Corn and Wheat Facing a "Squeeze."

GRAIN TAKES SHARP ADVANCE

Cereals Have Upward Tendency as Soon as It is Learned that Many Have Deliveries to Make This Month.

OMAHA, Dec. 30, 1913.

The shorts in December wheat and corn face a "squeeze," scattered orders were filled in both those cereals for the present month and December wheat was bid up from 87⅝c to 88c and December corn from 68c to 70¼c. The net gains for the day were 1⅝c for wheat and 2¼c for December corn. An abnormal situation surrounds the market for December futures in wheat and corn. It is believed that the Armour Grain company, or someone doing business through that concern, is the principal long in December wheat and that James A. Patten or other speculators doing business through the Bartlett-Frazier company, are the big holders of December corn. The sharp advances in these two cereals yesterday was a surprise to the trade on the whole. The other months were ½c better for wheat and ⅝@¾c higher for corn. It is generally believed that while the Armour company is long a big line of December wheat it is short the corn and where it will make money in wheat it will lose in corn. The action of the wheat and corn market yesterday showed there was more of a shortage than anyone dreamed of.

The uneasiness displayed in the corn shorts was the result of a better cash demand in the southwest and an improved inquiry at Chicago, although the sales here were only 40,000 bushels.

Shorts covered in oats and prices were ⅝@½c higher. There was no new incentive for purchasing this grain. Cash prices were unchanged.

The helping hand in the provision market was the strength shown in corn. There was good buying by the Cudahys, which included those at Chicago as well as in Milwaukee.

Cash wheat was unchanged.

Cash corn was unchanged to 1c higher.

Cash oats were unchanged.

The following cash sales were reported: Wheat: No. 2 hard winter, 1 car, 89¼c. No. 3 hard winter, 1 car, 79½c. No. 3 spring, 2 cars, 80½c. No. 2 mixed, 1 car, 85c. Rye: No. 4, 1 car, 54c. CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Dec. 30.—Renewed assertions that the Canadian Parliament would likely abolish within a month the duty against wheat had a discouraging effect today on efforts to lift prices here. The market closed easy, ¼c to ⅛@¼c under last night. Other net losses were: Corn, ⅛@¾c to 1c; oats, ¼@¾c, and provisions, 50@75c.

Canadian tariff reports seemed to have more authority than heretofore, being vouched for by one of the leading concerns in the Chicago wheat trade. Simultaneously, it was denied that the Canadian rail rates for shipments to the seaboard had been reduced. A setback in final quotations from Liverpool counted also against the bulls, not much heed being given to dispatches saying the break was due to the acceptance of cargoes which it had been generally thought would be rejected.

Some firmness which developed in wheat soon after the opening turned out to be only of a transient character. The market made no lasting response to the cutting down of English estimates on the Argentine surplus, or to figures showing that farm reserves in Nebraska and Kansas are decidedly small and that the world's available supply had fallen off.

Notwithstanding that corn at first showed a sudden bulge, the result of shorts finding that offers were scarce, the market afterward gave way under heavy sales induced by the advance. Large deliveries are expected tomorrow. Mild weather also was influential in causing the late weakness. Realizing on the part of the longs pulled down oats. At the extreme decline, however, commission house buying was fair.

Provisions went lower chiefly because of lard and ribs being freely unloaded by a western packer who yesterday had furnished support to prices. Downward impetus came, too, from the fact that hog supplies were larger than expected.

NEW YORK STOCK MARKET

Advance Interrupted in Two Preceding Sessions Resumed.

LEADING SHARES HARKED UP

Movement Lacks Power of Last Week's Rise and Demand Not Sufficient to Sustain Prices at Higher Range.

NEW YORK, Dec. 30.—The advance in stocks, interrupted in the two preceding sessions, was resumed for a time today. Leading shares were marked up one to two points. But the movement lacked the power of last week's rise and the demand was not sufficient to sustain prices at the higher range. Operations on the long side were not aggressive, and it was apparent that the advance was being utilized for further realizing sales. Gradually the list settled back until the effects of the early rise had disappeared, and the speculative favorites showed losses on the day.

There was little incentive to fresh efforts on the constructive side. The recent advance failed to stimulate public buying on a large scale, and at the same time it weakened the markets by driving in the shorts.

Announcement of the appointment of receivers for certain stores and interest of the Siegel Stores corporation apparently had little effect at the moment, but it was influential in bringing on the slow reactionary movement of the afternoon. The market had to contend also with the effects further foreign selling, due to unfavorable conditions in the European investment markets and the year ends. London sold about 10,000 shares here.

Union Pacific's November showing of a decrease in operating income of $453,600 was in line with the unfavorable reports of other large systems. Canadian Pacific, however, reported a gain in net of $630,000, and that stock responded temporarily with an upturn of two points.

Bond prices averaged higher, with some inactive issues rising materially. Total sales, par value, $2,160,000.

United States 4s, coupon, advanced ¾, and 2s, registered, declined ½ on call.
