GRAIN AND PRODUCE MARKET

Wheat is Brought Under Pressure and Price is Lower.

CORN CROP OUTLOOK IS GOOD

Expert Returns from Extended Trip Through Growing Belt and Says Rains at Intervals Will Bring Fine Yield.

OMAHA, July 12, 1913.

There was a partial change in conditions surrounding the wheat market at Chicago yesterday. This was the result of lower bids sent to the country from Chicago, coupled with a hardening in ocean freights and an almost complete standstill in the sales of wheat for foreign shipment. There were unconfirmed reports of sixty loads for export. Wheat was lower at Chicago, and it was under pressure during the entire session. The losses were 1 cent and the fact that the nearby months were the weakest told of the probable increase in the offerings of the new crop from this time forward. Notwithstanding the fact that the purchases in the country were much smaller on Chicago account, there were over 1,000,000 bushels of wheat received at primary markets yesterday, which was nearly three times greater than the receipts for the corresponding day last yea.

The news from the spring wheat country on both sides of the international line was encouraging to the bears. Rains where needed were reported in the United States and conditions for the better were shown north of the international line.

The fact that shorts bought a great deal of wheat at Chicago yesterday, in order to secure profits, held prices at a level above where the close would have been hands had not this demand been in evidence.

Cash wheat 1@1½c lower.

Oscar K. Lyle, one of the oldest crop expert men and a man who knows conditions when he sees them, was on the board of trade yesterday from a trip throughout the entire country, and in speaking of the promised crop of corn said that with rains at intervals as needed all records will have been smashed during 1913.

Cash corn was ½@¾c lower.

Farmers are now convinced that to hold oats any longer will mean additional losses to them, and it looks as if they will all endeavor to merchandise their holdings as rapidly as cars can be secured to carry it to points of distribution.

Cash oats were ¼@½c lower.

Clearances of wheat and flour were 133,000 bushels; corn, 37,000 bushels; oats, 7,000 bushels.

Liverpool wheat closed ¼@¾c lower; corn, ⅛@¼c lower.

Primary receipts were 1,197,000 bu. and shipments 906,000 bu.; against receipts of 632,000 bu. and shipments of 412,000 bu. last year.

Primary corn receipts were 380,000 bu. and shipments 618,000 bu., against receipts of 389,000 bu. and shipments of 635,000 bu. last year.

Primary oats receipts were 662,000 bu. and shipments of 463,000 bu., against receipts of 255,000 bu.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 12.—Wheat prices fell to a lower level today for July and September than had been reported before at any time this season. Excellent rains of advantage to the entire spring crop had much to do with making the market weak. The close which was nearly at the bottom point reached a net loss of 1⅞@1½c to 1⅞@2c net. Corn finished ½ to ¾c down; oats off ½ to ¾c and provisions varying from 10c decline to a 5c advance.

General selling of wheat by longs bore down the market from the outset. Cables were lower and there seemed to be no evidence of export demand. About the only demand there was came from shorts who were taking profits.

Hedging sales due to a large run of winter wheat to market had an increasing bearish effect in the last half of the day. Primary receipts for twenty-four hours amounted to 1,197,000 bushels against 632,000 bushels a year ago. This completed an average of more than a million bushels a day arriving at the principal terminals throughout the week. Seaboard clearances of wheat and flour today equaled only 133,000 bushels.

Sentiment in the corn crowd became rampantly bearish as a result of the continued fine weather and the improved outlook for the growing crop. Owners imloaded on an extensive scale. Oats broke with other grains. One house alone disposed of more than 1,000,000 bushels.

Action in the pit had a see-saw character. The reason was that firmness of the hog market conflicted with sympathy for the weakening of the cereals.

Cotton Market.

NEW YORK, July 12.—COTTON—Futures closed steady. Closing bids: July, 12.06c; August, 12.06c; September, 11.66c; October, 11.44c; November, 11.34c; December, 11.35c; January, 11.30c; February, 11.31c; March, 11.36c; May, 11.40c. Spot closed quiet; middling uplands, 12.30c; middling gulf, 12.55c; sales, none.

The cotton market closed steady, net unchanged to 3 points higher.

Dry Goods Market.

NEW YORK, July 12.—DRY GOODS—Cotton goods markets are quiet and steady, with interest centering largely in the openings of many novelties in spring fabrics for the season of 1914. Linens are quiet. Burlaps are very firm for spring delivery. Men's wear lines are being shown in a quiet way more freely. Jobbers report having had a good week.

Metal Market.

NEW YORK, July 12.—METALS—Markets were dull and practically nominal; lake copper, $14.50@14.75; electrolytic, $14.25@14.50; castings, $14.25. Iron, barely steady; No. 1 foundry, northern, $15.75@16.00; No. 2, $15.25@15.50. No. 1 southern and No. 1 southern soft, $14.75@15.25.

ST. LOUIS, July 12.—METALS—Lead: Steady, $4.30. Spelter: Firm, $5.30.

Wool Market.

LONDON, July 12.—There were 11,625 bales offered at the wool auction sales today. Yesterday's steadier tone was maintained under a good demand from all sections. Americans purchased a few lots of suitable crossbreds. The best grades ruled in sellers' favor.

NEW YORK STOCK MARKET

Distinct Hardening in Tone Evident on the Exchange.

OPENING FOLLOWS LONDON LEAD

Reports of Rains in Sections Thought to Be Drouth-Stricken Strengthening Factor.

NEW YORK, July 12.—There was distinct hardening in tone on the stock exchange today, but otherwise the market presented few changes from the previous session, which was the dullest in seventeen years. Many traders did not take the trouble to go to the street and those who did found no evidence of reviving interest in speculation.

The market at the opening followed the lead of London, where American stocks had been placed on a slightly higher level. A more cheerful feeling abroad was reported and there was some buying here for London account, which helped to give the list an appearance of strength. Canadian Pacific opened two points higher and later increased its gain. Bethlehem Steel, New Haven and the Petroleum stocks made substantial advances. The stock market leaders, however, moved only fractionally.

A factor in strengthening the market was the satisfactory character of private crop reports to the effect that in some sections seriously affected by drought, rains in the last few days had improved conditions greatly. Trade reviews for the week told of a more confident feeling, with some increase in business as for future account.

The expected cash loss amounting to $7,800,000 was shown in the average statement of the banks, reflecting the week's exports of $5,000,000 gold to France and diminished receipts from the interior. In the actual table, however, a small gain was shown.

Bonds were steady. Total sales par value, $410,000.

Some of the further heaviness developed in government bonds today. United States bonds declined ½ to 1 point on call on the week.
