GRAIN AND PRODUCE MARKET

Wheat Pit Statistics in Favor of the Bulls.

MAY CORN BEARS HOLDING JULY

Expect to Encounter Some Obstacles in Their Endeavor to Play the Market for Second Time in Year.

OMAHA, May 5, 1913.

Statistics to come forward after the close today will more than likely overbalance anything in the way of bear news that may be thrown into the wheat pit. The statistics will favor the bulls not a little, as they will show a further pronounced decrease in the visible supply, as well as a falling off in the amount of breadstuffs on the ocean destined to importing countries. There will be smaller world's shipments, with a light percentage destined to the United Kingdom, and a further reduction in the amount of wheat held in the Chicago grain elevators. Those who have been in the speculative wheat world any length of time know that while the taking of a large amount of cash wheat always proves a help to values any pronounced deterioration would do more to scare shorts under cover, as well as draw investors into the market. There are a few scattered sections of the southwest where chinch bugs are reported in the wheat. According to the Modern Miller there will be the largest crop ever harvested, and this, too, will permit some losses on account of insects. When the fact is considered that the crop outlook was never as rosy as it is this season it certainly will require continued helps from the bull side of the market to prevent sharp price losses. It is only five weeks before harvest of wheat will be commenced and only about two weeks additional before the arrival of the first car of wheat will be announced. Cash wheat was ¼@½c lower.

The big speculators who defeated the bears in May corn now are liberal holders of the July, and they expect to experience a little trouble in defeating the bears for a second time this year. They place considerable confidence in corn on the long side and give it as their opinion that the cash article will be wanted, and that in case of any crop losses there will be a great scramble by shorts to get under cover.

Cash corn ¼c to ½c lower.

It is said by many in the oats trade that with favorable weather the market will sell to a lower level.

Cash oats ¼c higher to ¼c lower.

Clearance: Wheat and flour equal to 690,000 bushels; corn, 65,000 bushels; oats, none.

Liverpool close: Wheat, ½d lower to ½d higher; corn, unchanged.

Primary wheat receipts were 1,214,000 bushels and shipments 547,000 bushels, against receipts of 1,066,000 bushels and shipments of 623,000 bushels last year.

Primary corn receipts were 578,000 bushels and shipments 578,000 bushels, against receipts of 1,013,000 bushels and shipments of 696,000 bushels last year.

Primary oats receipts were 782,000 bushels and shipments 572,000 bushels, against receipts of 578,000 bushels and shipments of 504,000 bushels last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, May 5.—Wet weather was the chief influence today in lowering wheat values 5@6½c to ⅝c. The close was steady. Corn and oats both suffered net declines, corn ¼c and oats a shade to ⅛c. Provisions made a net upturn of 5@15c.

"Goodbye, chinch bug," said wheat traders today as they read reports of the soaking rains of Saturday and Sunday in Missouri, Kansas and Oklahoma. It is said the moisture stored by the fields will be enough to carry the plants through to maturity as well as rid it of the pests.

The downward course of wheat prices incident to the weather map was aggravated by the clearing of the disturbed political situation in Europe.

Primary receipts of wheat today were 1,214,000 bushels; last year, 1,005,000 bushels.

Seaboard clearances of wheat and flour equalled 600,000 bushels.

Expectation of increased country offerings lowered corn. The market showed a narrow range throughout the session. General rains caused heaviness in oats.

In spite of lower prices at the yards provisions made gains. Offerings were limited and there was good investment buying as well as covering by shorts.

NEW YORK STOCK MARKET

Montenegro's Decision to Yield Strengthens Securities.

SPIRITED BIDDING TO COVER

Traders Disappointed at Refusal of Supreme Court to Extend the Time for Harriman Dissolution.

NEW YORK, May 5.—The decided improvement in the European political situation consequent upon Montenegro's decision to yield to the powers and the resultant strength of securities abroad exerted the dominating influence upon the stock market today. Expectations of speedy settlement of problems which have menaced the peace of Europe for months opened up the prospect of the repurchasing of American securities by foreign investors. The situation was one which offered no comfort to the bears and there was spirited bidding for stocks to cover when the market opened. London also was in the market, buying most heavily of Steel, Amalgamated and Union Pacific.

Operations on the long side were carried on more confidently and in the first hour there was a quick upturn, resulting in gains for important issues of from 1 to 3 points.

Later trading grew dull and prices eased off, although in the final hour the list arose to under the top again.

Traders were disappointed at the supreme court's refusal to extend beyond July 1 the time for completing the Harriman dissolution, and Union and Southern Pacific sold off.

Bonds showed an improved tone. Total sales, par value, $1,870,000. United States bonds were unchanged on call.

Number of sales and leading quotations on stocks were as follows:
