Few new counties with forty-five miles of railroad within its borders exist which are not heavily bonded. Sioux county has never issued a dollar in county bonds and is practically out of debt.

Wheat is beginning to move a little. Thrie shipped a carload Monday evening and on Tuesday purchased over seven hundred bushels. He has the lumber for a grain house on the ground and will build immediately.

It is about time for those who want to stock their pond the coming season to get in their applications. The fish are distributed in February and March and the applications must be made in time in advance.

A new time card went into effect on the F. E. & M. V. last Sunday. The train from the east now leaves at 11:15, 5 minutes later than formerly, and the train from the west leaves at 6:50, ten minutes earlies than before.

If the old adage that "the first three days of December govern the winter" be true the coming winter ought to be much milder than those of the past few years for the first three days of this month were as pleasant as any one could wish.

I have purchased a larger and more extensive assortment of holiday goods. I will be glad to receive a call from you and believe that I can satisfy you in goods suitable for the holidays.

Most of these accounts are small, but in the aggregate they amount to hundreds of dollars to us. Do not wait for further notice but call and settle up or send a remittance for the amount.

PERSONAL.

S. R. Story was in Harrison Monday.

Mrs. Meis went to Omaha yesterday evening.

George Walker went to Omaha last evening.

H. H. Griswold went to Chadron last evening.

Don M. Weir was at the county seat on Monday.

Miss Ida Schwartz returned Monday from a visit to Chadron.

J. W. Langdon was in town Monday and called at this office.

M. J. Blewett orders THE JOURNAL sent to him at Bartlett, Wyo.

George Walker returned Tuesday from his trip to South Dakota.

H. H. Russell was in town Saturday and called and gave us some cash on subscription.

Mrs. Ulery has so far recovered from her recent illness as to be able to begin her school next Monday.

Frank Nutto was over from Indian creek on Tuesday and called and gave us some cash on subscription.

Frank Tinkham was in town Saturday and called at this office. He says his corn crop was of excellent quality.

A son of H. T. Merriam arrived from Iowa last Saturday and left on Monday for Deadwood where he will spend the winter.

C. E. Haas was looking after his Sioux county interests the past week. He is now located at the railroad shops at Chadron, and will likely be put on an engine before a great while.

—The editor is on the sick list this week and "the devil is running the printing press."

—George Gerlach was thrown from his horse a few days ago and broke his arm. Dr. Bridgman set the arm and he is now doing well.

—There will be a social at the M. E. Church on Friday evening Dec. 9, at 7 o'clock, for the purpose of raising funds to prepare for Christmas and purchase singing books for the children.

—W. S. Johnson, the cheese man of White River, was in Harrison on Monday. He reports the past season's work as satisfactory and expects to milk about seventy-five cows next year. He finds a ready market for his cheese at a profitable price. He has commenced work on his fish pond and will have it ready to stock in the near future.

—Geo. H. Turner was out to his farm on Antelope last week and threshed out over a thousand bushels of grain. He has been in a number of states and says he does not believe there can be found a better place for a man to carry on stock farming than Sioux county. He also informed us that he would put his small grain in with a press drill in future, being satisfied that he will get better results than by sowing broadcast. Other farmers should follow his example.

—The rock work and grading on the new road is practically done and all that remained to complete the road is to make three fills. Bids were put in to do that work and the committee last Friday called on the people of the town to contribute what was neccessary. It did not take long to raise the necessary amount and the work will soon be completed and the best road ever had from the valley up the hill will be open to travel and that, too, without one dollar cost to the county. Of course more work will be needed in the future in widening the roadbed, but that which is done is of such a character that it will be permanent and as there will be no bridges and no places to wash out it will be economical as well as good. In this matter much credit is due to Judge Barker. He has been untiring in his efforts for years past to get a good road for the people in the valley to come to town over. He did all the surveying, all the superintending of the work and a great deal of good, hard manuel labor to accomplish what has been done without any compensation whatever. Some do not appreciate what he has done, but the time will come when all will accord him the credit due and THE JOURNAL moves that the thorough-fare be christened and called "Barker's road."

—A few days ago we received a nice lot of onions from Leopold DeBock which are as fine as can be produced anywhere and so large that a few of them exceed a pound and a half in weight. Mr. DeBock thoroughly understands the art of vegetable growing and is finely fixed for the business.

Prof. Barbour, the state geologist, was in Harrison yesterday, and secured a sample of Sioux county soil for the world's fair. He is going to get a sample of soil from every county in the state and expressed the opinion that the sample of our soil was a good one and would make a good showing at the big fair.

G. W. Hester will put up a 12-foot geared Aermotor at his farm in the near future and fit it up so that he can attach any machinery he desires to run as well as have his water pumped. A. Hasselquist will also put up an Aermotor at his farm. It will not be long until a farm without a windmill will be a curiosity.

Great Horse Sale.

The undersigned will sell at Harrison on Saturday, December 17, at Hoyt's livery barn about 25 good, young horses and mares, all are halter broken and most of them broken to harness, and all are gentle.

"Mary,

The Queen of the House of David," by Rev. A. Stewart Walsh, D. D., with extended introduction by Rev. T. DeWitt Talmage, D. D. is a new book just published. Mary is a stronger book than Ben-Hur in many respects and has met a tremendous sale. It has ten illustrations, all taken from famous paintings. It has the enthusiastic commendations of Benson Lossing the Historian, who says "It has a fascination on every page," and Headley, who says "The elegant book has no rival in the field of literature it occupies." Miss Willard calls it a "Vivid picture, whose whole tendancy is to ennoble while it attracts and entertains." Mrs. Bishop John P. Newman, of Omaha says "I think there are portions of it that can hardly be excelled in any work of the kind;" to sum it all up it is a most blessed book and one that will make the heart of every Christian mother throb with pleasure. Among others who recommend it very highly we note Joseph Cook of Boston; John Hall D. D. of New York; Thos. Armitage of New York; Mrs. Phelps, the Chautauquan and hundreds of others.

"Seeing is Believing."

And a good lamp must be simple; when it is not simple it is not good. *Simple, Beautiful, Good*—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is *absolutely safe* and *unbreakable*. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either.

Look for this stamp—THE ROCHESTER. If the lamp dealer has n't the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the *Largest Lamp Store in the World*.
