"Oh consistency, thou art a jewel."

The concert given by the Glee club Saturday evening was excellent and the best ever given in Hemingford. Each member is deserving of praise, and judging from the way the audience applauded, they could not help but feel that their first entertainment was appreciated. Much credit is due Lee Rustin, the president and leader, who has labored faithfully to make it a success. The club contempates giving another exhibition in the near future and THE HERALD ventures to say there will be no vacant seats in the opera house.

We are in receipt of a letter from our friend ex-county clerk J. K. Neal who with Mrs. Neal is visiting the old home in Tennessee. Among other things Mr. Neal says that "the weather is pleasant most of the time though it is disagreeable to get about owing to the mud. * * Many kinds of fruits and berries are preserved and honey is almost as common as potatoes in Box Butte. * While the people have plenty to eat, everything is very low, except cattle, and money seems to be even scarcer than in Nebraska. * We are going to North Carolina this week where we will stay a month probably. * * Dont know just when we shall start home."

The editor acknowledges receipt of an invitation to attend the closing exercises of the Box Butte literary this evening. A good program has been prepar- and no doubt the meeting will be interesting.

LATER—Postmaster Atkin writes us that the Literary has been postponed, owing to diphtheria. He says there are three cases in the neighborhood.

It is said that the three or four Alliance sharks have abandoned the idea of dividing the county and are now circulating a new petition for the removal of county seat and claim to have all the way from 100 to 500 signers. Farmers, don't allow yourself to be worked by those fellows, for you are the ones who will have to foot the bills

Although opposed to the free distribution of seed, Sec'y Morton very promptly arranged to carry out the mandate of Congress and Senators and Representatives were notified several days ago that their quotas of seeds were ready and would be mailed by the seedmen from whom they are purchased, under Congressional frank, as fast as addresses were sent in. The quota of each Senator and Representative will be 15,000 packets of vegetable seeds in packages containing 15 assorted varieties, and 1400 packets of flower seeds in packages containing five varieties.

Miss Jessie Harris of Dist. No. 76 has a very pleasant school and the atmosphere which prevaded the room told us that all worked with a will.

* * *

The school in Dist. No. 21 can boast of a fine school building and all necessary furniture, a persevering crowd of pupils, and a hard working teacher in the person of Miss Izetta Bonds.

* * *

By reading the record given by some of our most noted educators of centuries past we notice that they sought to makethe very exercise of learning agreeable and rob it of its irksomeness by intervening honest mirth and comely exercises. The same method is practiced in Dist. No. 14, where Mr. H. F. Fillmore expounds knowledge and the results are such that anyone might be proud of.

* * *

Mrs. E. E. Ford of Dist. No. 20 believes and carries out to the full extent that teachers who desire to reap a rich reward must do as the husbandman who has the fullest birn in harvest time, rises earliest, and come latest home, and are content to have their dinner and drinks brought into the field to them, for fear of losing time. She realizes that seed time is now, the harvest later.

The School Directors will please notify the Co. Supt. the date of commencement of schools, as she desires to visit each school in the county before July 1st.
