CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 26.—Wheat was nervous today, the main influence being conflicting opinions as to the likelihood of frost damage in the northwest. The close was firm at a net gain of ⅝ to ⅞c, with September at 99⅞c and December at 98⅛c. Corn was strong at the close, ⅝ to 1c net higher, with September at 74⅝c and December at 64⅜c. Oats finished ¼@⅜ to ½c higher. Provisions, 10@12½c lower to 12½c higher.

Agitation in wheat began early in the session. The weather map showed frost in the northwest and the Devil's Lake section was marked "killing frost." This gave the market a strong opening, but prices soon receded when some of the big houses became free sellers on a claim that though there had been frost a large part of the crop was already in and of course had escaped harm.

Later the frost reports were again circulated and some experts held that Canadians in making their first assertions that no damage had been done were misled. It was known that temperatures in the northwest had been very low and it was feared by many that the optimistic opinions as to wheat safety were not fully warranted. Bullish sentiment was augmented by predictions of further cold and possible frost in the greater part of the northwestern wheat belt and the market took an upward turn, affected, too, by the activity of shorts who in the final hour rushed to cover.

The entire corn belt showed cooler weather and predictions were for continuance of it. Frost was particularly feared as the crop is late in being gathered, the recent chilly weather having retarded its ripening. The market showed firmness through the last half of the session and buying was active.

Oats eased a little after a firm opening. There was a light demand at first, but commission houses and cash concerns soon lifted prices and imparted strength that lasted till the close.

Liquidation in September pork and ribs was a feature of the provision market. The amount of business was not large.

Omaha Hay Market.

OMAHA, Aug. 26—HAY—Prairie: Market conditions are unfavorable to the shipper. A very large supply of hay is on the market and a large proportion of it is hot and out of condition. A good deal of off-colored, weedy and coarse hay is included in the supply. The best is taken and the poor is left. There is nothing but loss to the shipper on all of this out of condition and coarse off-colored hay here at the present time. Hay is selling as low as $4.00 to $5.00 per ton and the best is selling at around $9.00 to $9.50, and a great deal of demurrage is accruing on hay that is out of condition, and even the best is drawing car service. Hay still continues to arrive from Kansas City. There were about twenty cars arrived here yesterday. The total supply on all tracks here amounts to about eighty cars, thirty-five on the Union Pacific, twenty-five on the Northwestern and twenty on the Missouri Pacific. There is some very nice hay arriving from Kansas City. Top price quoted in Kansas City yesterday was $9.00 to $9.50. HOGS—Supplies were very fair again this morning, 134 cars, or 8,700 head, making up the day's estimate. This, with the eight or ten cars held over from yesterday, gave buyers a very fair showing to pick from. So far this week receipts have been 30,075 head, being 6,600 smaller than last week, and 1,000 short of a year ago, but 3,000 larger than two weeks ago.

Packer market opened a nickel higher than yesterday's average on the lighter mixed and butcher weight kinds, but continued to be pretty much of a drag on the heavies. Some heavy mixed hogs sold a nickel above yesterday's low close, but, as a general thing, the weighty grades were not much better than steady with yesterday's average. As was the case yesterday, heavy hogs showed a weaker trend on the close, and the late market was very dull, a few loads being left in first hands at a late hour in the afternoon.

Big end of the packing hogs again sold at $6.35@6.50, but there was a fair showing of butchers as high as $6.60, and a sprinkling of good butchers and lights on up as high as $7.50, the top.

SHEEP—Receipts were liberal again today, sixty-five cars, or about 17,500 head being reported in. For the week to date the run foots up 91,844 head, as against 89,554 last week, 82,114 two weeks ago, and 104,010 a year ago. During the first half of the week official receipts were nearly 55,000 head, but in spite of these heavy runs prices held fully steady and on Tuesday and Wednesday made noticeable gains. Active markets have been a feature of this week's trading, and on every day so far clearances have been made before noon.

Today, with another run here, prices made the biggest advance of the week, fat lambs selling fully a quarter higher than yesterday. Trade was a little slow in getting started, as buyers were not inclined to concede as much of an advance as sellers were asking, but once the trade was stated everything packers could possibly use was cleaned up in short order. Bulk of the good to choice lambs moved at $8.90@9.00, with an eight-car string as high as $9.10, the highest price paid since July 13, when choice westerns brought the same figure.

Quotations on sheep and lambs: Lambs, good to choice, $8.90@9.10; lambs, fair to good, $8.00@8.90; lambs, feeders, $7.75@8.40; yearlings, fair to choice, $5.75@6.75; yearlings, feeders, $6.00@6.90; wethers, fair to choice, $5.25@6.25; ewes, good to choice, $5.25@6.05; ewes, fair to good, $4.25@5.25; ewes, feeders, $4.25@4.75.

NEW YORK STOCK MARKET

Trading Relatively Quiet Except in the Opening.

DEMAND FOR METAL SHARES

NEW YORK, Aug. 26.—Statements from official sources that the Arabic episode is likely to be adjusted without further friction between this country and Germany furnished the basis for another moderate upward movement today. Trading was relatively quiet, except in the opening and final trading, but what it lacked in activity was offset by greater breadth.

Metal stocks, so long dormant, were in general demand, their strength being associated with the better market abroad, copper futures registering an advance of £3 sterling per ton in London. Tennessee Copper was the sensational feature of that group, rising by leaps and bounds just before the close to 65, a new high record and an overnight gain of 11¼. A week ago Tennessee closed at 47⅝.

Shares of the various steel and iron companies made additional response to another advance in certain manufactured shapes, particularly plates and bars.

Foreign buying was again a factor in this industry, more orders being received for British and French accounts. United States Steel was under pressure however, despite opening gains of a point for both common and preferred at 76 and 112⅝, respectively. The common reacted later to 75¼ and closed at 75⅝ on sales of 150,000 shares.

War shares moved uncertainly, scoring early gains of 2 to 5 points, but making little upward progress later. New York Air Brake, Westinghouse and the Motors were the principal features, such erstwhile active issues as Bethlehem Steel and Crucible Steel sharing only lightly in the day's transactions. Railroads were again a negligible quantity, their occasional advance of a point being the signal for bear attacks. Realizing sales reduced many gains at the close. Total sales amounted to 725,000 shares.

The critical state of the foreign exchange situation was again exemplified in renewed weakness for remittances to London, Paris and Rome. Demand sterling fell to the new low rate of $4.63⅝, while French checks were offered at $5.98½ and lires declined 3c to $6.47½. Marks alone were firm at 81⅝c.

Recurrent selling of bonds for future delivery caused some irregularity in that list. Total sales par value aggregated $2,620,000.

United States bonds were unchanged on call.

Destroyers Battle; French Victorious

PARIS, Aug. 26.—Details of the action in which a German torpedo boat destroyer was sunk by a French destroyer on the night of August 22-23, are contained in a Havas dispatch from Dunkirk.

The German destroyer was more powerful than the French, the dispatch states, and the commander of the French boat asked by wireless for assistance. He did not wait, however, for the arrival of help, but engaged the German craft. The French boat fired first and scored a hit. It then launched a torpedo which sunk its adversary.

Edison Badly Burned By Potash Solution

WEST ORANGE, N. J., Aug. 26.—Thomas A. Edison, while at work in one of his laboratories at Silver Lake, N. Y., today was severely burned about the eyes by the accidental splash of a potash solution.

Mr. Edison was leaning over a filter when his assistant opened the wrong stop cock and the solution was thrown into his face. While his eyes were still smarting when he went home, Mr. Edison returned to work after dinner and it was stated at his home tonight that he had suffered no ill effects.
