GRAIN AND PRODUCE MARKET

Opening is Bullish on Foreign Advices of Russian Crops.

PRICES DO NOT RESPOND READILY

Wheat Opens Weak and Nervous, Notwithstanding the Inclination of Pit Crowd to Be Bullish.

OMAHA, June 14, 1907.

The market opened bullish this morning on foreign advices and discouraging reports from Russian crop conditions and excited German brokers. Prices did not respond readily, though, on account of domestic conditions pointing to more favorable crops, owing to the improved weather conditions.

Wheat opened weak and nervous, notwithstanding the inclination of the pit crowd to be bullish, and prices had a heavy break in spite of opposition on foreign advices. Growing weather and reports of continued improvement in crop conditions in almost all wheat sections have deprived the market of its chief bull incentives. July wheat opened at 89⅝c, asked, and closed at 89⅝c bid.

Primary wheat receipts were 420,000 bu., and shipments 384,000 bu., against receipts last year of 347,000 bu., and shipments of 152,000 bu. Corn receipts were 1,022,000 bu., and shipments 780,000 bu., against receipts last year of 770,000 bu., and shipments of 331,000 bu.

Clearances were 142,000 bu. of corn, and 9,000 bu. of oats, and wheat and flour equal to 314,000 bu.

Liverpool closed ¼d lower on wheat and ¼d lower on corn.

Argentina wheat shipments were 2,864,000 bu., as compared with 1,696,000 bu. shipped this week last year. Corn shipments were 1,582,000 bu., as compared with 2,189,000 bu. shipped this week last year.

Corn opened slightly lower in sympathy with wheat and the continued favorable growing weather. Commission houses are buying on this decline. July corn opened at 49⅝c asked and closed 49⅝c bid.

Oats opened some firmer, owing to heavy buying by bulls and the reports of green bug damage in Illinois, Indiana and Iowa. July oats opened at 41¼c asked and closed 41⅛c bid.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, June 14.—Ideal weather in this country and Canada for the new crop caused a fresh decline in wheat prices here today. September delivery closing at a net loss of 2¼@2⅝c. Corn was down ⅝c. Oats were off ⅛@⅜c. Provisions were 7½@10c to 15c lower.

Sentiment in wheat was extremely bullish all day and prices declined steadily throughout the session. A feature of trading was liberal sales by several of the leading bulls who have been taking profits freely for the last few days. The weak ening influence was the favorable weather in the United States and Canada. The beginning of harvesting operations in the southwest helped to stimulate selling by pit traders. Lower prices at Liverpool in the face of the strong close yesterday had a depressing effect early today. The market closed weak and almost at the lowest point of the day. September opened ½@¾c to 1⅛@1¼c lower at 89⅛c to 89⅜c, sold off to 91⅝c and closed at 92c. July sold between 88⅛c and 91⅛c and closed at 88⅝c. Clearances of wheat and flour were equal to 314,000 bu. Exports for the week as shown by Bradstreets were equal to 3,477,000 bu. Primary receipts were 420,000 bu. compared with 347,000 bu. for the same day a year ago. Minneapolis, Duluth and Chicago reported receipts of 284 cars against 344 cars last year and 190 one year ago.

Liquidation by local and outside longs caused weakness in corn. The market was also subjected to sales by cash houses which was generally taken to indicate an increase in country offerings. The close was weak. September opened ⅛@⅜c lower at 52⅝c to 52⅞c, sold off to 51⅝c and closed at 51⅞c. July ranged between 51⅝c and 52⅝c and closed at 51⅞c. Local receipts were 786 cars with 304 cars of contract grade.

Oats for July delivery displayed considerable strength early, while other positions were weak owing to the excellent weather. Later July also slumped off, leading long was the principal seller. September opened ⅛@¼c lower at 35⅝@3c to 35⅝c, sold between 35⅛c and 35¼c and closed at 35⅛c. July sold between 42½c and 43⅛c and closed at 42⅝c. Local receipts were 155 cars.

Provisions were firm at the start owing to smaller receipts of hogs here and at western packing centers. Later the market weakened on selling by packers, based on the decline in grain. At the close September pork was off 15c at $15.77½. Lard was off 7½@10c at $8.75@8.77½. Ribs were down 10c at $8.57½.

Estimated receipts for tomorrow: Wheat, 10 cars; corn, 341 cars; oats, 128 cars; hogs, 14,000 head.

The leading futures ranged as follows:

Wool Market.

BOSTON, June 14.—WOOL—The Commercial Bulletin of Boston, basing its report upon statistics gathered by the government, will say tomorrow of the wool market: The general market is quiet. The volume of business is swelled by heavy transfers of fine Australian stock, amounting to about 2,000,000 pounds. The sales of domestic wools are moderate, largely owing to the small offerings of desirable old and the limited receipts of new. New Arizona wools, the first of the new clip to be received, are about sold out. A fair amount of new spring Texas sold at 22@ 24c. Fleece wools are dull and wholly nominal. The Australian business was largely at 42@44c, and on the scoured basis around 85c, but a small quantity of very choice sold on the basis of 90c. There is a steady tone to the market and rather a better feeling, due to high country prices and the probable scarcity of good warp wools between now and January 1. Operations in the new clip are on a large scale, manufacturers playing a more important part than usual. Estimates of the scoured landed cost of new territory wools are not less than 68c for staple and 66c for clothing.

The shipments of wool from Boston to June 13, inclusive, according to the same authority, are 126,320,164 pounds, against 108,997,969 pounds at the same time last year. The receipts to June 13, inclusive, are 114,856,723 pounds, against 114,834,836 pounds during the same period last year.

ST. LOUIS, Mo., June 14.—WOOL—Weak; medium grades combing and clothing, 26@ 28½c; light, fine, 21@22½c; heavy fine, 15@ 17c; tub washed, 30@37c.

Metal Market.

NEW YORK, June 14.—METALS—The London tin market was higher, with spot closing at an advance of £1 15s to £186, while futures were 15s higher at £180. Locally the market was quiet, with spot quoted at $41.62½@42.12½. Copper had a sharp advance in the London market, with spot closing £2 10s higher at £97 10s and futures 12s higher at £92 15s. Locally the market continued quiet and quotations were practically nominal. Lake was quoted at $23.75@24.50; electrolytic at $22.50@23.25; casting, $21.50@22.25. Lead was unchanged at $5.75@5.85 in the local market, but advanced 5s to £21 5s in London. Spelter was 2s 6d higher, at £24 10s in London, but was dull and unchanged in New York, with spot quoted at $6.40@6.50. Iron was higher in the English market, with standard foundry quoted at 56s 9d and Cleveland warrants at 57s. Locally the market was quiet and unchanged. No 1 foundry northern is quoted at $23.00@24.25; No. 2 foundry northern, at $23.00@23.75. Southern grades are nominal so far as the New York market is concerned.

ST. LOUIS, June 14.—METALS—Lead, quiet, at $5.67½. Spelter, steady, at $6.37½.

NEW YORK STOCKS AND BONDS

Offerings Are Heavy During First and Prices Decline.

HOLDERS BECOME DISCOURAGED

Drop in Union Pacific Due to Rumors of Further Suits—Slight Rally Near Close on Buying by Shorts.

NEW YORK, June 14.—The number of shares of stock sold in the early trading on the Stock exchange was largely in excess of the aggregate for the five hours of yesterday's session. This rate of activity was by no means maintained, but the market was appreciably broader and more active than recently. The motives for the free selling were not clear beyond the general discouragement felt by holders of stocks who are waiting for a profit from higher prices over the determined abstention from buying securities, which keeps the demand prostrate.

London was a seller here to some extent, and the news of an important failure at Alexandria was a depressing factor in the market, owing to the large commitments of British capital in the industrial extensions in Egypt and the fears of over-expansion there. Paris also continued the liquidation of securities. Discounts advanced in London, Paris and Berlin. Further engagements of gold for export were expected therefore, but were not announced until after noon. The announcement seemed to check the pressure on the stock market for a time, indicating that the weakness of stocks had been through fear of the gold export. The engagement of $1,000,000 for shipment to Paris by tomorrow's steamer brings the total on the present movement to $12,400,000. The declining tendency of New York bank resources in face of the coming requirement of the July 1 settlement gives growing importance to the Paris demand for gold. The loss by the banks to the subtreasury up to Thursday night of $2,395,000 is mostly due to last Saturday's exports of gold. The movement of currency with the interior has shifted this week largely in favor of New York, so that the loss of cash seems to be between $1,000,000 and $2,000,000. With last week's surplus already reduced to below $7,000,000 and prospects of further demand next week for gold for export, the outlook grows clearer for a hardening in the money market. Loans were offered today at 4 per cent. Some special weakness in Union Pacific was due to an uncorroborated report of an intended suit to compel the company to divest itself of ownership of stocks of other railroads. There was severe pressure upon Reading also, and this was connected with reports discrediting previous rumors of an intended increase in the dividend rate. A cause assigned for some of the selling was the tone of J. J. Hill's discouraging remarks on the outlook for railroad credit. Mr. Hill's assertion that the government would be compelled ultimately to lend its credit to the railroads to finance their needs was rather the play of a skillful dialectician to ground the course of an opponent in an absurdity than as a practical suggestion. The contention that the credit of the railroads has been ruined, however, and that they cannot finance loans offers small ground for cheerfulness amongst owners of railroad securities. Much of the selling was attributed to professional operations, but it was remarked that the decline in prices had no effect in inciting demand. The decline was equally ineffective in dislodging large offerings of stock. The demand from the uncovered shorts toward the close of the day was sufficient to cause some considerable recoveries.

Bonds were irregular. Total sales, par value, $950,000. United States bonds were unchanged on call.

Total sales for the day, 866,600 shares.

New York Mining Stocks.

NEW YORK, June 14.—Closing quotations on mining stocks were:

Adams Con.	10	Little Chief	4
Alice	200	Ontario	320
Breece	30	Ophir	180
Brunswick Con. offered	50	Potosi	9
Comstock Tunnel	26	Savage	43
Con. Cal. and Va.	65	Sierra Nevada	26
Horn Silver	130	Small Hopes	80
Iron Silver	215	Standard	125
Leadville Con.	65		

Foreign Financial.

LONDON, June 14.—Money was in fair demand and good supply in the market today. Discounts were firmer in view of possible gold requirements for Egypt and Paris. Trading on the Stock exchange developed a reactionary tendency. British securities eased on the slackening of investment purchases, but rumor of trouble in Alexandria and at Paris assisted in the earlier tendency, particularly in the foreign section, though quotations in the latter closed above the worst of the day on the better Paris close. Americans experienced little support during the forenoon, and under a few realizing sales prices ruled heavy. A slight hardening followed, but the receipt of the New York opening prices caused another setback and the market closed flat at the lowest quotations of the day. Japanese imperial 4s of 1904 closed at 102.

PARIS, June 14.—Prices on the Bourse today recovered on heavy purchases, following the recent declines, and at the close were firm. Russian imperial 4s closed at 73.10 and Russian bonds of 1904 at 404.

BERLIN, June 14.—There was a sharp depression in values on the Bourse today owing to the weakness of the western markets and the fall in the prices of iron in Great Britain. Iron shares lost over six points. Prices recovered somewhat on bear coverings.

REPORT OF THE CLEARING HOUSE

Transactions of the Associated Banks for the Week.

NEW YORK, June 14.—Bradstreet's bank clearings report for the week ending June 13 shows an aggregate of $3,610,497,000, as against $3,509,826,000 last week and $4,056,162,000 in the corresponding week last year. Canadian clearings for the week total $84,065,000, as against $89,199,000 last week and $76,543,000 in the same week last year. The following is a list of the cities:
