To the honorable board of supervisors of Holt county, Nebraska:

Gentlemen—Your petitioner states that he is a resident freeholder and taxpayer of Stuart township in Holt county, Nebraska, that during the entire year of 1901 all his cattle numbering about eighty head of cows were kept on section 29, township 31, north of range 15 west in Holt county; that none of his cattle during the year 1901 were kept within the corporate limits of the Village of Stuart or school district number 44 in Holt county. That all the above described property was assessed in the Village of Stuart and in school district number 44 and I respectfully petition the honorable board to reduce the rate of taxes to correspond with the rate on other property in the locality where my property is located and kept and to this end your petitioner ever prays.

The following communication from the county attorney was read:

Gentlemen—My attention has been called to your report of settlement with John M. Stewart, ex-sheriff of Holt county. Not having any official notice from you regarding this matter, the first knowledge I received of your finding, was in the press of the county. I note what you say in regard to having the county attorney "commencing action to recover to Holt county the amonnt due from the ex-Sheriff John M. Stewart." In your report you state that you have found that John M. Stewart has collected and retained $195 of fees charged in excess of the amount allowed by the statute of the State of Nebraska for the year 1901; you make further finding that the same excess charges were made for the years 1898, 1899 and 1900 and the amount of overcharges due to the county from John M, Stewart for all of said years is $436.65. As the prosecuting officer of this county, I stand willing to prosecute any public officer who has one cent that belongs to the county. I am ready to act in this matter, but I must have something on which to base a prosecution. Before a successful prosecution can be maintained it will be necessary to have the names of the particular cases and separate items of every charge in each case both those that are legal and those that are illegal; also the name of the person who paid the excessive or illegal charges. If you will kindly furnish me this information I will investigate and take the necessary steps to recover to Holt county any excessive charges that it has paid.

Yours Truly
Arthur F. Mullen,
County Attorney.

of grain can be threshed in a day (and threshed perfectly and separated thoroughly, without waste) if you have a Nichols-Shepard Separator. And the straw will be handled easily, without the slightest trouble and almost no litter, if you use the Nichols-Shepard Swinging Stacker. This takes the place and does the work of an independent stacker. It oscillates automatically, is easily swung to right angles with the separator to carry the straw to either stack or barn. This stacker has been demonstrated by thorough and practical tests in the field to be the handiest, most efficient swinging stacker ever attached to a thresher. Like every other feature of the

it is strongly and durably made, without any intricate parts to break or get out of order. All the advantages of the Nichols-Shepard Separator and the Nichols-Shepard **Traction Engine** are fully described and illustrated in our free catalogue. Write for it.

Cash for Cream

Farmers, Here Is Our Proposition:

We buy farm separator cream from farmers located anywhere within 500 miles of Omaha. We guarantee to pay for the butter-fat above the ruling prices paid at local creameries or skimming stations. For the past six months we have paid 20 to 25 cents per pound, at local railroad stations, for butter-fat. We receive the cream at the railway station in Omaha; there is no charge for drayage. We return your empty cans the same day, without any expense to you. We pay the freight both ways. We weigh each can of cream accurately before opening, on arrival. Samples are then taken and a careful test made with the Babcock Test to determine the amount of butter-fat. We send you a statement each week and a check in full payment for all cream shipped during preceding week.

Send us a postal card for full information.
