Weeping Water is said to be perfectly safe from an attack. If a Spanish gun boat found its way up the Weeping Water, the Nehawka boys would steal all the guns off of it before it could reach Weeping Water.

His yearling bull will be returned to him by first freight. This probably closes the incident which was the boldest piece of thievery ever committed in this county. We are glad to note his promotion but regret to lose him from this city where he has a host of friends.

Guy Livingston returned home this morning from Lincoln after interviewing Adjutant General Barry and can give the boys more encouragement with reference to enlisting under the present call for volunteers. Plattsmouth long ago was entitled to a company in the state militia and the fact that we had no place there to be used to crowd our boys out. Guy was promised first place for his company if any more than two regiments are accepted by the government.

A DOUBLE WEDDING.

Two Prominent Young Ladies Wedded Near Louisville.

Mr. and Mrs. John Ferguson, who have resided for nearly a quarter of a century on their beautiful farm south of Louisville, were the host and hostess for a jolly crowd last evening of over fifty people, who were in attendance at the wedding of their two daughters, Lulu and Exa, to two prominent residents of Nemaha county. The young ladies are, without flattery, two of Cass county's handsomest, and the wedding was the social event of the year in that part of the county.

It was 8 o'clock last evening when Miss Exa and her affianced, Mr Frank Ivers, entered the spacious double parlors, accompanied by Miss Lulu and her fiancee, Mr. Leslie C. Scott. Mr. Conrad Schlater of this city played the wedding march as the couples entered the room and took their places in a floral-embowered alcove, where the fateful ceremony was performed by the venerable Rev. Wilkinson of Weeping Water, assisted by Rev. Calvert of Louisville.

The parlors, by the aid of potted plants and the sweetest of April's gifts to spring, the shell pink apple blossoms and roses, was a paradise of floral beauty. The brides were beautifully gowned in a shade of green with silk and lace trimmings, and looked most charming.

After congratulations had been tendered the guests sat down to a sumptuous wedding feast that would be hard to equal. A large number of beautiful and appropriate presents were given in testimony of the love and esteem in which the young ladies were held. Among the guests from abroad were Wm. Ferguson and wife of Denver, Mrs. Scott and Mr. Ivers of Peru and C. Schlater and wife of this city.

The two young men who take with them today two of Cass county's nicest young ladies, are prominent residents of Nemaha, one a farmer and the other a station agent of the B. & M. They go to Lincoln first, then to St. Louis for a few days and then they return to their homes in Nemaha county with the best wishes of numberless friends in this county.

Bound Over to Court.

Col. McLeod charged with selling liquors without a license at Union came down from his home at South Omaha this morning. He went before Judge Spurlock and waived a preliminary examination. The Judge fixed the bond for his appearance at the next term of the district court which was quickly given and he returned this afternoon to South Omaha.

THE FIRST BATTLE.

American Torpedo Boat Cushing Meets Spanish Gunboat

AND A HARD FIGHT ENSUED.

The Spanish Craft Withdrew Damaged Badly—President Gives Portugal Until Tomorrow to Declare Neutrality or She Will be Declared an Ally of Spain.

WASHINGTON, D. C., April 27. [Special to the NEWS.]—The U. S. torpedo boat Cushing, while cruising seventy five miles from Havana this morning was attacked by the Spanish gunboat, General Lizero, a craft much larger and carrying heavier guns.

The engagement was terrific and lasted for several minutes. The screeching of the shells and the explosions with the noise of the cannon coupled with the boats which were ablaze with fire from the rapid firing guns made a grand spectacle.

The Cushing shot away the funnel of the Lizero and damaged the boat so badly that it withdrew and the torpedo boat was too light a craft to pursue, fearing another Spanish craft might be sighted. It came north for repairs, but was not damaged seriously, while the Lizero was riddled with the solid shot of the well aimed guns of the Cushing.

Washington, D C., April 27, 10 a. m.—[Special to the NEWS.]—President McKinley has notified Portugal that unless that government declares in favor of neutrality by noon tomorrow and clears its ports of hostile war vessels, it will be considered as an ally of Spain and he will proceed against it as such ally.

The Paris Heard From.

QUEENSTOWN, April 27, 1 a. m.—The steamer Majestic reports passing an American liner, presumably the Paris Monday morning in latitude 48.52, longitude 29.06.

The steamer Majestic passed the Paris at 4 o'clock Monday morning in latitude 48, longitude 29.

Excitement Runs High in Omaha.

A special to the NEWS from Omaha at 4 p. m. says: The Omaha Guards and Thurston Rifles are leaving for Lincoln and that fully 20,000 people are in and around the depot to see the boys off. Such a crowd was never seen here before and excitement runs high. The air is full of cheers for the boys who will soon go to the front.

The War Cloud.

Webster Eaton, says the State Journal, returned home Monday from a business trip to the City of Mexico. He was also at Monterey and other interior points and states that great interest is taken in the pending conflict between this nation and Spain. At Monterey the interest in war news was so great that the newspapers of that city issued extras, an action which is very seldom taken and which is resorted to only when the interest in a subject is widespread and of great magnitude.

"The Mexican government has no hostile feeling toward the United States, said Mr. Eaton, "nor have the Mexican people as a class. There is an aristocracy of Castilian blood and some old time Spanish dons in that country whose sympathy was always with a monarchical government and who are Spanish sympathizers. They were adherents of Maximillian and have not lost the bitterness engendered when the United States used its moral influence with the Mexican republic and against the Austrian pretender. President Diaz is not of this class, neither are the army forces and the Spanish sympathizers are without organization or influence."

In making the homeward trip through Texas, Mr. Eaton found the people of that state greatly aroused over the war and anxious to have a hand in it. At nearly all towns flags were flying and there was but one topic of discussion. It was war talk everywhere and at many places the militia was practically under arms, waiting for the word to come that would send them into the field.

The High School All Right.

Secretary of the Board of Education,
Plattsmouth, Nebraska:

DEAR SIR:—You will be pleased to learn that your school has been retained on the accredited list. We note the improvement that has been made in your school in the last year or two and feel warranted in placing your high school in class "A" of the accredited list.

We advise you to look carefully into the scholarship of those elected to fill vacancies. We are well pleased with the work of the Plattsmouth schools as done at present.

Yours truly,
J. W. CRABTREE, Secretary.

On the morning of Feb. 20, 1895, I was sick with rheumatism, and lay in bed until May 21st, when I got a bottle of Chamberlain's Pain Balm. The first application of it relieved me almost entirely from the pain and the second afforded complete relief. In a short time I was able to be up and about again.—A. T. MOREAUX, Luverne, Minn. LATEST FROM THE KLONDIKE.

George Halmes Returns With Broken Health and no Roseate Descriptions.

Geo. Halmes, who started for the Klondike in February with Mark White, Fred Stadelman, jr. and Mr. Jennings, arrived in the city yesterday more dead than alive, direct from Alaska. He gave a doleful account of things up north and soon got all he wanted of it. He had been suffering from an attack of pneumonia. His entire party were at the Chilkoot pass where over a hundred people were killed. Mark White and Mr. Jennings were caught in the snow and the latter came near dying as it took two hours to dig him out. Geo. and Fred Stadelman were a little farther back and did not get caught. According to his report the climate and the surroundings are something awful. Mark White was getting along fairly well and Fred Stadelman was the best of the crowd, the hardships having no effect on him. He says it will take the boys two more months before they can reach the diggings and judging from the crowd he has no confidence in their securing anything of value after they get there. The pass, according to his description, is about as mountainous and impassable a declivity as could well be imagined. He was delighted to get back home alive and will have several colors of fevers before he gets the Klondike fever again.

Her Sixty-sixth Birthday.

The children and grand-children of Mr. and Mrs. Joseph Wiescot gathered at their home west of Chicago avenue last evening to celebrate the latters birthday anniversary, taking with them an abundance of the many good things of life to eat. A most enjoyable evening was spent as the children are all of a jolly nature and have a great desire that their parents may see many pleasures. The only regret of the evening was that it was impossible for two of the daughters to be present. The mother and father are of the oldest residents of the city and are well respected by all who know them and it is desired by all their friends that God may spare them both to live to a ripe old age. The party broke up at a late hour with the many fond wishes that the mother may see many more such enjoyable birthdays as the one just past.

Plattsmouth May Be Left Out.

Guy Livingston was in Lincoln yesterday to see the governor and adjutant-general. He learned that but two regiments would be accepted by the general government to his great disappointment, as it had been previously arranged that the Plattsmouth company was to be known as Company A of the Third Regiment. The outlook, therefore, is very poor for the boys getting out on the first call. Guy went to Lincoln this afternoon to see if the adjutant-general could find some way in which the boys here could be mustered in. General Barry is kindly disposed toward the Plattsmouth boys and will do all in his power to make a place for them among the soldiers who go to the front.

Fail to Find Much Gas.

PIERRE, S. D., April 26.—The projectors of the gas well at this city after going about thirty feet in granite decided to go no deeper, but to cut the pipe at the strongest flow of water and separate the gas secured from this flow. It is estimated that enough gas comes up with this flow to furnish heat to create sufficient steam to operate a sixty-horse power engine, and it will be utilized. The flow of water and gas spouts about three feet from the mouth of the well the full size of the pipe, and as it falls back can be ignited, forming a fountain of combined water and fire, which is a sight to be found at but few artesian wells.

Among the new officers elected, we note the following: Grand Warden, Dr. Frank Burgess; Grand Sentry, J. M. Teegarden, Weeping Water, and Henry Herold one of the grand trustees

Earnings of the Burlington.

CHICAGO, April 26.—Gross earnings of the Burlington for the month of March were about $700,000 in excess of those of the same month last year. The official statement has not yet been made, but it is understood that the figures will show something very close to this increase.

Depot Park Improved.

D. S. Gould, chief of the supply department of the B. & M., contracted with W. J. White to have the high terrace at depot park nicely sodded and some seats placed along the fence near the fountain which has been turned on for this year. Mr. White began work this morning and will push it to completion. It will add greatly to the beauty of the park, and every resident of the city will be glad to know of the intended improvement. If the womans club would place a flower bed near the fountain and see that it had proper care it would be a service that the public would appreciate fully. They are doing such things in several of the cities where a special department of the club is given up to work of this kind.
