Start Right!

In the matter of an education, as of every other good thing, quality is a more important item of consideration than cost. A first-class education can only be secured where first-class facilities are provided; where the course of study is up-to-date in every requirement; where the teachers have a reputation for thorough, conscientious work, with a realizing sense of their great responsibility, and where a certificate of the student's work and worth means a passport to a good business position.

We have given many young people a RIGHT START IN LIFE, and that start gave them the impetus that led to success.

Do you want to get started right? Then avail yourself of the facilities afforded by
