Republicans Read This.

If every republican in Sherman county will vote their party ticket straight this fall we will lick the platter clean from top to bottom. There is still a wave of trouble at the seat of popdom and it is spreading more and more every day. In vain Polski and Rein have tried to heal the breach and just as sure as the republicans vote their ticket solid just that sure are we certain of winning everything on the ticket this fall. See that every republican vote is polled and vote the ticket straight.

Sherman county wants that $5,000.00 that I. M. Pelski lost.

Maxwell, a worn out republican politician is good enough for populists to vote for.

Changes in officers is a good thing as the Court House Ring said when R. D. Hendrickson was shoved out.

It was only those that aspired hard enough to pack the pop convention that were nominated on the ticket.

The candidates on the Republican ticket don't have to skip over the county touching the high places like Rein, Patten and Polski.

The populists are going to extend that non-partizan vote for republican Maxwell for Supreme Judge to other good republican candidates this year.

Does the Times Independent deny that I. M. Snyder, the kingpin, Draper, Sweetland, Nute and the other men we have named built up the populist party and if so why is it that such men have not been recognized at all.

Congressman Rein is breaking his neck in Custer county to defeat several of the pop nominees. He declares that the republicans have got the best ticket in the field and that the pop party in Custer county is rotten.

It is not a reflection on either Polski's ability or honesty that $5,000.00 was lost. No, of course not. There certainly was an ability to loose, even if his honesty as Treasurer is not called in question.

If you have a notion to vote for Rein and Polski just think a moment. Look at your parent trees. Think of your wife and children. Think of that mission of money goes that you have to pay in taxes out of ten cent oats and thirty five cent wheat.

According to the Times Independent E. S. Hayhurst candidate for Supervisor of Loup City Township is not a populist because he is a stockholder in the Sherman Co. city Irrigation Water power and Improvement Company, and worked for and voted for the bonds. Who are you trying to fool this time Eddy Brown.

The populist editors are constantly harping over the fact that Nichols' lawyers resorted to their motion to quash, some twenty odd errors which they claimed Judge Sinclair made in his rulings during the trial, and are trying to work up a prejudice against him in consequence. In other words they intimate that because Nichols' lawyers say that they were errors, it must be so. The fact is that most of the errors, if errors there were, were made in the papers drawn in the case by Long & Mathews and W. L. Green attorneys for the state. And because of the errors made by these gentlemen the court was compelled to either turn the prisoner loose or hold him by a thread until the papers were amended. While the papers were being patched up the court with eighty-four jurymen was compelled to wait at an enormous expense to the county. It took six hours to get the machinery in motion again. Think of a eighty-four jury men drawing pay for six hours and doing nothing but wait for these populist wind bags to get the case properly before the court. Green is Sinclair's opponent in the race in this district for the Judicial Judgeship, and we should think after the record he has made in this case that his month pieces would have sense enough to keep mum about it. He is claiming the honor of sending Nichols to the pen, when the fact is that even Nick's attorneys have the errors on the ground that Sinclair instructed Long, Green & Co. how to proceed to amend the papers so as to hold the prisoner. Judge Sinclair's record in this case meets with the hearty approval of all good citizens and his majority in Sherman county will be in good round numbers on the 5th of November next.

The independent party, according to the Times-Independent, must be a jewel. The Times said that the party denounced R. J. Nightingale because he supported the irrigation bond issue. If this be true then we take it for granted that the party made the Times editor chairman of the Independent county central committee because of the same reason, for Brown is a stockholder in the same irrigation company and advocated the bond issue in every issue of his paper during that campaign, and he is now supporting one of the stockholders to the same company for the office of supervisor.

Rein said when at the Judicial Convention "that he did not want the Clerks office." He feels quite wealthy no doubt. Let him stay at home. He needs a rest. He has had too much on his hands. Think of it! The duties of his office. The running of the senatorial convention and downing J. M. Snyder. The running of the county convention over a year ago and looking after the township caucus so that his friends were rewarded and his opponents defeated. Then the same thing this year with the judicial convention. To attend and run all these things he has had to spread himself over a large space of ground, and though care sits lightly on his brow, yet rest he must have. Yes let him have a rest and the county peace once more from his everlasting personal political plotting.

I. M. Polski has been tried in the balance and found wanting. Only about $5,000.00 this time.

LAW OFFICE OF NIGHTINGALE BROS,
Loup City, Nebr., Oct., 25th, 1895

TO NORTHWESTERN:—Through the columns of your paper permit us to say: We cannot but regard with wonder the singular malice and acrimony which seems to actuate the editor of the Times-Independent in publicly attacking us in three or four issues of his paper during the last two years. The cause privately assigned by him is that when he was employed as typo on the NORTHWESTERN eight years ago, he was discharged from its employ by the Nightingale Bros. influence, which statement is absolutely false and untruthful. But this alone is his motive. The fact is he has turned over his paper to H. M. Mathews to belch forth his private and political spleen at us, no doubt leads him to the belief that we are editing the NORTHWESTERN, which is equally false with the other supposition. His attack will not ship a into line for his candidate Louis Rein, and if Rein is elected as he was two years ago through a prejudice originated, maintained, disseminated and promulgated by himself and Rein, it will be a reflection upon the good sense of honest and liberty loving citizens of the United States who vote the populist ticket in this county. We shall not be in politics unless populists are more careful in their nominations, and in voting shall vote for the best men. A government can never be better than those who compose it. A party gets its reputation from the quality of its candidates. We shall continue to systematically throw our influence to whichever newspaper we please, this is a right that we shall continue to exercise notwithstanding the protests of the Times Independent. As we do not own a newspaper we do not expect to reply to any further attacks made upon us, but ask a generous public to bear in mind the motive influencing the attack.

NIGHTINGALE BROS.

More Campaign Lies Nailed

The last issue of the Times-Independent Rotten and Fakeifying

N. H. Mathews got out a most slanderous issue of the Times-Independent this week. He has wracked his brain considerably during the past few days.

It appears from Slotes article in the Times-Independent this week that he was equally guilty with Patten in turning the Farmer's Alliance elevator over to the Litchfield bank. Anyway he admits having supported the rotten proposition to change the by laws so as to be able to make the deal.

Think twice before you vote for Johnson for superintendent. The people of his own township sent a solid delegation against him to the county convention and in that convention they voted solid against him because, as we are informed they were so instructed and wanted a man they knew they could believe. The people of Johnson's township will support Mowery this year and by so doing will have cast their ballot for a man whose truthfulness has never been questioned.

The statement which the Times makes that Mr. Fuller and Mr. Bissell used whisky to campaign with is a black and contemptible falsehood, it is a lie held back for the last issue of that Mathewsiling sheet and is in keeping with his line of argument all through the campaign. They first charged that Mr. Fuller was not a resident and when we exploded that lie they dropped that argument like a hot potato. Mr. Fuller and Mr. Bissell will be elected notwithstanding the lies told about them.

According to the statement in the Times this week Jackson ex treasurer made his last deposit in the Litchfield State bank on February 1st, 1893, almost a year before his term of office expired. Do you know Mr. Times that it was this last deposit that caused Mr. Jackson so many sleepless nights and do you know that from that time on he worried every way he could to get the money out again, and only succeeded by a great effort in time for settlement at the end of his term. It was then that Jackson warned Polski not to deposit in that bank that he might profit by his experience. The misleading and treacherous article in the Times is simply intended to pull the wool over the eyes of the voters. Mr. Jackson's honesty and truthfulness has never been questioned. He says that he warned him when he turned the money over to him.

Louis Rein writes an attempted answer which he publishes in the Times-Independent this week in which he says that he had nothing to do officially with the Kowalski-Begger car of grain. He also admits that the car was "consigned to the County Central Committee." Now Rein was a member of that committee and how in the name of Heaven could he escape having anything officially to do with it. Judge Bent, another member of the same committee says that he protested against turning it over and that Rein agreed to wait for further instructions from the east but while waiting Rein went back on his word and delivered the whole car to Kowalski and Begger. Ask Judge Bent about it. In regard to the charge we made against him about having cashed warrants he acknowledges that he has done so when requested. Now why should a person request it when they can step into the treasurers office and cash the warrant. In the same article he has attempted to explain other points but they are equally as brazing.

The law makes provision that no treasurer shall be liable on his bond for money on deposit in bank under and by direction of the proper legal authority if any bank has given bonds. When Mr. Jackson was treasurer he asked the county Supervisors to designate the bank in which the county funds should be placed and the amount in each bank. But Polski as treasurer never did it. Tell us why. We think he wanted to deposit it in Nichols bank because Nick was a domo-pop and if he had asked the county Supervisors to designate the bank Nick would never have had over $500.00. Now tell us why Long and Mathews as the county attorneys don't sue that bond. Tell us why Long and Mathews have been making speeches all over this county for this treasurer that is liable for $5,000.00 to the county on his bond. Why does not Louis Rein ask the supervisors to sue that bond. He is county clerk, and Long and Mathews and Ed Brown say he is a good one. Now honest farmer don't let them fool you.
